

ROYAL Baking Powder

Makes Clean Bread

With Royal Baking Powder there is no mixing with the hands, no sweat of the brow. Perfect cleanliness, greatest facility, sweet, clean, healthful food.

The "Royal Baker any Pastry Cook"—containing over 800 most practical and valuable cooking receipts—free to every patron. Send postal card with your full address.

Alum is used in some baking powders and in most of the so-called phosphate powders, because it is cheap, and makes a cheaper powder. But alum is a corrosive poison which, taken in food, acts injuriously upon the stomach, liver and kidneys.

THE WIND

I am the wind—the wonderful!
The Wind of God am I,
And over the earth and under the stars
On my windy wings I fly;
I flutter the folds of every flag
And out of my parted lips
Breathes the breath that shall waft to every port
The home-desiring ships.
This morning I filled those lips with spice
From a grove in green Geylon
This evening the long blue fields of ice
Shall waft that fragrance on
Last night I hurried a mountain pine
On a high Sierra's crest.
Tonight I will lull where the soft stars
shine
The baby oriole's nest.
I push and shoulder the heavy fleet
Till the snowy canvas rips;
Then—hardly she knows it—in kisses
sweet
I melt on a maiden's lips;
Today I am north and today I am south,
And tomorrow out of the west
I will gather a rose with a rosy mouth,
For dim old Asia's breast.
And none can call me an English wind,
And none a wind of France.
For from pole to pole, like a human
soul,
I range—the Lord's free-lance!
They have tugged the earth and chartered
the sea,
And bound them to man's control;
But I am, the Wind, and the Wind is
free.
The Wind and the human soul.
—Grace Ellery Channing in Boston Journal.

ANDREW CARNEGIE has offered to pay to this government the 20 millions we paid Spain as indemnity for the loss of the Philippines, on condition that we turn the islands loose.

TUESDAY, May 20, goes into history as the Cuban 4th of July. On that date the government of the island was turned over to the Cubans and they will be given every chance to rule themselves.

JIM LEGATE, well known in Kansas politics, suffered a stroke of paralysis at his home in Leavenworth the other day, his tongue being partially paralyzed. If Providence does make errors, it seems probable that this misfortune was really aimed at certain United States Senators somewhat to the east.

SOME idea of the enormous traffic done by the big railroad systems of the country is gained from the latest statement of the Missouri Pacific. During 1901 the road carried 270,395,220 passengers and hauled 3,234,221,895 tons of freight. The road operated includes 5,567 miles and over 14 millions were spent in improvements.

CONGRESSMAN DOLLIVER voiced the sentiment of the west when he said in Congress the other day: "The congress of the United States is more likely to cede back the valley of the Mississippi to the lawful heirs of Napoleon, the Great, than to leave the Philippine archipelago to become the prey of anarchy or the prize of some European power."

to be in Kansas. At least there doesn't seem to be any social, religious and political rows on hand all the time in those two states on account of the liquor laws. The Constitution gives this view of local option:

"The people of Georgia have had seventeen years' trial of local option and have become satisfied with it. They have driven out barrooms from more than a hundred counties of the state, and the constituency that abolished the barrooms has been able to enforce their own home made law. To disturb that policy now will be to open a Pandora's box of agitations and put in jeopardy the local option prohibition of every county that now enjoys it. A state prohibition law, if put upon communities; when do not want it, by arbitrary action, will become odious, and the same spirit that repels it can and probably will put the barrooms again upon communities in which they are now shut out."

And the St. Johnsbury correspondent of the Vermont Tribune writes as follows concerning the ousting there:

"The liquor agency changed hands May 1, C. A. Sylvester, who has had the office for the past six years, stepped out, and Ethan Carr took his place. Sylvester sold \$400 worth of the last week he was there and is glad of a chance to rest. The business shows no signs of abating, but will increase somewhat until the new agent gets the run of things and knows how to manage different customers. Saturday afternoon Selectman Carr stepped into the agency to see how the new agent was progressing, found a crowd there waiting to be served, and was at once put to work. He helped the agent for a few hours and is now satisfied that there is some work in selling rum, even in a temperance town. The sales for that day were \$114, or at the rate of \$684 a week, or \$2,736 a month, or over \$30,000 a year. There appears to be no reason for high or low license, where the agency can now do a business of such a magnitude. The only benefit in having a license under such condition would be to get some revenue out of it, and give some individual a chance to make a profit, instead of having it all go to the town."

Obituary

The REGISTER has been handed the following clipping from a Burnett paper of the sickness and funeral of Miss Laura Voorhees whose parents reside in Deer Creek township. Notice of her death was made in the REGISTER at the time it occurred.

"Miss Laura Voorhees, who went to St. Mary's hospital, Milwaukee, about two weeks ago to undergo an operation, died Thursday forenoon, April 17th. As it was supposed she was doing well, her death was a great shock to her many friends in Burnett. She was born in Burnett about thirty years ago and lived with her parents on the old Voorhees homestead until about eleven years since when they removed to Iola, Kan. She returned to Burnett early last summer and has since made her home with Mr. and Mrs. John Weston. She was very unassuming and gentle in her character and made friends of all who knew her. When a young girl she took upon herself the Christian armor and has been a devoted follower of Christ ever since. She united with the Presbyterian church and has always maintained her connection with that denomination. For the past year she has been a regular attendant at the Baptist church and Sunday school and will be greatly missed at these services. Her funeral was held at the home of Mr. and Mrs. Weston, Sunday at 10:30 a. m. and burial in the Stone cemetery. Rev. A. P. Parry conducted the services, choosing his text from 1st Cor. 15:20.

"This has passed away a young life of whom it may be said she had many friends and no enemies. Her parents and family in Kansas who were unable to be present at the funeral have the deepest sympathy of all their friends and acquaintances."

The Octopus

One tentacle gripping the stomach, another tickling the heart, a third fumbling around the liver, tightening their hold every hour—dyspepsia is the monster that does all this and worse. Dr. Caldwell's Syrup Pepsin will make it go mighty quick. C. B. Spencer & Co.

The dispatches bring the good news that an increase in pension of \$12 a month has been granted to Lewis Johns, of Humboldt.

Spring Ailments.

There is an aching and tired feeling; the liver, bowels and kidneys become sluggish and inactive, the digestion impaired, with little or no appetite, no ambition for anything, and a feeling that the whole body and mind needs toning up. The trouble is, that during winter, there has been an accumulation of waste matter in the system. Herbine will remove it, secure to the secretions a rest, and by its tonic effect, fully restore the wasted tissues and give strength in place of weakness. 50c at C. B. Spencer & Co.

PARKER'S HAIR BALSAM
Cleanses and beautifies the hair. Promotes a luxuriant growth. Prevents the hair from turning gray. Restores the hair to its youthful color. Preserves the hair from falling out. 50c and \$1.00 at Druggists.

A TEXAS WONDER

HALL'S GREAT DISCOVERY.

One small bottle of Hall's Great Discovery cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism, and all irregularities of the kidneys, and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1.00. One small bottle is two months' treatment and will cure any case above mentioned. Dr. E. W. Hall, sole manufacturer, P. O. Box 629, St. Louis, Mo. Send for testimonials. Sold by all druggists.

Nevada, Mo., July 20, 1901.—This is to certify that I have used 1/4 bottle of Hall's Great Discovery. When I began I was confined to my bed. Now I am able to walk around. It is worth its weight in gold to anyone suffering with kidney and bladder trouble. I am satisfied it is curing me. Yours truly,
H. S. BRYAN.

District Court Convenes.

Judge Stillwell came up from Erie Monday and district court was called to order next morning at 9 o'clock. Only the lawyers were present and the time was devoted to going over the docket and setting the time for hearing the cases. The criminal jury cases will come first and as there is a long grind of liquor cases it is probable that much of the court's time will be given to them at the start. The jurors who will attend the session are:

George McClelland and John Barnhart, Iola township; John Hartwig, W. Z. Bartels, Chas. H. Smith, Wm. Yeagor, J. E. Powell, George Freeman, J. K. McQuigg, and J. N. Rowden of Iola City; Frank Fussman, J. Stevens, H. W. Goodhue, Humboldt; Luther Morris, and O. Michel, Logan township; C. F. Adams, and Lewis Powell, Elm township; R. Kamping, Salem township, H. A. Sawyers and Jno. McCracken, Cottage Grove township; S. B. Skaggs, Moran; D. T. Smith, Carlyle; Perry Hoffman, Osage; Allen Nelson, Elsmore.

As is the usual case the first day in court marked the settlement of many cases, some being settled out of court, others dismissed and still others continued.

Of the old liquor cases several were dismissed at defendants' costs. These were the cases against Cliff McCarley, L. D. Montgomery, Geo. Clayton and Ted Tibbitts. The cases against Ed Rushton, Will Mills and Jim Mills were continued, under \$200 bond. Judgment was rendered against Dan Ball as per agreement. Herschel Simmons and C. K. McCarley pleaded guilty and were fined \$100 and given forty-five days each. Charles Hickman and Kirk Williams did not appear and their bonds were forfeited.

All cases of the City vs the joint men were continued under bond.

These civil cases were continued: Ida Clark vs Santa Fe; Reuben Richardson vs Lanyon Zinc Co.; J. W. Drake vs Iola, continued in name of Drake's widow.

Awaiting a decision in a similar case now pending before supreme court these cases were held open: William Strong vs Lanyon Zinc Company, Jennie Caldwell vs same, Joshua Rumble vs same, Harriet Means vs A. L. Taylor, J. W. vs G. W. Fisher.

Jonas Carter was given judgment by jury for the recovery of goods sold by his wife to J. W. Coffey, or for their value \$6.

The suits to quiet title were confirmed as follows: Louisa Ottens vs Alvina Speckbottle, Rufus Holmes vs J. H. Broughton, Frank Osborn vs heirs of Hyacinth LaSalle, Thos. F. Zigler vs Nannie M. Preston, Aetna B. & L. vs U. M. Barker.

H. A. Ballard dismissed his appeal from justice court in suit with J. W. Coffey, and Coffey dismissed his against Ballard.

Several divorce cases were settled out of court: Grace vs Ulysses Simmons, W. R. Hildreth vs Estelle Hildreth.

The suit of Mrs. Burchby vs her husband was dismissed.

These cases were dismissed: Morgan Lee vs D. L. Griffith, George Nicholson vs Ft. Scott, I. & W.; Gas City vs same; J. H. Brown vs Edgar & Hamilton, C. W. Barnhart vs M. K. & T.

The suit of the Iola Electric Railway against G. W. Baumhoff was removed to the U. S. Circuit court. W. N. Oberdorf and T. J. Staley compromised for \$14.

Eber Myers, fined \$25 for assaulting Joe Kogorski at Gas City last fall appealed to the district court. When his case was called he did not appear and his bond was declared forfeited.

H. B. Winters was given judgment against Joshua Rumble for \$918.

To Cure a Cold in One Day
Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

Death From Horse Kick.

Dr. Fulton was called last Thursday evening to the home of Mr. S. Henson, two miles west and two miles south of town, to attend to the injuries of George Henson, the twelve-year-old son of the owner of the farm, who was kicked on the head by one of the farm horses. After learning the gravity of the case, Dr. Fulton summoned Dr. Coffman, and the two worked until late that night, but with little hope of success.

The boy had been out with a team cultivating corn during the afternoon and returned to the barn in the evening. As the horses were passing through the gate into the barnyard he slipped one on the hip and the animal kicked back viciously, striking the boy on the head with one of his hind feet. The blow felled the boy and rendered him unconscious. He was carried to the house and doctors summoned. The physicians found that the skull had been fractured at the top of the head and the boy's brains were oozing from the opening. They think there must have been a fracture at the base of the skull also, as he bled from the ears and mouth. All that medical science could suggest was done for the boy, but he died at 4 o'clock Saturday. The boy was active and strong and his untimely death in so horrible a manner, just as he was becoming helpful on the farm, is very sad.

The father of the boy came here from Iowa a year ago, buying the Simpson farm, and his brother buying a farm south of town. The former owner of the farm was an Iowa man, who came to an untimely death by the accidental discharge of a gun in his own hands. Two tragedies in so brief a time on the same farm are most unusual.

LOCAL NEWS

License to marry was issued Tuesday to W. E. Kelson, of Humboldt, and Alice C. Butler, of Iola.

While in Kansas City Monday a REGISTER reporter saw a twenty-two horse power Fairbanks-Morse gas engine loaded on the cars for shipment to LaHarpe. It will be used by the waterworks in pumping water.

Ida Allen, of Abilene, has sued George J. Allen for divorce. She is the woman who claims to be the wife of the man who married Mrs. Daffner. After getting him arrested for bigamy, she sues for divorce charging desertion of herself and nine children.

The First State Bank and the National Bank of Garnett, both owned by the Bank of Commerce of Kansas City, have been consolidated and will be managed by W. S. Fallis, formerly of Humboldt, who is a nephew of the president of the Bank of Commerce.

J. M. Preston today made his returns for Iola township, of which he is assessor. He found a total population of 1815; a gain of 343. There were 453 males and 393 female voters. The personal property valuation is \$85,360 and the real property valuation \$834,125.

The spring rains, followed by warm days are making the corn in this section hurt itself growing. A finer growing spring could not be devised and there seems danger of too much rain instead of too little. Last night a dashing shower wet the ground thoroughly, a little hail falling with the rain.

Mrs. Knable, the LaHarpe woman who was severely burned by an explosion of gas in the oven of her bakery some days ago, died Tuesday. She was badly burned about the shoulders, face and arms and it was thought at the time that the injuries would very likely prove fatal. The remains were taken to the old home in Nevada, Mo., for burial.

Some time ago the REGISTER mentioned the probability that a damage suit would grow out of the death of L. H. Endicott last fall at a Missouri Pacific crossing in East Iola. Tuesday a suit for such damages was filed in district court and this morning the case was settled, judgment being rendered against the company for \$450. It was undoubtedly a compromise.

The campers on the river are having a moist time of it. Rain has fallen both nights the boys slept out and yet they swear it is mighty fine living. The cooking is great, the set lines furnish fish, and it is next door to heaven. But they look fagged out, there is a sneaking procession going to the restaurants of mornings for breakfast, and the public refuses to be convinced.

The other day a man came storming to the REGISTER office. He said the paper was running a "cook wanted" ad., for him that he never ordered and he suspected his boarders of taking this way of kicking on the board. The paper was searched and no such ad. found. The man said his present cook was so mad she threatened to leave at once. The paper was again searched and no such ad. found. It then developed that the cook had picked up an old paper, found the ad. which was the cause of her getting her present job and jumped to the conclusion that it was a late paper and that the proprietor was seeking a change.

CONDITION OF CROPS

Too Dry in the East, Too Wet up North.

Washington, May 20.—The weather bureau's weekly summary of crop conditions is as follows:

The drought conditions prevailing at the close of the previous week in the South Atlantic and East Gulf states have been largely relieved, except in Southern Florida, but the continued dry weather in the Ohio valley and middle Atlantic states, with low temperatures during the first half of the week over the northern portion of the middle Atlantic states and in New England, have proved unfavorable, while the Dakotas, Minnesota and parts of Iowa have suffered from excessive moisture. Frosts, more or less, were quite general in the lake region, Upper Ohio valley and in the northern portion of the middle Atlantic states and New England. The temperature conditions in the lower Ohio, Mississippi and Missouri valleys and throughout the Eastern Rocky Mountain slope were highly favorable, but on the north Pacific coast and in the middle plateau districts the week was much too cool.

Corn planting has made favorable progress in the Central valleys, except in Iowa, where it has been delayed by rains, and is nearing completion in Southern Nebraska and Illinois. The early planted is growing vigorously in Oklahoma, Kansas, Missouri and Nebraska, and is in fine condition in Texas, where a considerable portion of crop is made. Cut worms are causing considerable damage in Northern Missouri and in the upper Ohio valley, and while good stands are reported in the middle Atlantic states, low temperatures have been unfavorable.

Winter wheat has experienced no material improvements in the states of the Ohio valley. In Missouri the crop continues in exceptionally promising condition, although some lodging is reported, and further improvement in Nebraska and Arkansas and more favorable conditions in Northern Kansas are indicated. The crop has made vigorous growth in Oklahoma, and harvesting, with light yields, is in progress in Texas. On the Pacific coast winter wheat has made favorable advancement and is ripening in San Joaquin valley.

Stops the Cough and works off the Cold.

Laxative Bromo-Quinine Tablets cure cold in one day. No Cure, No Pay. Price 25 cents.

Real Estate Transfers

Below are given the deals in dirt recorded at the court house since the last report:

\$100 Reward. \$100

The readers of this paper will be pleased to learn that there is at least one dreadful disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
