

Cure The Habit

No matter what the death certificate says, the fundamental cause of one-half the deaths recorded is constipation. It robs the complexion of its clearness, the eye of its brightness. It's a slow but sure form of suicide. Cure yourself of the habit, not by drugs but by eating daily foods like

DR. PRICE'S WHEAT FLAKE CEREAL

made from the whole grain of the wheat, which, if eaten daily, will help to overcome habitual constipation.

Palatable—Nutritious—Easy of Digestion and Ready to Eat

Can be served hot. Put in a hot oven for a few minutes; or cook in boiling milk.

IS NOW A CITY.

Citizens of Scottsville Vote to Incorporate the Town.

Have Grown Weary of Being Known as Suburb of Beloit.

MILES OF SIDEWALK.

A New Brick Block for Masons and Merchants Completed.

Steel Jail Cell for Drunks Early Act of the Council.

Scottsville, June 8.—Since incorporation this town wants to be classed a city, in fact this hamlet of a few weeks ago has become a village. A few opposed incorporation, the majority won a handsome victory. One good thing already is the construction of two or three miles of cement sidewalks. Besides, the town has a marshal in P. E. Hillery who will see that the drunks are properly attended to, and the police judge, W. N. Bower, will show no mercy to the fellows who get drunk. He is no dollar man, but fines all such \$5 and costs for the first offense, and doubles it on the second arrest. A steel cell is on the way. Ira E. Keeler, mayor-elect, is at the head of the large general store of Keeler Bros. He has lived here so long that everybody knows him, and been so closely connected with the town's growth that it was the natural wish that he be honored with the first majority of Scottsville. The council are: Henry Phelps, E. E. Gilderleeve, J. A. Hunter, president and Dr. S. T. Blades, all business men and representative citizens.

C. W. Culp, who located here in March, 1870, and opened the Missouri Pacific railroad station here Sept. 1, 1873, says that Scottsville has wonderfully increased her wealth, but in population her growth has been slow. Scottsville is situated on the divide between the Republican and Solomon rivers, and commands a view of as rich country and thickly settled as any section of Mitchell county. Her wheat raisers believe they will harvest a fair crop.

Scottsville has been dubbed East Beloit, but her people won't stand for it. The town is a colony here of former Beloit people, and they are, mostly, in business and doing nicely. The Beloit crowd are: Mr. and Mrs. Henry Phelps, Mr. and Mrs. George W. Toler, who are president and cashier of the State bank, Dr. S. T. Blades and wife, E. T. Burgan and wife, J. A. Hunter and wife, Mrs. B. C. Culp, Fred Hoffmeister, J. Houghton and J. Earl Evans, the editor and publishers of the Advance.

Scottsville has a Ladies Aid society of the Methodist church. It is said when this good organization was effected one of the ladies moved to incorporate in the rules "that gossiping be strictly forbidden among its members." A wise suggestion which is wished that its members strictly adhere to.

One of the big improvements of Scottsville was the completion of the Keeler-Masonic block at a cost of about \$10,000. The building is 40x85 feet, the first floor being occupied by Keeler Bros' general store, and the second floor by the Masonic hall. This hall is one of the largest and best arranged in this section of the state.

Scottsville has a state bank, the deposits averaging close to \$50,000, and a surplus of \$1,500, and undivided profits of \$600. H. A. Phelps is president, H. W. Phelps, vice president, and G. W. Toler is cashier. There are also a lumber yard, two elevators, newspaper, two general stores, two drug stores, hardware, implements, hotel, furniture, blacksmiths, harness, etc.

There was more building accomplished here in 1906 than in several years past, and indications point to considerable this year. The new residence of Dr. S. T. Blades will cost about \$2,500, and that of C. F. Lipke about \$2,000.

Start taking the Bitters as soon as you notice any weakness of the stomach, liver or kidneys. You'll find it very beneficial for indigestion, dyspepsia, poor appetite, costiveness, or kidney ills.

to a first-class meal. They are going to play ball this season, and their earnings will be put into a fund for building a public hall.

LAKE MCKINNEY FULL.

The 4,000 Acre Basin Has Enough Water to Settle Irrigation Question.

Lakin, Kan., June 8.—A rise in the Arkansas river caused by the recent heavy rains in Colorado, sent a veritable flood down the Great Eastern ditch into Lake McKinney, and today the bottom of this huge reservoir is nearly covered. It is claimed by the sugar beet company that at the rate water is being run today in 21 days this lake will be filled. This means a two years' supply of water for Kearny county farmers will be bottled up. Everybody here is straining to the highest pitch, and hundreds are visiting the scene. It is a grand sight to see this immense body of water covering over 4,000 acres, and settling the question of crops for this year and next. There were also fine rains Thursday. Sugar beets are up and being cultivated, a few who planted at the beginning of the season. Generally speaking the best crop is just three weeks behind last year. All crops are looking fine, and everyone expects a bumper crop in Kearny county.

PROTEST FROM CHASE COUNTY.

Stockmen Object to Packers Demanding Examination of Cattle.

Cottonwood Falls, Kan., June 8.—At a meeting of the stockmen of Chase county, held in the court house in Cottonwood Falls, resolutions were adopted condemning the action of the packers in refusing to buy the cattle except subject to post mortem examination.

The meeting was a large and enthusiastic one, and has started a movement which will be taken up by other counties. A permanent Chase county packers' association was organized, the purpose of which is to work with similar organizations throughout the state and to have the stockmen's interests of the stockmen, and protecting them against the unjust practices of the packers. The officers of this association are: Charles Burnett, chairman; Henry Rogier, secretary; Robert Matti, Cottonwood Falls, treasurer; vice presidents, J. H. Mercer, G. Crocker, Henry Emmsch, Carl Palmer, J. H. Miller, Samuel Slabaugh, W. S. Romig, Earl Blackshear.

MIXED THE MEDICINES.

A Cherrylvale Woman Very Ill From Accidental Poisoning.

Cherrylvale, Kan., June 8.—Mrs. Jesse Hendricks was under the physician's care here for several days for a case of cholera. She was given tablets to be taken internally and another kind to be dissolved and applied externally. The latter tablets contained a large quantity of corrosive sublimate and in some manner Mrs. Hendricks mixed the two medicines and took the poison last night. Her husband was immediately summoned. The doctor injected various poisons to counteract the effect of the one taken and Mrs. Hendricks is now resting a little easier. Her husband is not yet considered out of danger.

POOR FARM ALMOST PAID.

Expenses of Neosho County Institution \$50 More Than Receipts.

Erie, Kan., June 8.—Neosho county has a county poor farm that is almost paying expenses. Commissioner Switzer has been making investigation along this line and his investigation for the past three months shows that the total expenditures of the poor farm were \$258.17, while the total receipts from sales of produce and other sources amounted to \$234.32, leaving a net cost of the farm of about \$24. The poor farm has a very able superintendent and a carload of beef that was being unloaded by one of the parties pulled. The complaints were sworn to by local parties and Mr. Taylor's part in the transaction was purely a matter of legal adviser. The temperance people contended that the county attorney is not in sympathy with them and that he is not aggressive in his efforts to enforce this law.

CLOSING GOODLAND SALOONS.

Carload of Beer Captured by the Temperance People.

Goodland, Kan., June 8.—Arch L. Taylor came to Goodland and started proceedings against two of the jointists and seized a carload of beer that was being unloaded by one of the parties pulled. The complaints were sworn to by local parties and Mr. Taylor's part in the transaction was purely a matter of legal adviser. The temperance people contended that the county attorney is not in sympathy with them and that he is not aggressive in his efforts to enforce this law.

TO IMPROVE CUDAHY PLANT.

General Officers of Company Will Invest \$250,000 at Wichita.

Wichita, June 8.—An inspection of the Cudahy Packing company's plant is being made here and improvements to cost \$250,000 are being planned. The party of officials came to Wichita from Omaha. It has been practically decided that there will be erected at once at the Cudahy plant additional cold storage buildings, a large building for dry storage and a large and more modern box and barrel factory. Many other minor improvements are to be included in the additions.

Small Boy and Big Fish.

EdDorado, June 8.—Bob Wilkinson caught a 35 pound catfish here. Bob is only 12 years old and as he was alone he had quite a fight before landing it.

Steam Plow a Success.

We took a ride in J. N. Pike's new auto out to see the steam plow work east of town Friday. The plow is a

new invention by the Reaves engine people and is surely a new departure and a good one. The 12 plows are lifted by steam out of the ground and handled by the operator as easily as a man handles the one plow on an old fashioned sulky plow.—Colby Free Press.

ELECTRIC LIGHTS FOR DOWNS.

City Council Will Grant a Franchise at Next Meeting.

Downs, June 8.—Downs now has good prospects for electric lights. Mr. Stephenson appeared before the council at its last meeting and made application for a franchise, stating that he desired to install a plant in this city to cost \$12,000 with the understanding that the city was to take ten arc lights at \$5 per month each for a period of two years. The matter was laid on the table as the council did not wish to enter into a contract binding the city to take any given number of lights. They were entirely satisfied with the proposal of the former one, with that exception and deferred action on that account. Yesterday morning Mr. Stephenson submitted the revised proposition to them which is virtually the same as the former one except that he does not bind the city to take any certain number of arcs. In all probability this will meet with their approval and the indication is that the franchise will be granted.

WHAT K. U. WILL ASK FOR.

Chancellor Strong Gives a "Tip" on Legislative Requests.

Lawrence, Kansas, June 8.—In his speech before the 900 guests at the university dinner at K. U. commencement, Chancellor Strong outlined publicly, for the first time, the plans of the university for its requests to the next legislature.

He mentioned four things that are to make the outline of the campaign: An increase of the salaries of full professors in the university. The levying of a one mill tax for the furnishing of a permanent income for the university. The appropriation for a fine arts building. An appropriation for a women's building to contain dormitories.

LAND VALUES INCREASE.

Owner of Atchison Farm Paid \$21,000, 7 Years Ago, Now Refuses \$40,000.

Atchison, Kan., June 8.—Six or seven years ago, when John O'Brien owned the "Glick farm," at Shannon, he had to be coaxed into it. He was later offered \$40,000 for the land, and refused it. But he says, "No; I can't say that I have received what might be called a proposition to sell the farm to the Central American, to South America."

A RECEIVER IS WANTED.

The Wichita Fair Association Is Unable to Pay Its Debts.

Leavenworth, Kan., June 8.—The case of the Rock Island Lumber company to have a receiver appointed to take charge of the Wichita & Southwestern Fair association was argued before Judge Pollock in the federal court today. Ex-Governor W. E. Stanley appeared for the fair association and Samuel Amidon represented the lumber company. Judge Pollock took the application under advisement.

HAD TOO MANY PACKERS.

Wellington Not Large Enough and Fourth Daily Compelled to Suspend.

Wellington, Kan., June 8.—The Daily Leader, an evening paper started by O. E. Hogue about a month ago, suspended publication with Thursday's issue on account of insufficient patronage.

HE FORGED A \$1,000 NOTE.

Serious Charge Against O. B. Elliott a Miltonvale Man.

Concordia, Kan., June 8.—A warrant was issued here Friday on the complaint of J. B. Morris, cashier of the Drexler state bank at Miltonvale, charging O. B. Elliott with securing \$1,600 on a note which he had forged the name of relatives. Elliott escaped.

Death of Mrs. Isabel Tucker.

Kansas City, Kan., June 8.—Mrs. Isabel Tucker, the widow of the Rev. George L. Tucker, died yesterday at the home of her daughter, Mrs. W. E. The Tuckers came to Kansas in 1867 and settled in old Quindaro. Later they bought a farm on the site of the present Kansas City university building. She was one of the early Congregational ministers.

Director for Garden City.

Garden City, Kan., June 8.—City's new directory is being distributed. It is a thoroughly creditable and up-to-date directory. Lakin and Finney and Kearny counties are included. The book has lists of city streets and avenues, the fraternal organizations, county and city officials and others of value for reference.

Emporia Normal Well Attended.

Emporia, Kas., June 8.—The summer term of the state normal, which opened here today, has a larger enrollment than ever before and will reach 800 next week. More than 700 students registered the first day.

Boy Drowned in a Well.

Emporia, Kan., June 8.—Frederick Lewis, the 8-year-old son of Mr. and Mrs. Charles Lewis of Bushong, fifteen miles north of here, fell in a well and was drowned Friday.

Polo Games at Fort Riley.

Junction City, Kan., June 8.—The Missouri Hunt and Polo club's polo team from Kansas City has arrived at Fort Riley. The Kansas City team will play the officers' team of Fort Riley today, and will play the Junction City team Sunday afternoon.

New Home for Galena Elks.

Galena, Kan., June 8.—The corner-stone for the Galena Elks' new \$25,000 club house was put in place Friday. The principal address was made by Senator Long. Several hundred members from Joplin and Webb City lodges took part in the services.

RAILROAD NEWS.

An All America Line May Be Realized.

Elecnous Smith Tells of the Plans for It.

MANY LINES TO HELP.

Pan-American Will Be Backbone of System.

Other Items of Interest to Railway People.

St. Louis, June 8.—Elecnous Smith of this city, one of the principal members of the St. Louis syndicate which is constructing the Pan-American railroad through Mexico, has returned to St. Louis after a trip through Mexico. He states that the road is now in operation to a point about forty miles distant from the Guatemala boundary, and that trains will be running from San Antonio to the Mexican-Guatemalan line by the first of next year.

The St. Louis syndicate probably will not extend the line beyond the Mexican-Guatemalan boundary. "However, it is not strictly the project to unite all the Americas by a rail route will fall.

The construction of about twenty-five miles of the Pan-American line would be connected up with the Guatemala Central. With connections, our line would then form a complete route from the United States to Guatemala City. In size and population Guatemala compares, relatively, with the state of Missouri.

The Mexican government has awarded us a bonus of \$19,200 per mile for the 300 miles of road in Mexico. The government has just arranged for the payment of the last installment of \$500,000.

The line is now completed from San Gerónimo to a point about forty miles distant from the Guatemala boundary, and we are operating trains daily to have a receiver appointed to take charge of the Wichita & Southwestern Fair association was argued before Judge Pollock in the federal court today. Ex-Governor W. E. Stanley appeared for the fair association and Samuel Amidon represented the lumber company. Judge Pollock took the application under advisement.

MANCHESTER NOT TO WORK.

Will Not Become a Railroad, Says Well Street.

New York, June 8.—Intimate friends in Wall street of Eugene Zimmerman and his associates, the Duke of Manchester, state that there was no truth in the report that the young duke was to give up his English residence and live in the country, devoting himself to railroading. It was said that Mr. Zimmerman had offered his son-in-law the vice presidency of the Detroit, Toledo & Ironton railway, which was controlled by the Duke of Manchester. Mr. Zimmerman is now abroad with his daughter. At the office of H. E. Hollis Co., where he makes his headquarters while in New York, the story was ridiculed.

WON'T LEASE THE HOSPITAL.

Santa Fe Replies to Suggestion of Ottawa Officials.

Ottawa, Kan., June 8.—Dr. H. W. Gilley has received a letter from J. E. Hurley, general manager of the Atchison, Topeka & Santa Fe Railroad company, stating briefly that the company does not desire to rent any part of the Ottawa hospital.

How to Fool a Lazy Liver with Artificial Exercise

EVERY serious Sickness has a small beginning.

And, in nine cases out of ten, that beginning is made in the Bowels.

Constipation is the beginning of most diseases. It paves the way for all others. Lack of exercise, hasty eating, improper food, are its first causes.

Laziness, and postponement, permit it to grow into Chronic Constipation, which means life-long Discomfort.

It isn't necessary to be sick-a-bed, you know, in order to be mighty uncomfortable. Even a slight indigestion affects the nerves, dulls the mind, and obscures the merry sunshine of Life.

The time to adjust the Bowels is the very minute you suspect they need adjustment.

- If your tongue is slightly coated,
- If your breath is under suspicion,
- If your head feels a trifle heavy or dull,
- If digestion seems even a little slow,
- If Heartburn, Belching, Colic or Restlessness begin to show themselves,
- That's the time to eat a Cascarel.

It acts as pleasantly as it tastes. It is congenial to your Bowels as it is to your Palate.

It stimulates the muscular lining of the Bowels and Intestines, so that they mechanically extract nourishment from the food and drive out the waste.

The only way to have Cascarels ready to use precisely when you need them is to carry them constantly in your pocket, as you do a Watch or a Lead pencil.

The ten cent box of Cascarels is made thin, flat, round-edged, and small, for this precise purpose.

Be very careful to get the genuine, made only by the Sterling Remedy Company and never sold in bulk. Every tablet stamped "CCC." All druggists.

FOR BETTER ENGINE WATER.

Santa Fe to Improve Purifying Plant at Ottawa.

Ottawa, Kan., June 8.—W. A. Powers, of Topeka, chief chemist for the Santa Fe system, was here Friday, Monday or two ago on business connected with the water clearing plant in North Ottawa. A radical change has been effected in the plant, the principal feature of which is the installation of a new pump. This pump is of a style by which the operator can instantly make a change in its forcing capacity from a few gallons per minute to many hundreds, without stopping the machinery. The purpose of the pump is to supply the clarifying chemical to the tank. The entire attention of an attendant is required at the plant and his chief duty is to see that just the proper quantity of clarifier is supplied according to the quantity of water that passes into the tank, this quantity varying with the varying pressure from the

Bright, Healthy Brains

move the World.

Grape-Nuts

Makes Healthy Brains.

"THERE'S A REASON"

Trial proves!!

city pipes. The tank in North Ottawa has a capacity of about 150,000 gallons per day. The water is used exclusively for engine supplies and the object in "clearing" it is to prevent "scaling" of the flues. The present plant, since the installation of the big engines, is insufficient for the demand.

NOT TO FIGHT THE LAWS.

Passenger Officials Accept Missouri and Illinois 2 Cent Edicts.

St. Louis, June 8.—Passenger officials of the Illinois and Missouri lines met in this city yesterday at the Jefferson for an informal discussion of the 2-cent fare law. The Illinois lines got together in the morning, Chairman McLeod of the Western Passenger association presiding, and the Missouri lines met in the afternoon with Chairman Hannegan of the Southwestern association presiding. The whole situation was carefully considered at both conferences, but no definite conclusions were reached, and it was determined to refer all questions to the association conferences to be held next week in Chicago, the Western association meeting on Tuesday and the Central Passenger association on Wednesday. The consensus of opinion was that the law would be strictly complied with—the Missouri law taking effect June 15 and the Illinois law July 1. The executive officers in the future would determine what course to adopt after consulting with counsel if it should be found that reduced rates had a serious effect upon revenue, amounting to a confiscation of earnings or property, and it would probably develop that stockholders would move in the courts, making a test case involving the validity of the law.

The passenger men decided that no rate concessions should be made for gatherings within the state which would be lower than 2 cents per mile, but day excursions between local points will continue to be run at the usual reduced rates. The new law, of course, will not affect rates and arrangements made already for the big conventions of the summer, which is interstate business, and the tourist arrangements east and west will not be affected by the operation of the new state law. The general policy, however, in future will be to make the rate lower than 2 cents per mile for meetings within the state.

GOVERNOR WARNER DENIES.

Story That Roosevelt Advised Michigan Legislature to Go Slow.

Lansing, Mich., June 8.—Governor Fred Warner has issued a statement denying a published report that President Roosevelt, while in the city last Friday, advised the governor to go slow with railroad legislation and let the interstate commerce commission work out the problems now under consideration. "Nothing of the kind occurred," says the governor in his statement. "The state as well as the federal government has problems to work out, and there is no reason why there should be any conflict in these matters. It is important that they should be worked out as soon as possible and the national laws supplemented by state legislation."

WILL MAKE BETTER RAILS.

So Says Chairman Gary of Steel Corporation.

New York, June 8.—Commenting on the agitation for better steel rails, Chairman Judge E. H. Gary, of the steel corporation, today said: "I do not think," said Judge Gary, "that any charges of intentional neglect on the part of manufacturers or authorized agents of the steel industry by any officials who are in control of their respective properties. It is probable that the leading railway officials and the steel industry are consulting with a manufacturing company will soon personally or by competent representatives make a thorough and exhaustive study of the whole situation, and in the meantime every constant question relating to the quality of rails and the operation of railroads as applied to the use of rails will be discussed. The law which will be passed while in New York, the story was ridiculed."

THE HEIRS ARE NOT SATISFIED.

Charge Collusion in Sale of Summers Farm in Osborne County.

An interesting lawsuit pending in the United States circuit court from Osborne county was presented today to E. S. Quinton, who is acting as special master in the controversy. The question involved is whether or not the probate courts of the state have the right to cause the issuance of a deed to property. The question is a constitutional one, and for that reason, the case was transferred to the federal courts.

The title of the case is Eliza Ackerman et al. versus O. E. Irey et al. The property in controversy is a quarter section of valuable farm land in Osborne county. The land belonged to Mary V. Summers, who went crazy and died in 1892 in the state asylum at Topeka. She left five children, three of whom were minors. There was an \$800 mortgage on the property. The probate court appointed J. K. Mitchell of Osborne county administrator of the estate, and as administrator, Mr. Mitchell asked permission to sell the farm and pay off the mortgage. The farm was sold to O. E. Irey, the brother of the probate judge, for \$1,000, the \$800 mortgage was paid off, and the \$200 divided among the minor heirs.

Now the three minor heirs have come to the conclusion that the sale of the property by Mitchell was illegal, and that the probate court had no right to order the sale. The charge is made that there was fraud and collusion in making the sale, and that the probate judge consented to it in order that his brother might buy in the property for less than its real value.

The evidence in the case has all been prepared in the form of depositions, and the appearance of the attorneys before the special master today was for the purpose of finishing up the preparation of the report to be presented to the court.

The minor heirs, who are now adults, are represented by E. S. Quinton of Osborne, and O. E. Irey is represented by E. G. Sample and J. K. Mitchell of Osborne.

Holds the Law Good.

Jefferson City, Mo., June 8.—Attorney General Hadley today gave an opinion holding that the law prohibiting an insurance company paying any office a greater salary than \$50,000 from doing business in Missouri is constitutional.

A Fortunate Texan.

Mr. E. W. Goodloe, of 107 St. Louis st., Dallas, Tex., says: "In the past year I have become acquainted with Dr. King's Little Blue Pills and no laxative I ever tried before so effectually disposes of malaria and biliousness." They don't respect nor grip. Arzold Drug Co., 321 N. Kansas ave.

MRS. DE PASSE OF NEW YORK CITY

"I Consulted Several Physicians, but they Did Me No Good. Peruna and Man-a-lin Helped Me."

MRS. ALINE DEPASSE.

Mrs. Aline DePasse, 776 E. 165th St., New York, N. Y., writes: "I was afflicted for over seven years with catarrh of the head, nasal and digestive organs. I consulted many physicians, but they did me no good. One day I happened to read some testimonials in your Peruna and Man-a-lin almanac. I decided to try Peruna and Man-a-lin. I bought a bottle of each, and after taking them for a week noticed a change for the better. So I kept it up, and after using twelve bottles I was perfectly cured. I also gave the medicine to my children and they had the same beneficial results. I would never be without these remedies in the house. I highly recommend Peruna and Man-a-lin to all my friends, and in fact to everybody."

Miss Mildred Grey, 110 Welmar St., Appleton, Wis., writes: "It gives me pleasure to recommend Peruna for catarrh of the stomach. I had this disease for a number of years, and could not enjoy a mouthful of food that I ate. It was indeed a great relief when I hit upon Peruna, and obtained decided results from the first bottle. I took six bottles before I felt entirely cured of my trouble, but I had an aggravated case."

quity by Dr. Gilley, of the committee appointed some time ago by the medical association to find out whether or not a portion of the hospital could be rented by local physicians.

The letter of Mr. Hurley may mean that the company intends to maintain the hospital in the present form or that it intends to sell it.

WILL MAKE BETTER RAILS.

So Says Chairman Gary of Steel Corporation.

New York, June 8.—Commenting on the agitation for better steel rails, Chairman Judge E. H. Gary, of the steel corporation, today said: "I do not think," said Judge Gary, "that any charges of intentional neglect on the part of manufacturers or authorized agents of the steel industry by any officials who are in control of their respective properties. It is probable that the leading railway officials and the steel industry are consulting with a manufacturing company will soon personally or by competent representatives make a thorough and exhaustive study of the whole situation, and in the meantime every constant question relating to the quality of rails and the operation of railroads as applied to the use of rails will be discussed. The only way to have Cascarels ready to use precisely when you need them is to carry them constantly in your pocket, as you do a Watch or a Lead pencil.

The ten cent box of Cascarels is made thin, flat, round-edged, and small, for this precise purpose.

Be very careful to get the genuine, made only by the Sterling Remedy Company and never sold in bulk. Every tablet stamped "CCC." All druggists.
