WARRANT FOR A GIRL.

Eva Shearer Charged With Stealing Property From C. T. Harris.

A warrant was issued today for the arrest of Eva Shearer, a young woman about 20 years old, on the complaint of C. T. Harris, the proprietor of the Kiehl laundry, that she stole some jewelry, clothing and a small sum of money which was the property of his wife and the total value of which is placed at $40.15.

The Shearer girl was employed temporarily as a servant in the Harris home at Van Buren and Eleventh streets. Mr. and Mrs. Harris told her on Sunday afternoon last that they were going to the park for the afternoon and that she could have the afternoon and evening to herself as the work in the house was done.

The girl sat around the house while the Harrises were getting ready to go out, saying that she did not care to go out because it was so warm. She asked them several times when they expected to return and was told that no time had been fixed for their coming back.

Mr. and Mrs. Harris remained at the park during the early hours of the evening and on reaching home retired without taking the trouble to find out whether or not the girl was in the house. The next morning they discovered that she had not been in the house all night. Mrs. Harris then found that the drawers in a couple of dressers had been ransacked and a considerable quantity of fine clothing as well as a gold bracelet and $1.80 in money had been stolen.

Mr. Harris immediately made a complaint to the sheriff with the result that the warrant was issued today for the arrest of the girl. The sheriff has located her at Osawatomie and expects to place her under arrest this afternoon.

Keeping money hid away in the parlor stove or under the floor is foolish, when if deposited at the Prudential Savings bank it would be working night and day earning interest.

GRADERS NEXT.

City Attorney on Track of More Graft.

Thinks That Grading Figures Were Wrong.

CHECKING IT ALL UP.

Prof. Harshbarger and Mr. Griggs Are Named.

Will Report on the Charges of Paving Steal.

The graders are to have it next, says F. G. Drenning, city attorney. After airing the charges of pavement graft, the city attorney states that he is about prepared to show that the city has been spending a lot of money for grading in return for work that it never got. He states that he does not believe the contract prices for grading in former years would permit a contractor to come out even.

"A grader could not have made any money at less than 25 cents. That's the living price and the contracts in years past did not permit a contractor to make anything," said the city attorney.

W. A. Harshbarger of Washburn college, and George Griggs, formerly paving inspector, have been employed by the mayor to check up the pavement and see if the city has paid for more paving on the intersections than was actually laid. Both of these men will go to work next week Monday and commence their operations.

W. E. King, formerly assistant city engineer, does not believe that there is anything in the charges and thinks that an explanation and investigation will show that everything is as it should be. He has turned over his field notes upon his own initiative to Mayor Green in the attempt to verify the claim that all of the paving has been actually laid as called for.

"McCabe has attempted to cover some of this up, at least it would look like that in the way the accounts were turned in. He has made no showing for extra charges—which should be plainly shown in returning vouchers whenever extra work occurred," said Drenning. "I think that we can uncover something on the grading contracts, too, even though the grading profiles for last year and the year before have been destroyed. I think it is mighty funny that the records of the office should be used for scrap paper as the excuse was given when we asked for the profile sheets."

"It appears on the face of it that the city has been paying more for its paving than is shown on the plat," said Mayor Wm. Green. "I have not verified the plats by actual measurements though the city attorney states that he has. It is very peculiar, however, that practically all the overcharges should occur on the city's proportion and not any of it on private property. We find that there is an overcharge of from $100 to $200 on every block and in one block it runs up to over $400. I shall try to employ an engineer to check over this pavement for a few days. It seems that it has been running along for years and that it will amount to several thousand dollars."

For the first time in a number of years Topeka manufactured paving brick may not be used in local paving contracts.

H. N. Price, who has the contract for paving, owns his own brick plant, and is in a position to supply all of the brick for his contract if he so desires.

He occupies a strategic position and the local manufacturers will have to come in with an exceedingly low price in order to land any of their product. Both the Capital City Vitrified Brick company and Rodgers Brick company hope to supply brick.

The curbing and gutter contracts were amicably settled to the satisfaction of contending contractors at the council meeting last evening.

Haskins & Ramsey, who were the lowest bidders on the combined curb and gutter, will furnish North Kansas avenue and Central avenue with their product. The combination curb and gutter costs 57 cents a lineal foot. F. G. Drenning, city attorney, assured the councilmen that there was no fear that the North Topeka paving could be knocked out on a technicality because the gutter cut down the width of the paving three feet below the specifications.

The remaining thirteen out of the twelve blocks will be curbed with Fort Scott blue sand stone at 37½ cents a lineal foot; all of this is located on the south side of the river. An attempt was made to put in cement curb on West street from Sixth to Tenth avenues, but it was defeated.

J. H. Squires, George Hanley and L. T. Gage were appointed by Mayor Green as appraisers for the paving of Kansas avenue from Gordon street to the Melan arch bridge and J. F. Buck, Peter Heil and J. H. Evans to appraise the property for the paving on West Tenth avenue from Jackson to Harrison streets.

GREEN SELECTS NAMES

New Jury List Is Made Up by Mayor Personally.

Conforming with the order issued ten days ago by Judge Dana of the district court, the trustees of all the townships in the county and William Green, mayor of Topeka, visited the county clerk's office at various times during the day and selected from the assessment rolls for the year 1906 the names of persons to be put in the new jury box and from which jurors will be drawn to serve in the district court for the September term of this year and for the January and April terms of next year.

The names in the jury box which was made up for this year were ordered destroyed by Judge Dana for the great majority of them had not been selected properly. The names put in the box from Topeka were selected by S. G. Zimmerman, the county clerk, and from the assessment rolls of 1907, when the law is distinct that they should have been selected in person by Mayor Green and from the assessment rolls of 1906. Mr. Green delegated the power to select them to Mr. Zimmerman, but the court declared that he had no right to do so. Mr. Green did the work of selecting the new list of names, as ordered by the court, during the afternoon. It was no small task as he had to select about nine hundred names from the assessment rolls. The jury box is filled with at least one name for every fifty persons on the assessment rolls.

The township trustees made their selections during the day and their tasks were not particularly onerous as they did not have many names to select to make up the quota from the townships -- is demanded by law. The trustees who obeyed the mandate of the court today are:

Fred Ludington of Oakland; A. B. Jamieson of Rossville; T. G. Howell of Silver Lake; D. F. Neiswander of Menoken; A. C. Merritt of Soldier; T. F. Kreipe of Tecumseh; N. L. Tevis of Monmouth; C. W. Smith of Williamsport; H. W. Mauney of Auburn; E. L. Campbell of Dover and Franklin Eckert of Mission.

SPLOTCHES OF BLOOD.

Only Clew Left to Strange Disappearance of Walter Scott.

Chicago, June 22.—The police are today endeavoring to solve the mystery connected with the disappearance last night of Walter Scott, steward of the tug J. C. Evans. Owners of the tug believe Scott was killed with a meat cleaver which was found covered with blood on the floor of the galley of the tug. The walls and floor of the little kitchen were also spattered with blood.

The body of Scott has not been found. Scott was alone on the boat last night. The police believe he was murdered by robbers who killed him after he had discovered them at work.

MR. SHAMLEFFLER IS HERE.

Right of Way Agent for Taylor Railroad Ready for Work.

W. F. Shamleffler, general right-of-way agent for the Topeka-Southwestern railway company, arrived in Topeka last Thursday and immediately entered upon the duties of his new office. Mr. Taylor, president of the Southwestern said today: "I have turned all right-of-way matters over to Mr. Shamleffler, and it is up to him to secure it upon reasonable and most amicable terms. Mr. Shamleffler and Mr. Parkhurst, chief engineer, spent most of the day yesterday looking over the location for terminals and different routes out of the city."

Mr. Shamleffler says: "We do not want any condemnation proceedings if it can be avoided and it will be remarkable if the Southwestern gets its right-of-way out of Topeka and across Mission township, without any such proceedings. I propose to look the situation over carefully with the engineer before beginning the location of the line, so as to avoid entanglements as much as possible, which is necessary in a case of this kind so that the engineering corps on construction will have clear sailing with the end in view of the shortest route and the general best interests of the company and the people along the line."

CURTIS IN SILVER LAKE.

Senator and Other Topeka People There Monday Evening.

Senator Curtis is to deliver an address at Silver Lake on Monday evening. The subject of his discourse will be his trip to Panama, and in it he will give a description of his experience during a severe storm at sea. There will also be a musical programme rendered by M. C. Holman, a quartette from the Modoc club, Miss Nina Thomas, and Miss Helen Hogeboom, of Topeka, and Mrs. C. C. French of Silver Lake. The entertainment will be held at the Methodist church of Silver Lake and the proceeds will go toward church repairs which have been already made. The lecture will be under the auspices of the Ladies' Aid society.

The Western Woolen mill and the Oakland Woolen mill are to be consolidated and run under one management. Mr. J. F. McAfee, now manager of the Oakland mill and formerly manager of the Western mill will be the new manager of the united mills. Mr. Thomas Page, one of the stockholders of the Western mill has sold out his stock to interested parties in the Oakland mill. The Western mill will be closed for a week, during which time an invoice will be taken. Mr. Morton, who has been manager of this mill for some months, expects to leave next week for his home in Maine.

Because Mr. F. B. Simms can not find a suitable building on the North side he will be compelled to take his laundry over the river. All claims have been settled by the insurance companies and Mr. Simms is anxious to get his business into running order again. Since the fire he has had office room at 533 Kansas avenue, but this place is entirely too small to accommodate the laundry. For a time it was thought that he could secure the building on the southwest corner of Railroad street and the avenue, but Jerome Colvin, the owner, is remodeling this place and it is understood that it will be used for a drug store. Mr. Simms desires to open up his laundry by the 15th of July and he was busy today hunting for an available building on the South side. His machinery is still in the burned building and he is very anxious to remove it to a better and safe place.

Owing to the efforts of the North Topeka Civic club the necessary funds to build the footbridge annex across the Kansas river on one side of the Santa Fe railroad bridge have been raised and will be turned into the city treasury. For years this annex has been agitated but nothing definite accomplished. In accordance with the plans and specifications drawn by the engineering department of the Santa Fe the annex will be built on the east side of the railroad bridge. It will be six feet wide and will have two railings on the outside. One six feet high and the other lower to prevent accidents. The structural work will be of iron and the floor and railing of lumber. There will be railings on the inside of the bridge to keep the pedestrians from straying over on to the railroad tracks. The work will be done by the Santa Fe without cost to the people of North Topeka. The cost of the material, $1,635, will be all of the expense to the people. It is thought the work will be completed before fall. There is still about $100 in subscriptions that have not as yet been paid in and the subscribers are requested to pay as soon as possible to the Civic club.

The Van Horn building, corner of Norris street and Kansas avenue, now occupied by the Citizens' bank, has been sold by the former owner, B. M. Davies to Col. J. N. Stewart. The purchase price was in the neighborhood of $7,000 and the sale was made through Ollinger & Anderson. This building was erected in 1872 by B. F. Van Horn now of Minneapolis, Kan., but in the early 70's a prominent land owner of North Topeka. It was the first brick building to be built north of the Union Pacific tracks. At one time the lower floor was occupied by Louis Wolf & Sons Dry Goods store, while the rooms in the second story were used for school purposes. After the Wolf store was moved to what is now the Pratt building the Citizens' bank which was then in the Adams House, took up their quarters in this building, and have been there ever since, covering a period of over twenty years. The building has a fifty foot frontage on the avenue and extends to the rear 75 feet. The A. M. Cross ewelry store occupies the north part of the building.

Mrs. Sylvester Mabry was given a very pleasant surprise Thursday at the home of her sister, Mrs. David Roller, 495 Chester avenue, East Topeka, the occasion being the twenty-third anniversary of her birthday.
