THE RESULT.

The overwhelming election of Mc-Kinley is not only a strong endorsement of his successful and patriotic course during the Spanish war, but shows that the people of the country were afraid of the so-called "Bryanism" and the sweeping changes and experiments Bryan proposed to make if the Democracy had been successful.

The business interests of the country were evidently determined that no chances should be taken on any radical change in the financial affairs of the

RECTOR RAISES A RUMPUS. Jersey City Pastor In Hot Water For

Censuring His Flock. New York, Nov. 7-Rev. Percival C. Pyle, rector of Grace Episcopal church, in the Greenville district of Jersey City, created a decided sensation among his parishioners on Sunday morning. In his sermon he charged that the church was deteriorating with startling rapidity. "When I came here, four years ago," he said, "the old vestry had nearly wiped out the church debt. Then a new vestry was chosen, and they have done nothing but increase the debt, until it has almost reached \$5.00. The congregation does not do its part toward sustaining the church. "Some of the men. I am told, spend their money on tobacco and in salcons instead of giving one-tenth of it to the support of the church which is saidly in need of its fithes. I have made calls throughout the parish, as my duty commands, and in some places I have had the doors stammed in my face. The rector himself is addicted to the use of the weed. The members of the church are sick and thed of the whole business. He has made trouble for us before and we do not intend to stand this sort of abuse any longer." WOODSON IS REPUBLICAN. Nearly 300 Majority Given State and

ter the theatrical profession. I dare say he will take a nom de theater." Wagg-"Yes; he's going to take the name of Derrick." Wigg-"Aspires to elevate the stage, I suppose." "I am sorry to say I have no money," complicently remarked the saedy-looking chap as the conductor came through for his fares. "can't you let me ride free, just as a joke" "I think the joke has been carried far enough," replied the conductor as he reached for the bell cord."

TALK No. 115.

All the Time.

A good many people have a dread of verring glasses all the time. If they only needed to wear them in reading, writing and sawing they would not object but they do not want to wear them an the street. In many cases it is not necessary to do so. This is superially true of those who begin wearing glasses the moment their syes show signs of weakness. Postponing the maiter until the syes become worse may make it necessary to wear glasses constantly. If wearing the glasses for hear work only is all that is needed I am glad to tell them so. If they ought to wear glasses constantly I will tell them so and tell them why. I do not want to influence any person to wear glasses a moment more than is necessary, but I will not besitate to advice constant wear when I will be to the patient's interest to do so. My exclusive attention is given to fitting glasses.
