NAPKINS—To match all these patterns at Bargain Prices.

Topeka Cash Dry Goods Co.

## HAVEN'T GIVEN UP.

People of North Side Will Again Try for Drainage District.

Not dismayed by their first failure, the people of North Topeka are holding territory who want protection from future inundations from Soldier creek and the Kaw river, Monday presented another petition for the creation of a drainage district. The county commissioners examined it, and found that it had the requisite number of signatures of resident taxpayers. Thereupon a hearing of the matter was set for May 23, one week from yesterday, at which time any persons having objections to the matter must appear and file them. If none of the objections are valid, then the organization of the district will be ordered.

A total of 64 names were signed to the petition. According to the law, two-fifths of the total number of resident taxpayers must affix their names to the petition. In order to make a petition valid for the purpose of there would have to be 48 signatures. But there are 64 names to the petition filed today, and every one of them is acceptable in the eyes of the law.

"I think every signature on the petition is good," said Commissioner Stern this morning. We made a very careful examination of the petition, and found it to be in accordance with the law. I can see no fault with it at all. I do not know whether any objections will be raised to it.

Once before a petition was filed by the people who wished protection from inundation, but it was knocked out upon objection that the names of the petitioners were not those of the resident taxpayers. It was shown that quite a number of taxpayers who lived on the south side of the river signed the petition. The law specifically implies that the signer must not only be a property holder but he must be a "resident." So the promoters of the petition avoided this error this time. They examined the tax rolls of the county and saw to it that every name on the petition is perfectly valid, and that J. T. Hazen and John Schenck were employed as attorneys by the objecting parties against the former petition.

Neither of them has anything to say about the present one, whether objections will be made, or whether they have been retained to make them.

The proposed drainage district contains about 12 sections of land, and extends from Silver Lake to a point just east of North Topeka. In width it extends back from the river distance varying from three to seven miles. The plan to run a chain of dikes along Soldier creek to prevent that dangerous little stream from overflowing the neighborhood, and that the main scheme is to build a ditch about four miles in length just west of North Topeka, between Soldier creek and the Kaw river. It is thought that this additional outlet from the creek will prevent the trouble which has always been occasioned by the overflow from the arm of the creek as it bends in a southeasterly direction around North Topeka. Levees and dikes are also to be built at low places along the Kaw river.

A second drainage district was also set for hearing on next Monday. It lies east of North Topeka and embraces about 12 sections. The board found that the petition contained a requisite number of taxpayers, as well as the larger petition. If both of these districts are created, then about 42 sections of land, which have suffered from floods during the past few years will be protected. It is planned to spend about \$100,000 on

## FRISCO SUMMER SCHOOLS

Open for a Three Months' Course in Golden Gate Park.

San Francisco, May 22.—The summer vacation school opened yesterday in Golden Gate park, with Albert M. Armstrong as principal. At the request of the school board, had supplied 17 tents to accommodate the little refugees. These are scattered over the park, and it was no small task to get the various grades classified and located. On the recreation grounds, the children's playgrounds, in the baseball park and on the main driveway the tents are located. In each of the tents a class can be found nearly 600 children more comfortably housed. It is expected that at least 1,500 children will soon be in attendance.

Each tent is built to accommodate 20 pupils and is equipped with desks and blackboards. There are numerous books on hand.

Reading and arithmetic will be paid particular attention to while the classes are in session. There will be many excursions through the park, so that the pupils can be taught from nature. History will be illustrated by means of the zoology of the park, the animal pen, botany by the wealth of wild flowers, and so on down the list of studies. Cooking will be taught by specialists, and the children will prepare their own lunches. The school will be in operation three months.

## CENSUS TAKERS RESIGN.

Hunting Children in Chicago's Fashionable Districts Unprofitable.

Chicago, May 22.—Census takers for the school board assigned to the Lakes and Kenwood precincts gave up their positions yesterday. So did those who had walked all day along Calumet, Prairie and Michigan avenues digging door-hells and trying to locate minors. Party enumerators handed their resignations to Secretary Larson after they had spent a day scouring the race-sidewalk districts in the effort to find the "worth" of children. The census takers are paid at the rate of one cent a name for all children located.

Fifteen enumerators who had been assigned to the fashionable wards announced they had found permanent positions. A half dozen found themselves suddenly overcome by illness; one had to go home and look after the baby, and several were discharged for incompetency.

At a late hour it was reported that all of the enumerators who had been assigned to the ghetto were still at work. So were those who had been sent into the stock yards district and into the communities around the settlement houses.

## Carpenters' Strike Not Justified.

New York, May 22.—Supreme Court Justice William J. Gaynor of Brooklyn yesterday submitted his decision as arbitrator of the differences between the master carpenters' association and the joint district council of Greater New York which two weeks ago resulted in a strike of the carpenters in the borough of Brooklyn.

He finds that the action of the strikers was unjustified, being in violation of their written agreement. He holds that the present differences between the two parties should be referred to arbitration, and that the date fixed for the increase of wages in all the boroughs.

Dr. M. J. Savage Resigns.

## UNITED STATES BEHIND.

Are Neglecting Opportunities in Oriental Markets.

New York, May 22.—O. P. Austin, chief of the bureau of statistics of the department of commerce and labor, delivered an address on the "Neglected opportunities in oriental markets," before the Manufacturers' association last night. The address was accompanied by a large number of illustrations secured by Mr. Austin in his recent trip around the world in the interest of American commerce.

Mr. Austin explained that they depicted the customs and daily life among the people of the Orient and suggested the peculiar requirements of the markets which exist among them.

"The imports of the Oriental countries amount to nearly two billions of dollars annually," he said, "and more than one billion dollars worth of this is of a kind of material which we of the United States might supply. Yet we are at present accomplishing little, very little, indeed, in supplying this great market."

"In that great section of the Orient which lies in the tropics and has more than half its people and commerce, we supply but one per cent of the one billion dollars worth of merchandise imported, and are making no gains, while Europe, which makes and sells nothing that we cannot make and sell, is supplying six per cent of the imports, and steadily increasing her sales."

"The causes of our failure in the Orient are quite apparent to any one who will take the trouble to visit these countries, and study the requirements of the market as created by the habits of the consuming population."

"The Oriental people form a distinct section of the commercial world, a section in which the commercial lines are as distinctly marked as those which separate the great geographical divisions of the world."

"The daily customs of life among the Orientals differ in such an extreme degree from those of the people of the Occident that the merchandise manufactured for use in Europe or America, as a rule, is not suited to their habits of life. The meaning of this is that those who successfully offer goods to the Oriental people obtain this success by offering articles made in form to suit their habits and therefore the requirements of those people. This is the secret of success in Oriental markets."

## Blanchard Badgers' Manager.

Madison, Wis., May 22.—The athletic board of the Wisconsin university has elected the following managers for the ensuing year: Manager of football team, George W. Blanchard; Colby, vice commander of crew, William K. Winkler, Milwaukee. The board also decided to place basketball and cross-country runs on a level with other sports by awarding the official "W" to students who have played ten full halves in championship basketball games or won in cross-country runs.

## WANT AND NEED.

There's a big difference between what a baby wants and what he needs. Deny him the one, give him the other. Most babies need Scott's Emulsion—it's the right thing for a baby. It contains a lot of strength-building qualities that their food may not contain. After a while they get to want it. Why? Because it makes them comfortable. Those dimples and round cheeks mean health and ease. Scott's Emulsion makes children easy; keeps them so, too.

SCOTT & BOWNE, 109 Pearl St., New York.

## CHURCH SHOTS.

At the Theaters.  
Star—Vaudeville.  
Novelty—Vaudeville.  
Crawford—Stock Company.

Harry J. Bone, United States attorney, has returned from a trip to Ashland.

Miss Beattie McNeely, a pupil of Dean Scherubel, will give a piano recital at Washburn college this evening.

The J. J. Lippincott, formerly pastor of the First Methodist church, and chancellor of K. U., is a visitor in the city.

The attention of delvers for ancient historical data is called to the fact that Lot's wife lives in an eastern suburb of Topeka.

Tomorrow is Ascension day and will be celebrated by special services at the church of the Assumption and at St. Joseph's church.

Councilman Joseph Griley and family left for Zanesville, O., today on account of the serious illness of the mother, Mrs. Griley.

Even though the rain this morning was not so very heavy, it was received with praise and thanksgiving by the truck gardeners in this vicinity.

Umbrellas which have been up in the streets and under awnings all day were taken out and unfurled this morning for the first time in weeks.

The nurserymen east of the city have been worrying over the outcome of their nurseries, which have been seriously affected by the lack of rain.

Early risers this morning could have seen one of the most gorgeously tinted rainbows ever hung in a cloud draped sky, by looking to the eastward.

The J. K. Jones paint company has made a distribution of maps over North Topeka, and a large force of men are excavating preparatory to the laying of the mains.

Henry Brothers' trained animal show will give a performance Saturday afternoon and evening on the lots at the corner of Ninth and Jefferson streets.

The lack of rain is said to have ruined the prospects for homegrown strawberries, but it has done about the right thing as far as the baseball season is concerned.

Schedules are being sent out by the state board of charities calling for bids on supplies to be furnished the state institutions for the term of six months commencing July 1st.

Vernon Rose, but the chief of police of Kansas City, Kansas, but an incorrigible youth from Lawrence, was placed in the reform school north of this city.

The Secretary of the state board of agriculture left for Chicago Monday where he will deliver an address before the advertising men who are holding a convention here.

"Yes, I like a glass of beer with a caviare sandwich," said one prominent citizen who is strong for law and order. "The name is wrong, because it would scandalize some of his friends."

A dispatch from Denver says that the president of the gas company of that city is in jail but does not say whether it is a row about ten cent gas or about C. K. Holiday please notice.

The air was filled with the little green bugs last night which have come to be looked upon as sure forerunners of rain, and the rain came this morning in a deluge of a slighter nature.

All of the state printing plant has been moved to its new and permanent home on the corner of Jackson and Tenth streets, and most of the presses have been set up and are in operation.

There is but one thing worse than being compelled to listen to the story told by a refugee from San Francisco, and that is to hear the story after it has transferred it to paper.

The seal and snake show which is located on Quincy street and East Sixth avenue should be suppressed. If it can't be prohibited it should be at least relegated. The show is a degrading exhibition.

J. D. M. Hamilton, claims attorney for the Santa Fe Railroad company, is in Cincinnati, Ohio, where he will deliver an address before the national claims agents' convention which meets there this evening.

Elaborate preparations are being made for the opening of the Country club, which has been postponed from time to time on account of the completed condition of the improvements which are being made.

street lights would have a show," said H. K. Goodrich, superintendent of the electric light plant. "The trees are so thick and attempt is made to trim them, and as a result the light doesn't penetrate any distance."

Theodore W. Jones, a member of the executive committee of the national negro business league, Chicago, will address the colored business men and women of Topeka at the opening of their permanent headquarters at the Commercial club rooms, 627 Kansas avenue, Monday evening, May 28th.

Persons having old magazines or illustrated papers, religious or otherwise, will be willing to give them to the unfortunate at the state hospital, would in so doing brighten in a measure the sad lives of those who spend their spring and all winter in a dreary cell, and it will take another registration before the fall election before they are qualified.

There is just enough interest now in the fall election to bring out a few stragglers to register at the commissioner of elections office. About 35 per cent of the voters of Topeka are disqualified to vote through their failure to vote this spring and it will take another registration before the fall election before they are qualified.

The second car of a train of three, bound for the ball park, jumped the track at the corner of Seventh and Madison streets about four o'clock yesterday afternoon and made a short cut towards the curb. Aside from the injuries done to the feelings of the fans who were on their way to the ball game and missed the first inning or two on account of the accident, the damage amounted to little.

Some views of the San Francisco disaster which are displayed with the moving pictures at the Novelty theater this week show large cracks in the pavement made by the earthquake. And the man who makes an explanatory lecture of the pictures made a hit with the crowds last night by saying, "If you want to get a good idea of the present condition of the streets in San Francisco, get out and take a good look at Kansas avenue."

## A POOR MAN'S COUNTRY.

So United States Must Have a Poor Man's Government.

New York, May 22.—"Think of the United States as a poor man's country that has a poor man's government," was the advice that J. P. Dolliver, United States senator from Iowa, gave the graduating class of the Packard commercial school at its commencement exercises last night.

Senator Dolliver made a plea for the man who has risen from a humble boy in the country. "Character," he said, "comes up into a man from the plowed ground through his bare feet. Abraham Lincoln was such a man, the American type at its best, born of a disintegrating and hard work, more royal than a king."

The senator scored morbid schools of social science that despair of any remedy save a clean sweep of existing conditions.

"The law of human life is the law of labor, sacrifice and struggle," declared the speaker. "Men and nations become stronger by doing things. Heavy burdens and responsibilities make strong nations."

## LOLITA ARMOUR IMPROVES.

Vienna Dispatch Says Chicago Girl's Malformation Has Disappeared.

New York, May 22.—A cable dispatch to a morning paper from Vienna says, Lorenz said yesterday that he was pleased and satisfied with the improvement in the condition of Lolita Armour, who will remain in Vienna every middle of next month, while her parents go on a motoring tour into Switzerland and France.

"Beyond a certain awkwardness in some of her movements," said the surgeon, "the malformation has disappeared and her strength for walking, running, jumping and dancing is perfectly normal. I have little doubt every trace of the original trouble has finally vanished and that no further surgical attention is likely to be necessary. Still it is desirable that I should see the patient at intervals of one or two years until her recovery is absolute. If Lolita, who is a beautiful girl, but inclined to stoutness, were of a slighter build, her cure would have been complete before now."

## FOUR MORE VICTIMS.

Addition to the Coroner's List in San Francisco.

San Francisco, May 22.—Four cases were added to the coroner's list of victims of the earthquake yesterday. The total number is now 395. Two of the new cases came from the Kingsbury house, 172 Seventh street. Another came from the corner of Washington and Battery streets. The fourth came from the corner of Montgomery avenue and Francisco street. In one case the identity of the victim was established. William Burnip was the name. His remains were dug from the ruins of the Kingsbury house by his son.

Burnip's home was in the east side of the city. He was a native of England, 55 years old.

## Food Cure

NATURE'S WAY

See Diet List Below.

HEALTH REGAINED VIA FOOD.

A man may try all sorts of drugs to help him to get well, but after all the "food cure" is the method intended by Nature.

Anyone can prove the efficacy of the food cure by making use of the following breakfast each morning for fifteen or twenty days:

A dish containing not more than four heaping teaspoonsful of Grape-Nuts food, enough good, rich cream to go with it, some raw or cooked fruit, and a slice of butter, with a cup of Postum Food Coffee, to be sipped, not drunk hurriedly. Let this suffice for breakfast.

Let one meal in the day consist of an abundance of good meat, potato, and one other vegetable.

This method will quickly prove the value of the selection of the right kind of food to rebuild the body and replace the lost tissue which is destroyed every day and must be made up, or disease of some sort enters in. This is an age of specialists, and the above suggestions are given by a specialist in food, dietetics and hygiene.

## WESTERN ASSOCIATION GOSSIP.

Where they play tomorrow: Springfield at Topeka. Webb City at Joplin. Wichita at St. Joe. Oklahoma at Leavenworth.

Billy Kimmel has given it up at Wichita that he has practically secured Hank Gehring for the jobbers. He also says that Johnny Filmore will join his team to play third base in the place of Rathburn, who exploded, and was sent to Leavenworth. He is now trying out Billy Dammann, just released by Topeka.

From the Leavenworth Times: The Leavenworth team is now in the predicament of carrying five pitchers, two shortstops (providing Pennington returns) and two third basemen with the possibility that none will be released immediately. Rathburn, the new Wichita man, will first have to show what he can do on third and it will then also have to be decided which of the five catchers is to be sold. In addition the catcher have been carried all this time owing to the injury of Corbin and McDowell in the first game at Webb City.

President Baker, of Joplin, has offered Springfield \$300 for Third Baseman Gus Heeling. Smiling John almost regarded the offer as an insult.

Springfield is to have a new second baseman which means Tommy Cope will have to go. Mister Shinn refuses to tell who he is.

President Shiveley says that the Pennington case at Leavenworth is a very questionable affair. The outcome will be hard to predict. "Pennington first told me that he had a nonreserve contract with Boone last year," said Shiveley. "When the matter was brought up by Nebraska, he had a reserve contract, but now claims that no contract was presented to him this year. That is his contention at this time and upon it he hopes to be reinstated at Leavenworth by Secretary Farrell. The fact that he did not tell the straight of the matter right at the beginning has worked against him, or do not know what the outcome will be."

Bill Rapps got \$27 for knocking a home run at Leavenworth on Sunday. That is the record price for a four-bagger.

An amusing story on old "Dick" Cooley is told by Davy Jones, of the Detroit Americans.

"I never saw a crowd laugh so hard as it did in Chicago one day while 'Dick' was doing one of his famous sprints round the diamond for Boston," says Jones. "Dick" was the first man up in the game and he hit the first ball pitched on a line out toward Mr. Field. It sprang for all I had in me, ending back and off to the side and, as luck would have it, just got the ball in one hand.

"At the time Cooley was busy turning first base. He gave a glance, saw I was still on the run—I hadn't had time to slow down—and dug for second, thinking certainly that the ball was past me. Well, I saw the joke, and I kept running, too.

Cooley, turning second base, saw me far out in the field, throw the ball to an infielder, who was obviously going to relay it in. Poor 'Dick' panned, third and dug for the plate like a wild man. He hit the dirt at the finish, making an

excellent slide and just beating the ball. "And I was the crowd did yell! Cooley thought at first that they were applauding him for his grand drive, great sprint and noble slide, but someone put him next to what the din meant and he was wroth at me for a week."

From the Webb City Times on the team's return from Topeka: Webb City fans are feeling fine. They are proud of Dick Rohm's aggregation, every one of them. They have made a good record, although they dropped three out of four to Topeka. The White Sox had somebody to hold the light for them and, in fact, they had to take every point won by a hard fought contest. The Topeka aggregation is looked upon here as the strongest team in the association.

Smiling John Shinn, secretary and treasurer of the Springfield ball club, says he has been offered \$1,700 for the release of Catcher Seabaugh by the Chicago Nationals. "I guess he is worth that to me if he is to them," was his comment. "I don't want the money any way and he stays with Springfield. Why wouldn't trade him for Dick Cooley?"

## CURE WON AT BILLIARDS.

Hoppe Called Referee's Attention to a Foul by Which He Lost.

Montreal, May 22.—In a 500-point match here last night Louis Cure defeated Willie Hoppe. With five points to run Hoppe drew the attention of the referee to a foul which neither the referee nor Cure was able to see owing to their being in a crouch out with 11. Cure's average was 17.84 and his high run 62. Hoppe had an average of 17.49, and his best run was 121.

A Chicago-Nebraska Game. Chicago, May 22.—The University of Chicago has scheduled a football game with Nebraska, to be played at Marshall Hall, on November 24. This will be the last "big" game played by the maroon team. Stagg is trying to arrange a "big" game, to be played at Marshall Hall, on November 11. Arrangements have been completed for a dual league meet between Chicago and Minnesota to be held at Minneapolis next Saturday.

Dineen Signs With Boston.

Boston, May 22.—William Dineen, the Boston American pitcher, has signed contracts and secured his reinstatement in the American league. Dineen has been holding out for a two-year contract, but he was reinstated after talk with Sam Johnson, and signed for this season only.

## SHAKE INTO YOUR SHOES

Allen's Foot-ease, a powder. It cures painful, smarting, nervous feet and instantly takes the sting out of corns and bunions. Allen's Foot-Ease makes tight or new shoes feel easy. It is a certain cure for sweating, callous, swollen, tired, aching feet. Try it today. Sold by all Druggists and Shoe Stores. By mail for 25c in stamps. Don't accept any substitute. For the Allen's Foot-Ease, also Free Samples of the Foot-Ease Sanitary CORN-PAD, a new invention, address, Allen S. Olmsted, Le Roy, N. Y.
