### CHILDREN SHOWED IT

Effect of Their Warm Drink in the Morning.

"A year ago I was a wreck from coffee drinking and was on the point of giving up my position in the school room because of nervousness. I was telling a friend about it and she said, 'We drink nothing at meal time but Postum Food Coffee, and it is such a comfort to have something we can enjoy drinking with the children.'"

"I was astonished that she would allow the children to drink any kind of coffee, but she said Postum was the most healthful drink in the world for children as well as for older ones, and that the condition of both the children and adults showed that to be a fact."

"My first trial was a failure. The cook boiled it four or five minutes and it tasted so fine that I was in despair. This time we followed the directions and boiled it fifteen minutes after the boiling began, and a decided success and I was completely won by its rich delicious flavor. In a short time I noticed a decided improvement in my condition and kept growing better and better month after month, and do my work in the school room with ease and pleasure. I would not return to the nerve-destroying regular coffee for any money."

"There's a reason." Read the famous little "Health Classic," "The Road to Wellville," in pkgs.
