

IT MUST STOP. State Officers Exercised About the Public Funds. Drawn From Treasury and Deposited in Local Banks.

INTEREST MAY BE PAID If It Is the State Does Not Get It.

Auditor Cole and Treasurer Grimes Discuss the Question.

It is rumored that the state administration is preparing to take steps to compel the treasurers of the boards of regents of the various educational institutions of the state to keep on deposit in the state treasury the monies used for the transaction of the business of the institutions.

It has been reported to the state treasurer and state auditor that in some instances the officials who have to do with the handling of these funds deposit them in local banks and receive remuneration in the shape of interest on daily balances.

By this method the funds are never found in the state treasury where the law contemplates that they should at all times be deposited.

It has been the custom of the various administrative boards to permit the regents and treasurers to handle the funds for the various institutions as they have deemed proper, but the frequent inquiry as to why the monies are not kept in the vaults of the state treasury has set on foot an investigation which it is said is likely to cause a revolution in the old methods of handling this business.

The constitution of the state provides that all public monies shall be kept in the state treasury, but this is not done when a treasurer for the public or charitable institutions draws several thousand dollars from the treasury and deposits in local banks this amount, then issues his personal check against the sum, he violates the law.

Members of the executive council who have been giving this matter some attention advocate the idea that all persons paid by the state treasury should be required to deposit in local banks this amount, then issue his personal check against the sum, he violates the law.

The act of drawing the money and then checking against it in local banks saves much trouble. It avoids much writing and book work with vouchers, but it is maintained, particularly by George Cole, the state auditor, that the practice is irregular and should not be permitted.

"Every employee of the state," says Mr. Cole, "should be paid direct by the state treasury. It is a well established principle that all public monies should be kept in the state treasury."

Asked if he would object to the drawing and depositing of money in local banks a violation of the law, Mr. Cole said: "I do not object to the drawing of money from the treasury and depositing it in local banks, but it is a violation of the law, Mr. Cole said."

"I have no definite knowledge of any such transaction. It has been reported to me that such action has been taken but I have never received any official notice of it. I am inclined to the opinion that the public monies should be kept in the treasury, but I do not desire to raise technical questions concerning a practice which has been in vogue for many years and by which, so far as I am informed, no serious difficulty has been misplaced. Of my own personal knowledge I do not know where a single individual has received a cent from local banks as interest on daily balances."

Governor Stanley is interested in this matter. He said: "If there is any question about the legality of these proceedings they should be stopped. I have never examined the law on this subject and I have never acted on it. Mr. Cole and Mr. Grimes are making an investigation and I will permit nothing irregular to be done until they have made their report."

Mr. Grimes is making an investigation and I will permit nothing irregular to be done until they have made their report.

ALLIES ARE VICTORIOUS

(Continued from First Page.)

Information that the viceroys, Li Hung Chang and Tien Tsin, had been appointed by the emperor, was received an edict last night appointing him viceroys at Chi Li and commanding his immediate presence at Canton.

Washington, July 17.—The news of the fall of Tien Tsin was conveyed to the Chinese minister early today. He was deeply interested but evinced little surprise at this outcome as he had looked upon the result as inevitable.

Minister Wu is remaining in practical seclusion. He is anxious to get away and take a most needed rest, but he feels that he can not do so while a crisis is on. When seen today he was surprised that any effective resistance had been made on the first day of the fighting.

The minister pondered for a time and then said: "The first essential in dealing with the present situation is to maintain calm in the midst of the present feverish excitement. To be sure, it appears as though a crisis has occurred at Tien Tsin. But many of the reports are lacking. There is nothing to show the steps taken by the viceroys. The best to maintain order and prevent bloodshed."

It is clear that Tien Tsin is cut off from Peking so that at most this can be a local affair. It is not likely that he will be able to send his troops and troops and that my position makes it impossible for me to express an opinion. But this much at least seems plain to me—that with any army would you should go also a civil officer or officers, men of the very highest ability and intelligence. This would afford an opportunity to learn whether there was any need of fighting. The purposes and the policy of each side could be made plain. This would afford an understanding of each other before a recourse to bloodshed."

Li Hung Chang's appointment. Washington, July 17.—The appointment of Li Hung Chang is regarded here as particularly significant, as the province of Chi Li is one of the most important in the empire and Tien Tsin, the capital of the province, but within its jurisdiction is the seat of the first great battle has just occurred. Li Hung Chang is known not to desire serious fighting and is regarded as a peace-loving man. His headquarters of which are at Canton.

It is deemed probably, however, that he has been persuaded to take the appointment. He is the well understood fact that he is the most able of Chinese among foreign nations.

GOV. MOUNT TENDERS TROOPS. Indianapolis, Ind., July 17.—Governor Hendricks has tendered to the United States Kinley, offering the services in China of three regiments and three batteries of Indiana for protection of Americans in China.

WANTS EXTRA SESSION. Congressman Hull Says We Must Not Shirk. Chicago, July 17.—Congressman J. A. T. Hull, of Iowa, chairman of the house committee on military affairs and author of the bill for an extra session of congress for the summer as a member of the republican national congressional committee, today declared that he believed there should be an extra session of congress for the summer. He said that the American people are strong and they are not cowardly. He said that the American people are strong and they are not cowardly.

WHY THEY OBJECTED. People Who Would Rather Not Be Taken Into the City. The arguments in the annexation case will be concluded this afternoon and the case will be submitted to the court. The principal argument being made by the attorneys representing those who do not wish to be annexed is that their property does not adjoin the city. Another argument is that some of the property is not owned by citizens of the United States.

GREEN CORN DANCE. The Pottawatomie Tribe Begins the Celebration July 18. Mayetta, Kan., July 17.—The Pottawatomie Indian green corn dance will begin Wednesday, July 18, lasting four days. The dancing ground is ten miles west of Mayetta.

DISCIPLINING PLAYERS. Detroit Baseball Club Shortstop Suspended and Other Men Fined. Chicago, July 17.—Ben Johnson, of the American League of base ball clubs, today ordered the suspension of shortstop of the Detroit nine suspended, and placed a fine on Frank Dillon, first baseman of the same club.

YOUNG'S WORK ENDS. Santa Fe Abolishes Position of Assistant Yardmaster. John Young, better known by his nickname of "Brigham," is no longer assistant yardmaster of the Santa Fe at Topeka.

THOUSANDS OF MISSIONARIES In the Valley of the Yang Tse River Probably Murdered. San Francisco, Cal., July 17.—Rev. S. I. Woodbridge, a Presbyterian missionary, who has been at Chin Kang on the Yang Tse river for the past five years, arrived on the Pacific coast from Shanghai today. He expects to return to Chin Kang when the present troubles are over. The whole city, as well as all other cities and towns along the Yang Tse, was greatly excited and on the verge of an uprising when Woodbridge left Chin Kang on June 19. In fact, a day had been fixed for the destruction of all property owned by the foreigners and the murder of the foreigners themselves.

PRINCELY OFFER. Syndicate Would Pay \$5,000,000 For Trego Interests. Shale Must First Show \$10 Per Ton in Gold. FIRST EFFORTS FAILED. Proposition Was Made to S. S. Ott Company. Deal Not Given Up in Spite of Failure.

A syndicate of San Francisco and Los Angeles capitalists, represented by P. G. Gay, late general manager of the Santa Fe, has offered to buy a half interest in the Trego and Ellis county "gold" lands owned by the S. S. Ott and Charles Holliday syndicates. The proposition governing the sale is that it should show the shale contains 150 gold to the ton.

The Ott syndicate owns 150,000 acres of the land. The amount offered for a half interest in the property is \$5,000,000. The Ott syndicate owns 150,000 acres. No sum has yet been agreed upon for a half interest in this land.

The agreement in reference to the land owned by the Ott syndicate was made some time ago, and a date early this month set as the limit for showing the \$10 of gold per ton. Mr. W. A. L. Thompson, of the Thompson Hardware company of this city, was named as the trustee to receive the first payment of \$500,000. This payment was to have been \$500,000.

The syndicate people were unable, however, to show that much gold per ton, with the process now in use at the mill in Denver, within the time named, and as a result the money was not paid. Negotiations are still on, however, and as soon as \$10 per ton of gold is shown in the shale, the deal can be consummated.

The men represented by Mr. Gay are Messrs. Robinson, Elliott and Wilde. Mr. Gay says they control unlimited resources, and stand ready to carry out their part of the agreement as soon as the syndicate people carry out the other part.

Mr. Charles K. Holliday, the head of the Holliday syndicate, now in Denver looking after the tests being made with the shale. Those interested in the shale are the Messrs. Robinson, Elliott and Wilde. Mr. Gay says they control unlimited resources, and stand ready to carry out their part of the agreement as soon as the syndicate people carry out the other part.

Mr. Charles K. Holliday, the head of the Holliday syndicate, now in Denver looking after the tests being made with the shale. Those interested in the shale are the Messrs. Robinson, Elliott and Wilde. Mr. Gay says they control unlimited resources, and stand ready to carry out their part of the agreement as soon as the syndicate people carry out the other part.
