JOKE ON DR. GATES.

His Lecture on Attending Chapel Was Wasted.

Dr. Geo. A. Gates, the prospective president of Washburn college, is a genial man who makes friends quickly, especially among young people. He was in Treasurer Jas. F. Griffin's office last evening when a boy came in and wanted to pay the tuition fee to Mr. Griffin. Mr. Gates spoke pleasantly to the boy, chatted a little, and asked if he had been at chapel that morning when he gave his talk. The boy said 'No, I—' when Mr. Gates interrupted him with, 'What, not at chapel? Why, every student should attend chapel.' The college president went on with a short lecture on the many things of profit to be gained by a regular attendance at chapel. Then the boy got a chance to say, 'Why, don't attend Washburn.' 'But you said you wanted to pay your tuition,' said the bewildered president. 'Yes, but I came to pay some one else's tuition.' Then the doctor laughed at his mistake, and hoped the young man would 'enter college soon and then attend chapel faithfully.' The boy said afterwards that the doctor had taken the mild scolding for the supposed breach of rules when it gave him a chance to talk to so pleasant a man as Dr. Gates.

JUNCTION CITY TRIES IT.

Scholars Write Letters to London-derry Pupils.

John MacDonald, of the Western School Journal, has forwarded a bunch of letters to the pupils of a school in Londonderry, Ireland, from the pupils of all the grades of the Junction City schools.

The letters were sent to Mr. MacDonald by Prof. William Heaton, principal of the Junction City schools. There are several dozen in all, and they tell of the fort, the surrounding country, and the city and railroad, and other things of interest locally.

'They are very well prepared,' said Mr. MacDonald, 'and show evidence of much care and pains. There were some mistakes and inaccuracies in the letters, however, showing that the letters were wholly the work of the scholars and were not doctored by the teachers. That is well, for there is nothing like these exercises to stimulate a desire on the part of the scholars to write a nice letter and have it correct.'

OVATION TO MISS GOULD

At the Jubilee Dinner of the Y. M. C. A. Committee.

New York, Nov. 15.—Miss Helen M. Gould was accorded an ovation at the jubilee dinner of the international committee of the Young Men's Christian association of North America, which was held at the Waldorf Astoria last night. She occupied a box in the grand ball room of the hotel and the applause came when W. B. Miller in his report of the Y. M. C. A. work in the army and navy said: 'To that noble woman whose name is on every tongue, who gave the association hall in Brooklyn, too much praise can be not be paid.'

Found Guilty of Murder.

Ellinwood, Kan., Nov. 15.—The coroner's jury in the case of Mrs. Ed Hotchkiss, who shot James A. Duffy October 31, found her guilty of willful and deliberate murder. At the preliminary hearing before Justice Ogle at Great Bend she waived trial and was bound over without bail to the November term of the district court that convenes next Tuesday.

Contagious Blood Poison

There is no poison so highly contagious, so deceptive and so destructive. You're too sure you are cured because all external signs of the disease have disappeared, and the doctor says you are well. Many persons have been dosed with Mercury and Potash for months or years, and pronounced cured—to realize when too late that the disease was only covered up—'Like Bogots Like,' driven from the surface to break out again, and to their sorrow and mortification find those nearest and dearest to them have been infected by this loathsome disease, for no other poison is so surely transmitted from parent to child as this. Often a bad case of Rheumatism, Catarrh, Scrofula or severe skin disease, an old sore or ulcer developing in middle life, can be traced to blood poison contracted in early life. For it remains smoldering in the system forever, unless properly treated and driven out in the beginning. S. S. S. is the only antidote for this peculiar virus, the only remedy known that can overcome it and drive it out of the blood, and it does this so thoroughly and effectually that there is never a return of the disease to embarrass or humiliate you afterwards.

SSS Poison in any and all stages;
