

ANNOUNCEMENT

I hereby announce myself a candidate for the office of Sheriff of Allen county, subject to the decision of the Republican primaries and convention. W. B. HALL.

\$500 REWARD

We will pay the above reward for any case of Liver Complaint, Dyspepsia, Sick Headache, Indigestion, Constipation or Colic, if we cannot cure with Liveria, the Up-To-Date Little Liver Pill, when the directions are strictly complied with.

a bicycle down Walnut street side walk, was fined \$2 and costs, total \$4. R. E. Vanatta paid \$7 for being caught with a gun on his person by the police Monday night.

East Iola News

April 22.—The new foundry is progressing nicely. The first brick building is about ready for the roof and I have been informed that they added twenty feet to the size of the blacksmith shop this morning.

Yesterday afternoon there was quite an excitement among the women and children here on account of the high wind that was blowing that snatched a twenty dollar bill out of a little girl's hand while she was crossing Madison avenue near south Kentucky street.

Mrs. A. W. Crawford of East Iola leaves tonight for St. Louis, a delegate to the Twenty-fifth Annual meeting of the Woman's Presbyterian Board of Foreign Missions of the South-west to be held in that city April 23-24-25.

Baker University Reunion

Allen County and Iola has about twenty-five graduates and former students of Baker and the most of them were in attendance at the Methodist church last week.

The occasion was a reception for Dr. Murlin, president of the University. The program was as follows: Does it Pay? E. W. Myler. Why you would like Baker, W. L. French o LaHarpe. College Spirit, M. P. Helmick, Music, Oscar Brown of LaHarpe, Baker University, its present condition and outlook, Dr. L. H. Murlin. Short experiences were given by Dr. Garlinghouse, Prof. Freeman and Prof. Patton and Rev. Manley of LaHarpe. The address of the evening was Dr. Murlin's. Dr. Murlin has a pleasing address and is a good speaker. It was a typical college address and was exceedingly well received by the audience.

One of the features of the affair was the giving of the college yell several times. Those present who had never heard a college yell before were startled at first but soon found out that no harm was meant.

Of Interest to Iola Fishermen.

Quite a lot of argument has recently been going on over the State as to the possibility of raising bass and croppie in still water ponds. Some assert that it cannot be done, but the Olathe Mirror makes a report that ought to start the Iola, like Waltons to thinking of securing a pond in this neighborhood and stocking it with fish.

The Mirror says: "Four years ago the Olathe Boating and Fishing Club, then a vigorous organization, secured about 700 bass and croppie minnows which were placed in the pond. Since then there has been a very good supply of bass and croppies for fishermen, one expert from Kansas City having taken thirty bass in one afternoon. The number of fish, however, was a matter of conjecture until the long drouth of the past year dried up the pond so that they were all attracted into a narrow pool and when the water froze the bass were killed by thousands. Capt. Diehl recently counted 300 large bass in one part of the pond which had been frozen to death. They were large, some of the fish measuring nineteen inches long and six inches in width of body and weighing six pounds. They were perfect in every way and when the ponds were full they were very game. It is abundantly proven to Olathe fishermen that bass can be successfully grown in still water, and hereafter great care will be taken to protect fish planted in ponds hereabouts."

The Veterans are Thankful.

Many will be glad to know that the veterans of McCook Post got the organ donated by popular ballot. It would have done your heart good to have been in the Post room when word was brought in that the organ was theirs, to see their eyes sparkle and the smiles on their faces. They almost raised the roof with the three cheers which they gave.

Many thanks to Mrs. H. M. Miller for her persistent work in gathering votes. She says she had no idea she was so popular, as votes came to her from all over the county.

We thank all who helped us in gathering votes and we are all proud of the change in the hall. The Post now has a reading room with the Daily papers, donated by the city press, also magazines and stands for games and rocking chairs. It is what the old boys ought to have and is a good place to rest and spin yarns and tell of what they have done.

We are proud of our boys of the 60's and sad at the thought of how fast they are being mustered out, one every fifteen minutes, four an hour ninety-six a day. And so it is well that there should be a new organ at the Post hall to support their voices as they sing "Tenting Tonight," "Marching Through Georgia," and "America."

Come out once a month and help the boys in their open meeting to have a good time and make their hearts glad. Again we thank all who helped gather votes. M. EPPENAUER, E. G. HOUGH, Pres. W. R. C. Com. Post.

A New Gardening Device.

On the train to Ft. Scott last evening a REGISTER reporter saw something new, which a Wichita man has patented. Of course Steve Hayden has "got down" and owns an interest in and is pushing the patent. It is a garden seed planter. Anybody who has ever made garden knows how important it is to get the seeds evenly scattered in the rows, and how hard that is to do, especially in a wind. So the Wichita man made a machine that twists a coil of tissue paper and drops seeds at regular intervals in it. The coiled paper containing the seeds is wrapped on a spool and you can plant your garden in a cyclone, get your rows straight and never have to thin out. The paper draws moisture and the seed sprouts and penetrates the thin paper.

THE SCHOOL BONDS SOLD

Six Firms Bid, But the Northrup Bank Secured the Issue, the Interest Rate Being 4 Per Cent.

The Board of Education met this week to open bids for the issue of school bonds recently voted by this city. The issue consists of \$22,000 worth of 20-year bonds, which were not to draw more than five per cent.

Six firms bid for the bonds, most of them being Chicago bond brokers, and while the manner in which the bids are expressed differs the offers made are pretty close together. It was a local firm, however, which made the city the best offer for the issue, and the bonds will be sold to the Northrup National Bank of this city at 4 per cent, which is a very good figure indeed.

The bids submitted are as follows: Trowbridge & Niver Co., Chicago, offered \$106.70 for 5 per cent bonds, and \$102.10 for 4 per cent bonds.

Biddle & Dunne, of Wichita, offered to take the issue at par at 4 per cent interest, discounting the price \$300.

John Naveen & Co., Chicago, offered \$1,004.80 for the issue at 4 per cent.

McDonald, McCoy & Co., Chicago, offered \$239 premium on 4 per cent bonds and to furnish the bonds.

T. B. Potter, Chicago, offered a premium of \$1,787 for 5 per cent, and a premium of \$837 for 4 per cent bonds. He agreed to furnish the bonds.

The Northrup National Bank offered to take the issue at 4 per cent, furnish blank bonds, pay for recording same, the Board to pay them a commission of \$200 for the sale.

This last, being the best bid, was accepted by the Board, and the bonds will be issued, dated June 1, 1902.

Fire at Humboldt.

Humboldt, Kansas, April 22.—Hard work by the fire boys this morning prevented what might have been one of Humboldt's most disastrous fires. In some manner Dr. H. A. Brown's stable caught fire and when the alarm was turned in the building was a mass of flames. The fire engine made quick time and was soon playing on the house, which was near the barn.

A strong south wind was blowing and Dr. Brown's residence, Dr. Wilson's home, the Cottage hotel and Hackley's horse stables were all in direct line of the fire. The flying sparks soon set fire to Hackley's stables and as soon as they could leave Dr. Brown's engine was taken to the stables a block away and the fight renewed.

The barn was filled with hay and while the fire was hard to put out it was not allowed to gain headway and an hour's work removed all danger. The horses in the Hackley stables were taken out, so that practically all the loss is on Dr. Brown. Had the fire not been controlled in time the entire west end of the business part of Humboldt would have gone.

The New City Ordinance.

Members of the new city council are now enjoying the same sweet attention which the newspaper man endures the year round. The other night they voted on a new liquor ordinance, four voting for it and four against. And every man on the council is being roundly abused for the way he voted. It made no difference which side he took he had a cussing coming.

And that ordinance, by the way, is nothing new. It was presented to the old council about a year ago, soon after the enactment of the Hurrell search and seizure law. The old council read it and laid it on the table, which was the same as killing it. It was resurrected and sprung without warning on the new council and sailed through.

Large Ore Purchase Made.

John News-Herald (Saturday) The Lanyon Zinc company today bought 400 tons of zinc at Neck City, including the Sphinx, the Cole & Ingersoll and the M. & I. The purchase price is said to be \$32 per ton. The same company also bought eight cars at Oronogo, including the Morning Star and other grade ores at the same figure. The Lanyon company appears to be scouring the district for ore and its agents are picking up every bit that can be found at a price not in keeping with the demands of the producers' pool. It is believed that this is an indication that the Lanyon company is determined to not close down any of its furnaces if it can be helped.

The M. K. & T. to Galena.

The Missouri, Kansas & Texas Railroad company has completed its track laying to Galena, Kansas, eight miles from Joplin, and expects to have the Joplin extension completed this week. A large force of men are working on the line, putting down rails and ties and building bridges and culverts. The road will use the Missouri Pacific station for the present and will begin running trains on the Joplin branch some time this month and compete for the business of the zinc mining district, which ships an immense quantity of coal and sends out many cars of ore every week.

The Strenuousness of Competition.

Competition in this town is certainly strong and there is a possibility that it may become unpleasant for the men involved.

Friday afternoon T. B. Shannon the north side hardware man, forcibly ejected W. A. Barber from his store and later filed complaint against him charging loud talk and a disturbance of the peace. Both men handle sewing machines and Barber conducts an agency and store across the street from Shannon in the Sleeper block. Barber says he will fight the case, his story being that he was not interfering. He says he had sold a machine to a lady, she left town, he recovered the machine but did not get to see her. Thursday afternoon she called while he was out. On his return his clerk told him the lady had been in and, being anxious to renew the deal for the machine, he hurried after her, overtaking her in front of Shannon's. She said she would look at Mr. Shannon's machines and Barber followed her and her friend inside. Mr. Shannon began displaying a machine and Barber claims ordered him out of the store. Barber refused to go unless forcibly ejected and that Mr. Shannon proceeded to do, the two rolling on the floor inside and on the walk outside the store. Mr. Shannon claims that Barber was interfering with his business.

The case promises to get into the courts and the ladies will have an interesting time as witnesses. It is a very unfortunate affair any way one looks at it.

Mrs. Joseph Croker Dead.

Matilda, wife Mr. Joseph Croker of 20th south Chestnut street, died at 11:30 last Friday after a lingering illness. For three years she has been an invalid and about a year ago suffered a stroke of paralysis from which she has never fully recovered. She rallied but "creeping paralysis" as the doctors called it began the advance which ended in death that morning. Mrs. Croker was a sister of Mr. William Cunningham of Humboldt and was sixty-eight years old.

The funeral was held Sunday afternoon, Rev. John Maclean of feasting and the remains interred in Iola cemetery.

He Kept His Leg.

Twelve years ago J. W. Sullivan of Hartford, Conn., scratched his leg with a rusty wire. Inflammation and blood poisoning set in. For two years he suffered intensely. Then "the best doctors urged amputation," but, he writes, "I used one bottle of Electric Bitters and 14 boxes of Bucklen's Arnica Salve and my leg was sound and well as ever." For eruptions, eczema, tetter, salt rheum, sores and all blood disorders Electric Bitters has no rival on earth. Try them, Evans Bros. will guarantee satisfaction or refund money. Only 50c.

A VALUABLE MEDICINE.

For Coughs and Colds in Children. "I have not the slightest hesitancy in recommending Chamberlain's Cough Remedy to all who are suffering from coughs or colds," says Charles M. Cramer, Esq., a well known watch maker, of Colombia, Ceylon. "It has been some two years since the City Dispensary first called my attention to this valuable medicine and I have repeatedly used it and it has been beneficial. It has cured me quickly of all chest colds. It is especially effective for children and seldom takes more than one bottle to cure them of hoarseness. I have persuaded many to try this valuable medicine, and they are all as well pleased as myself over the results." For sale by W. L. Crabb & Co., Campbell & Burrell.

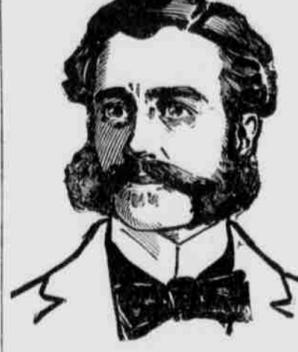

SICK MADE WELL WEAK MADE STRONG

Marvelous Elixir of Life Discovered by Famous Doctor-Scientist That Cures Every Known Ailment

Wonderful Cures Are Effected That Seem Like Miracles Performed—The Secret of Long Life of Olden Times Revived.

The Remedy is Free to All Who Send Name and Address.

After years of patient study, and delving to the dusty record of the past, as well as following modern experiments in the realm of medical science, Dr. James W. Kidd, 2302 BALTIC BULLDOING, PORT WAYNE, IND makes the startling announcement that he has surely discovered the elixir of life. That he is able with the aid of a mysterious compound, known only to himself, produced as a result of the years he has spent in searching for this precious life-giving boon, to cure any and every disease that is known to the human body. There is no doubt of the doctor's earnestness in making his claim and the remarkable cures that he is daily effecting seem to bear him out very strongly. His theory which he advances is one of reason and is based on sound experiences in a medical practice of many years. It costs nothing to try his remarkable "Elixir of Life," as he calls it, for he sends it free, to anyone who is a sufferer, in sufficient quantities to convince of its ability to cure, so there is absolutely no risk to run. Some of the cures effected are very remarkable, and but for reliable witnesses would hardly be credited. The lame have

DR. JAMES WILLIAM KIDD

thrown away crutches and walked about after two or three trials of the remedy. The sick, given up by home doctors, have been restored to their families and friends in perfect health. Rheumatism, neuralgia, stomach, heart, liver, kidney, blood and skin diseases and bladder troubles disappear as by magic. Headaches, backaches, nervousness, fevers, consumption, coughs, colds, asthma, catarrh, bronchitis and all affections of the throat, lungs or any vital organs are easily overcome in a space of time that is simply marvelous.

Partial paralysis, locomotor ataxia, dropsy, gout, sciatica and piles are quickly and permanently removed. It purifies the entire system, blood and tissues, restores normal nerve power, circulation and a state of perfect health is produced at once. To the doctor all systems are alike and equally affected by this great "Elixir of Life." Send for the remedy today. It is free to every sufferer. State what you want to be cured of and the sure remedy for it will be sent you free by return mail.

A Big Show COMING HOWES' GREAT LONDON SHOWS AND SANGER'S TRAINED ANIMAL EXPOSITION WILL EXHIBIT AT IOLA Monday April 28

See The Great Bicycle Whirl presented by four Ladies and four Gentlemen Bicycle Champions. A Large Menagerie of Rare Wild Animals. 50 Arenic Stars. 10 Funny Clowns. Don't fail to see the free morning Exhibition on the Show Grounds after the free morning Street Parade. Two Performances, Afternoon and Evening. Doors open a 1 p. m. and 7 p. m. Excursion Rates on all Railroads.

RESUME LIQUOR TRIALS

Police Court Took up the Grind Against the Men Caught in the Recent Shake Up—Four Cases

Some time ago the police court began hearing the liquor cases of the men arrested during the recent raid. Four or five were convicted and fined \$70 and costs each on the charge of maintaining a nuisance. John Kennedy, Jim Allen, C. R. McCarley and William Speckbottle were all found guilty at that time. Al McCarley was cleared. The case against Lyman Ford, L. D. Montgomery, Jim Mills and Mr. Drackett were continued until Tuesday came up in police court that afternoon.

Owing to the fact that prosecuting attorney Travis Morse had to sit that day as referee in the Patterson-Sleeper case at the court house, R. H. Bennett had charge of the prosecution of the liquor cases in police court.

The first case called was that of Lyman Ford and the usual testimony that a pint of whiskey had been bought resulted in the usual fine of \$70 and costs. His attorney served notice of appeal.

WEDNESDAY'S REPORT

Tuesday afternoon was one of the busiest days the police court of Iola has ever experienced, there being nine cases for his honor to attend to.

The liquor cases resulting from the recent raid were finally all disposed of. Tuesday afternoon Lyman Ford was found guilty and fined \$70 and costs. The next man up was George Drackett. He appeared in court and stated that he is a carpenter working regularly at his trade and that he was tending shop for a friend when the evidence was secured. He denied the sale charged and says he gave the whisky to Mr. Birnbaum. The court felt inclined to mercy, but under the new law could not make the fine less than \$25 and so imposed that fine. Drackett appealed.

L. D. Montgomery was represented by his attorney, A. C. Fetterly swore to a sale of liquor and the court fined Montgomery \$70 and costs, total \$71.10. Two sales were sworn to against Jim Mills. A. Crockett and E. W. Bennett were the witnesses and they seemed to have been confused as to the identity of the man who waited on them. At least Mills' attorney made a strong talk on that line and the court took the matter under advisement. Wednesday he saw how it was and made the fine \$70 and costs in each case; total \$140.20. All the men have given appeal bonds, it is understood, in the sum of \$100 for each count and will take the cases to the district court.

After attending to this business the court turned the eagle eye of justice upon the boys who celebrated Monday night. Walter Freeman was fined \$7 and costs, total \$9, for being boisterous and disorderly. Robert Tippie was fined \$5 and costs for resisting an officer. Wes Huggins, the boy caught riding
