Roosevelt Annoyed.

Printed Lists of Questions Thrown Into His Carriage.

Utica, N. Y., Oct. 25.—Governor Roosevelt's third day of campaigning in New York state embraced several features not heretofore marked in his reception at other places.

In this city last night instead of speechmaking the day's work ended with a view of an immense demonstration.

There was a preconcerted attack at Rome to compel Governor Roosevelt to answer questions concerning the letter of Mayor Van Wyck, the prosecution of the ice trust, the prosecution of the illegal casinos and others relating to the office of governor.

With the exception of a short trip of an hour to Herkimer, where a brief address was made, the remainder of the day was at two immense meetings in this city.

Bryan Replies.

Answers Questions of His Opponents in Detail.

Wilmington, Del., Oct. 25.—The first of Mr. Bryan's night meetings in this city was held in a big tent and while the meeting began much earlier Mr. Bryan did not appear until 9 o'clock.

Mr. Bryan took cognizance of a series of questions propounded to him by the P. Nelligs, of this city. These questions were as follows:

First—Will he, if elected president, as commander in chief, immediately withdraw the army from the Philippines?

Second—How soon does he contemplate that a stable form of government can be given to the Philippine islands?

Third—How long after a stable form of government is established does he propose to give the national debt the independence of these islands?

Fourth—How long after a stable form of government is established and independence is declared does he propose that the American protectorate over the Philippine islands shall continue?

Fifth—Will he pay the obligations of this government in silver or gold if elected president?

Mr. Bryan read the questions, and replied to each of the inquiries.

If I were to permit Republicans in congress to select the subject which I was to discuss I am afraid that every where some Republican would avail themselves of the opportunity in order to prevent my discussing the things Republicans do not want to discuss.

As a reply to the first question he quoted from his speech of acceptance, saying:

I stated that if elected president I would immediately convene congress in extraordinary session and would ask congress to select the subject which I was to establish a stable government in the Philippine islands as we are now establishing a stable government in Cuba.

On the second question he said: "No one has attempted to fix the number of days or weeks or months necessary but I will say this, that I believe that we could establish a stable government in the Philippine islands in six weeks."

On the third question he said: "The phrase 'as soon as possible' means in our language, I do not know what it means in Republican."

On the fourth question he said: "The questioner had read my speech he would have seen that there was no limit on the protectorate, and we believe that when this nation helps a republic to stand upon its feet the ground whereon it stands is holy ground, and that no king shall ever set his foot upon it."

On the fifth question, relative to paying the obligations of this government in silver or gold, if elected president, he said: "I want the Republicans who want that to lay their hands on their consciences and tell me whether they want them to know that if elected president I will enforce that law just as I will enforce the law against trusts and put the striped clothes on big thieves as well as little thieves."

On the sixth question, relative to the establishment of a protectorate in the Philippine islands, concerning which Mr. Bryan said: "Republicans say that we can not protect the Philippine islands without a great deal of trouble."

On the seventh question, concerning the national debt, Mr. Bryan said: "The Republican doctrine is the doctrine behind which the monarchies of the old world have hidden when they have wanted to plunder poor and helpless people."

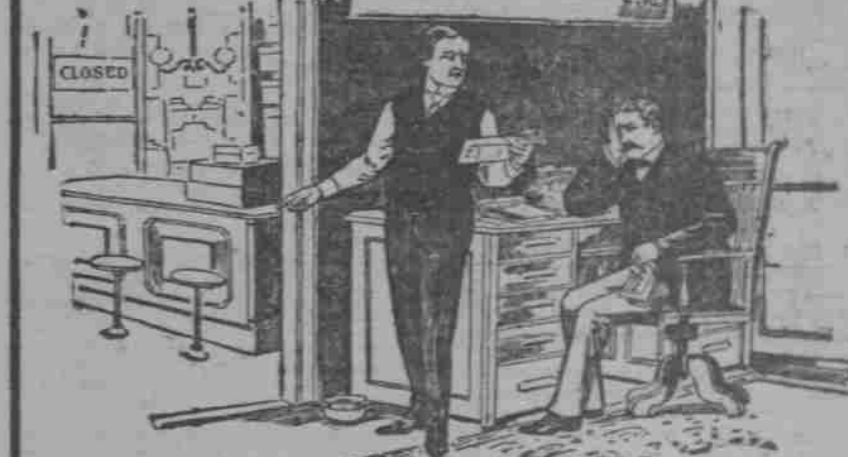

On the eighth question, concerning the national debt, Mr. Bryan said: "I am trying to do all the good I can, but I am doing as much as you could expect one person to do."

The audience both at Milford and Harrison were large and quite appreciative.

On the ninth question, concerning the national debt, Mr. Bryan said: "I am trying to do all the good I can, but I am doing as much as you could expect one person to do."

On the tenth question, concerning the national debt, Mr. Bryan said: "I am trying to do all the good I can, but I am doing as much as you could expect one person to do."

Cause of Business Failures.

Life's path is beset with terrors. The nerves must be like iron to resist its many shocks.

An eminent physician estimates that many of the failures of business men are directly traceable to a debilitated physique.

This is a scientific fact. Don't blame your luck or fate or fortune. Realize that the fault lies within yourself, and then BRACE UP.

and think the matter out. Weak nerves spring from impure blood. Impure blood comes from a weak stomach. Weakness in the stomach means catarrh of the lining of the stomach, just as weakness in the kidneys or liver or lungs means catarrh of the lining of these organs.

The medicine to do this is Pe-r-u-na. Your brain will brighten, your weakness will disappear—the horizon of life will appear brilliantly hopeful—you'll find yourself made of the stuff which produces successful men.

It builds up the weak places and fortifies the system against disease.

Mr. Bryan was driven to the Grand opera house, where he made his last speech of the night to a congregation composed largely of ladies.

Why should a farmer in Delaware vote to allow corporations to water their stock in the election of the president of the United States?

Mr. Stevenson makes a record of five speeches a day.

Good Balance in Treasury. Indianapolis, Ind., Oct. 25.—The report of the treasurer of the Union Farmers' home for the six months ending August 31, 1900, shows a balance in the treasury of \$18,600.

Minnesota Town Burned. Wabasha, Minn., Oct. 25.—The entire business part of Minnesota was burned today, including the postoffice. The Farmers' elevator and several loaded cars also were burned. Loss \$75,000.

Pure Blood. There is no health possible without pure blood, and with pure blood no disease is possible. Purely and entirely life-current, and good health will result.
