## 25TH ANNIVERSARY. ROOT'S HEALTH POOR.

**Celebration of Vanderbilt University's Founding.**  
Nashville, Tenn., Oct. 23.—Exercises in celebration of the 25th anniversary of Vanderbilt university were held today in the Gospel tabernacle. The members of the faculty and board of trustees, students and former students of the university formed in procession on the grounds and proceeded to the tabernacle. The exercises were held in the afternoon. The speakers were delivered by President Arthur T. Hadley of Yale and Chancellor Kirkland of Vanderbilt, and the presentation of Kismet ball, the gift of W. K. Vanderbilt followed.  
This afternoon a reception was given by the chancellor and board of trustees.

**Republican Gains in the West.**  
Washington, Oct. 23.—Congressman Hepburn, of Iowa, who was here yesterday, said of the political outlook: "There is no question in my mind of the result of the election. We will carry a number of states we did not carry before. Kansas, Nebraska and South Dakota will be among these. Iowa will probably give a larger majority for McKinley than four years ago, and will elect a solid Republican delegation to the house of representatives."

**Stricken While at Prayer.**  
Lexington, Ky., Oct. 23.—While the Rev. Dr. P. V. Bartlett, who has been pastor of the First Presbyterian church here for twenty-six years, was in the midst of prayer he suffered a stroke of paralysis, being rendered dumb and helpless. He was carried from the pulpit to his home. He has since recovered his speech but his faculties are still affected.  
Dr. Lerrigo has moved his office to 729 Kansas avenue. Hours, 11 a. m. to 12:30 p. m., and 5 to 6 p. m.

## LABOR FOR M'KINLEY.

Great Revolt Against Bryan Is in Progress in New York.

New York, Oct. 23.—Encouraging reports of the workmen favoring the election of McKinley and Roosevelt continue to come in from labor centers. They show that a great revolt is in progress in the Democratic ranks. Workingmen are rapidly awakening, according to the reports to the fact that the success of the Republican party in the coming election means a continuance of the good wages and prosperity, while on the other hand, the success of Bryan means a return to a pauper to all industries.  
E. Cook, delegate of Local Assembly No. 6, of the Knights of Labor, said today that he had found a general change of opinion in favor of McKinley among the workmen of Manhattan and Brooklyn.  
"Many of those who voted for Bryan in 1896, he continues, are now speaking their intention to vote for McKinley this year. I think the main reason for this change in their feelings is due to the spirit of patriotism among them. They are good American citizens and like great pride in their country. They are believing more strongly every day that Bryan is fighting the nation, and they are determined to oppose him. His speeches here have injured him."  
"All workingmen, I think, will vote for McKinley, because they are in favor of sound money. The menace of free silver makes McKinley the only man who believes that McKinley will carry the state by a large majority, and I believe that the heavy majority is due to the fact that the Republicans are alert and determined to fight the most wonderful vote in the history of the party."

## PEPPER IN HIS EYES.

Girl Attacked by a Tramp Defends Herself in a Novel Manner.

Freehold, N. J., Oct. 23.—Carrie Twine, daughter of a farmer near here, frequently is obliged to come home alone the country road after dark. She is not afraid, and she does not carry a pistol. She carries a little bag of red pepper.  
During twilight last night she was accosted by a tramp, who tried to force her into a rooming house. She did not believe in his advances, and she quickly ran home and emptied the bag of red pepper in his eyes.  
They searched for the tramp, and had little difficulty in finding him. They tried to rub the pepper out of his eyes. After they had done this, they found that they were tired they left.

## SEA SERPENT IN JAPAN.

One Twenty-Three Feet Long Caught at Depth of 250 Fathoms.

Vancouver, B. C., Oct. 23.—A new sea serpent has been discovered on the coast of Japan 100 miles from Tokyo. It is called by the natives a "Kaiju" and is one of the most gigantic ever seen. It was caught by a long fishing line at a depth of 250 fathoms. It was a magnificent specimen. A large disk surrounded the body and extended to the surface of the sea. A circle of numerous graceful tentacles hung down from the margin of the disk, while on its upper surface arose an oval tube supported at its base by four appendages and having a second circle of smaller tentacles around the upper edge. The total height of the animal was 23 feet and 3 inches (twenty-three feet) and the prevailing color transparent scarlet. The specimen was entirely fresh, but not living.

## LAUGHING AT A CARTOON.

Indianapolis Physician Expires While Enjoying a Newspaper Picture.

Indianapolis, Ind., Oct. 23.—Dr. W. P. Newton, a prominent north side physician, died suddenly at his home, No. 212 College avenue, this afternoon. He had been ill for some time, but seemed to be improving. His attending physician, Dr. H. Noble, had called, and Dr. Newton was laughing at a cartoon in a newspaper. He expired from a sudden attack of heart disease.  
Dr. Newton represented Bartholomew county in the legislature in 1886 and then located here. His son, Eustis Newton, is a medical student and a member of the pitching staff of the Cincinnati league club.

## MUST SPEAK ENGLISH.

Uncle Sam Wants China to Appoint Such a Minister.

New York, Oct. 23.—Secretary Hay has taken immediate action to insist upon the responsibility in China, says a Washington special to the Herald. After consultation by cable with Minister Conger he has instructed the American minister to demand the appointment of the tsung li yamen and the appointment of a minister for foreign affairs who shall speak at least one European language. The object of this is to insure the placing of the responsibility when future negotiations are under way. The tsung li yamen has been in the habit of shifting the blame for delaying action upon demands made by the powers and the United States and it is believed other powers will insist that the tsung li yamen demand the appointment of a minister for foreign affairs.

## CONNECTICUT'S VOTE.

New Haven, Conn., Oct. 23.—The largest registration ever known in this state is reported by the secretary of state. According to the returns the total enrollment will reach 217,500, as against 198,500 in 1898, and 194,000 in 1896.

Derby increases from 1,232 to 2,400; Beacon Falls from 96 to 206; Torrington from 2,208 to about 2,700; Hartford from 15,531 to 17,450; Manchester from 1,995 to 2,445; Danbury from 4,841 to 5,500; Norwich from 4,870 to 5,300; Norwich from 5,370 to 5,990; New Britain from 5,507 to 6,600.

## JOCKEY SPENCER'S LOSS.

Revocation of License Causes Croker to Reject Him.

New York, Oct. 23.—Henry Spencer, the jockey whose license was recently revoked, has been notified that his license will leave for his home in California on Saturday. Spencer says that the steward's action was great surprise to him, as he had agreed to run a year for Richard Croker next season, and he was soon to have signed with the Tammany chieftain. The revocation of his license cost him the job of running a year for Croker, and he has already captured the jockey says that next season he will apply to Croker for a license.  
Change in Russian Diplomacy.  
New York, Oct. 23.—Count Cassini, the Russian ambassador who is due to arrive here on the Kaiser Wilhelm der Groesse, may remain in St. Petersburg for some time in Washington, according to a special to the World. It is current talk among diplomats at Washington that Cassini will be transferred to Tokyo, where he is his ambition to be stationed. In Pekin, where he long served with success before coming to the United States.  
De Giers, the present Russian minister to China, it is believed, is slated as Count Cassini's successor as ambassador to the United States.

## THEY MUST CLOSE.

Retail Clerks Force Merchants to Observe Union Rule.

The Retail Clerks' union made a demonstration last night in front of the stores which have been keeping open after 6:30 o'clock in the evening, the time at which all the stores had agreed to close.  
The clerks and their friends, numbering about 100, marched up and down in front of the stores which have been keeping open. In a short time a Samuel, at 522 Kansas avenue, closed his place, and Friedman A., who is on business across the street, also closed his place. Morris Affron, at 516 Kansas avenue and S. Schinopke, at 429 Kansas avenue, refused to close, and kept open until a late hour.  
The members of the Retail Clerks' union say that the stores must close, and they are backed in their demand by members of the various unions. If the stores do not close the union will continue its marching tactics.  
Mr. Samuel said this morning that his store had closed before the clerks had much of a demonstration, but that he thought that they should make all the stores close if they expected him to close.  
Morris Affron said: "This is the best time of the year for the stores to keep open in the evenings, and I think we will have a lot of doing so. The hour 6:30 is too early, and I think that a later hour should be chosen." He would not say whether the store would keep open or not, but that they would have a demonstration and that some agreement would probably be made.

## A MERE FARCE.

Rocheport's Opinion of England's Respect for China.

New York, Oct. 23.—A dispatch to the Journal and Advertiser from Paris says: Henri Rocheport, speaking of the Anglo-German alliance, says: "England's pretended respect for the integrity of China is a mere farce. Her zeal for the integrity of China is about as real as her agreement would probably be made."  
Rocheport's opinion of England's respect for China.  
The "open door" and Integral China are mere phrases of diplomatic hypocrisy. The real object of the Anglo-German alliance is to prevent Russia from taking Manchuria. England and Germany are also trying to break the Franco-Russian alliance. Should Russia hold Manchuria her rivals, England and Germany, will wage war against her. France cannot stand by and see Russia beaten, for with Russia vanquished these two powers would turn their forces against France.  
"We have been steadily working a triple, but with a quadruple alliance, England and Germany are both influenced by the principle of might. The German emperor has gone back to his grandmother's leading strings. Of course he gets some consideration for his friendship, the socialists make it difficult for him to get money through the reichstag for his ambitious schemes and England is in consideration of the new alliance."
