There are just two kinds of Corn Flakes. One is the genuine—the other 14 are mere upshots—worthless imitations, placed on the market in less than a year.

The intention of the imitator is to confuse you, by copying the name and package of the original. It is their business to profit by the wonderful demand for "Corn Flakes" which was created by the delicious flavor of the

GENUINE TOASTED CORN FLAKES

But just remember: It took ten years to perfect this flavor. It is the product of the world's greatest food experts. The process of preparing is known only to the makers. And it cannot be copied.

That is why we want to impress upon your mind the importance of the signature of *W. K. Kellogg*. It appears only on the package of the genuine. Look for it when you buy. It is your absolute guide in getting the right Corn Flakes—the only one with a real flavor.

At all Grocers. A large package 10c.
