

Daily Eagle

M. N. MURDOCK, Editor.

TUESDAY MORNING, NOV. 16, 1886.

The Kansas City Times complains that it did not get the news, by wire, of the Purple tragedy in Hodgeman county last week.

The Washington Post slashes a bucket of brine over the raw-backed Democracy of Kansas in the following observation:

The party has lost through the blind leadership and selfish mismanagement of Glick and his crowd the most glorious opportunity to succeed that it ever possessed in the history of the state.

The fanatical inconsistency of the prohibitionists is well illustrated by their course in the recent election in New York.

The vital interest of St. Louis merchants in the adjustment of Southern Kansas rates, now occupying the attention of the Southwestern Association, and to come before the arbitration committee at Chicago next Tuesday, has finally fully impressed itself on the St. Louis business public.

According to statistics recently gathered by the Atlanta Constitution, the colored people own and pay taxes upon \$10,000,000 of property in South Carolina and \$15,000,000 in Louisiana.

Evidently Henri Watterson is not so completely mangled on the star-eyed goddess of reform, vulgarly impersonated these two years past by Grover, the model mayor, as he was that long ago.

In view of complications that are likely to arise and the close contest that now seems probable at the next presidential election, one of the most important measures that will claim the attention of congress at the coming session will be the perfection and passage of an electoral count bill.

A newswoman is reported to have said not very elegantly that Carlisle will go back to congress with his tail drooping. Not so, Carlisle is down in Wichita, breathing Kansas air, shouting Jack rabbits, and endeavoring to persuade his son to move to Kansas City and go into the real estate business.

In the main correct. His son came west with the idea of settling in Omaha, Kansas City or Wichita. He took in both of the former places before visiting Wichita. He says he hadn't got more than half the way down one of our long, shaded avenues before his mind was made up, and his father, it seems, will never tire of congratulating his son on his fortunate escape from the brick-crowned precipices and rock-ribbed declivities of the tail end of the Sui Hills.

There is no doubt that the prohibition vote drawn from the Republican party at the last national election cost the party the presidency. That loss to the party, even if it should be permanent, will be offset two years hence by greater losses from the Democratic party by the labor organization, or "Progressive Democracy," as it has been dubbed by its founders.

Albert Snyder, who returned from Wichita yesterday, brings us the news that a man named McAboy, aged about 30 years, committed suicide in Towanda yesterday at 3 o'clock p. m. by shooting himself.

Hon. Randolph Hatfield, of Wichita, recently re-elected to a second term in the legislature, will be a candidate for speaker. Mr. Hatfield was one of the ablest members in the last house and showed his capacity for the position to which he now aspires in many ways.

THE BIBLE AND WOMAN'S RIGHTS.

Your correspondent on "Woman's Rights" in the Eagle of the 9th meant I think to be just.

"The fact that Adam was created first and that woman was taken out of man, gives him the precedence." Well, then according to this logic the old lumbering uncount printing press, with tedious hand lever, is better than the improved steam power cylindrical press of today.

The fact that Adam was created first and that woman was taken out of man, gives him the precedence. Well, then according to this logic the old lumbering uncount printing press, with tedious hand lever, is better than the improved steam power cylindrical press of today.
