

WE TREMBLE!

The statue at the Herald office has at last unveiled itself. After two or three agonizing puffs from the ponderous mace...

On Tuesday last cattle were shipped from Kansas City to Chicago, at fifteen dollars per car, and to St. Louis at five dollars per car.

GETTING SENSIBLE.

We notice that the sentiments of the people are changing very much upon the matter of primary elections. They have changed their sentiments because they are fully convinced that these affairs are one-sided...

We gave a partial account, last week, of the meeting held in our city Tuesday evening to confer with parties from Clay Center, Clay county, in the interests of extending the narrow-gauge railroad...

We are glad, as we stated above, that the people are changing their views with regard to conventions, and have independence enough to denounce them.

We are independent enough of party to say, that we will vote for a good democrat before we will in any way aid a rascally republican who has been nominated to official position.

In many different counties of the State, conventions are being inaugurated while those despoiled of office, come out, and make the race upon their own merits.

Topeka, Burlington, Burlington, Garnett, Cottonwood Falls, and next, but not last, Junction city, are fishing for the Holden Railroad as it approaches inland into Kansas.

The Parsons Sun says quite an amusing incident occurred the other day on one of the side tracks at Parsons, in which an engineer on the M. K. & T. was here.

The Supreme Court of Wyoming Territory has decided that women have the same rights as men to sit as jurors, under the existing territorial laws.

NARROW GAUGE.

To the Hon. R. H. Bishop, we are indebted for the loan of a pamphlet containing statistical and other facts relating to narrow gauge railways, compiled by S. W. Dorsey.

The entire length of the road named is 1,450 miles. The average gross weight of each train hauled is about 250 tons, which would require 240,000 trains, or in 313 working days in the year, 767 trains per day over all parts of the road of 1,440 miles in 24 hours.

What is this great exhortation that is to take place? We breathelessly await it! Come, sister, do not play off on us, we want our friends and the public in general to know of our history from infancy to our present advanced age.

We are sorry that the lovely maiden "at the other end of the Avenue" was so loth to refrain from the publication of our enormous crimes until she became provoked by our article of last week.

The narrow gauge freight car weighs 11 tons, and will carry say 4 tons paying freight, 10,000,000 tons paying freight therefore, would require 3,750,000 tons of dead car weight to be moved, or a total of 13,750,000 tons gross wt.

From the Hiawatha Dispatch we learn that a blacksmith named Snooks attempted suicide in that village on Wednesday night last, by cutting his throat, while laboring under an attack of delirium tremens.

The President has formally tendered to Felix R. Brunot, of Pittsburg, Pa., the appointment of Commissioner of Indian Affairs and it is nearly certain that the appointment will be accepted.

The Leavenworth Times says: "We are informed that Mr. Anasa Sprague contemplates the building of a factory in Kansas of moving machines. It is well known that the Spragues are among the heaviest manufacturers in the United States, and the establishment by them of a branch in Kansas would be of great benefit to our State.

"CORRECTION" CORRECTED. To the editors of the Salina County Journal. I saw in the Herald of the 28th ult., a communication under the head of "Correction," signed O. P. Hamilton, which is liable, not only to do an injustice to Mr. Boynton, by placing him in a false light before the community, but it also contradicts what you said in your last issue relative to Mr. Boynton's visit to Lincoln county.

A man named Callahan was crushed to death, on Saturday last, on the farm of J. C. Reinner, near Atchison, by the falling upon him of a corn bin, which he and another man were endeavoring to tear down.

Below we give an abstract of the report of the Ku-Klux commissioners appointed by Congress, who have been on a tour of investigation in the South.

The sub-Ku-klux commissioners, consisting of Senator Scott and representative Stephenson and Van Trump, visited Washington to-day, returning from a sojourn of four weeks in various parts of South Carolina, where they have been investigating Ku-klux outrages on the spot where they occurred.

A negro man and a republican white man had slept in the woods for months every night. They showed scarified backs, gun shot wounds, maimed ears and other proof of violence they had suffered. In Limestone and Springtownship one hundred and eighteen cases of whipping have been proved.

The Persim minister genes explicitly the reports which have been received recently of ravages by famine, plague and cholera in Persia. He says there is undoubtedly a lamentable scarcity of food among the poorer classes, and they are fed at the expense of the government in cemeteries, because therein in them alone sufficient room to accommodate the large crowds of people who appeal to the authorities for subsistence.

I have this day sold my stock and interest in the above business to Wm. Good, of Texas, and can recommend the new firm to all patrons. D. F. DORSEY.
