CHINESE WIN A POINT In Their Contest With Frisco Board of Health.

San Francisco, June 6.—Dr. O'Brien of the board of health, reports that no new cases of plague have been reported within the past 24 hours.

The removal of Chinese from the quarantined districts to Mission Rock will not be undertaken until the injunction proceedings now pending in the United States court have been decided.

Judge Morrow of the United States circuit court, on the complaint made in the name of the Jew Ho, has granted an order temporarily restraining the board of health and chief of police from prohibiting the surgeons employed by the Chinese to care for their sick and to examine their dead entering the quarantine lines.

The health board was also ordered to appear in court on Thursday with its witnesses, to show cause why it should not be permanently enjoined from interfering with the physicians employed by the Chinese.

The board must also show cause for the denial of the application of the Chinese for an order commanding them either to provide for the sustenance of those imprisoned by the quarantine or to grant the quarantined their liberty.

SANTA FE ON TOP. Chairman Walker and President Ripley Declare Prosperity Will Continue.

New York, June 6.—After the adjournment of the Santa Fe directors' meeting Tuesday, Chairman Aldace E. Walker and President E. P. Ripley spoke encouragingly of the Atchison's prospects for maintaining its present level of earnings.

"It is now assured that Kansas will raise a splendid wheat crop this year. It is estimated variously between 35 million and 55 million bushels. At any rate it will be the largest since 1892. Nothing more can affect its quantity, although its quality may be injured.

With these prospects we could afford to lose considerable of the merchandise traffic and earnings would not be materially affected. As a matter of fact, the heavy increases in Atchison earnings this year have been made with a short wheat crop in Kansas and a short cotton crop, two classes of freight which many people think the Atchison is mainly dependent upon."

Replying to a question as to how far the company had availed itself of the provisions of the reorganization plan for the issue of bonds for improvements, it was said:

"The company has earned about \$12,000,000 improvement bonds, and the amount issued has been about \$8,000,000. We have spent as much out of current earnings for improvements as from the proceeds of bonds."

SCHOOL PLANS Discussed by Superintendent of Philippine Education.

Chicago, June 6.—Dr. Fred W. Atkinson, recently appointed superintendent of public instruction in the Philippines, is in Chicago. He was principal of the high schools of Springfield, Ohio, for several years and was appointed to his present post on the recommendation of the president of Harvard university.

The new Philippine commission will be in direct control of his movements, but owing to his recognized ability in the education field, he will be given all the latitude possible in order to bring about the reforms sought by the administration.

"The education problem in the Philippines," said Dr. Atkinson at the Auditorium last night, "is most complex. I would not care to outline a plan until I have arrived on the ground and studied the situation. So far as I have been able to learn the people of the islands are apt and eager to learn but I am convinced that some special course of study will have to be introduced. From advice which I have received from Manila, I learn that Father McKinnon, a former chaplain in the United States army, has established several schools and \$40,000 has been spent in the purchase of text books.

As nearly as can learn, 5,000 Filipino children are attending schools in Manila alone. I believe that our policy should be aggressive and to the same time educational to meet the conditions existing in the islands. American history must be placed upon the history of the Philippines so that the natives may have a clear understanding of the objects of our policy in the islands."

Dr. Atkinson will leave for San Francisco today and expects to remain in the Philippines for several weeks at least.

Clothes That Cost

The least to buy are not always the most economical to purchase. For the last eight months the Imperial has been trying to find a man who really and truly believes that he ever bought a bargain "as advertised" in a clothing store.

Dozens of People

Tell us almost every day how they read the honest (?) advertisements about 75c underwear for 48c and are shown regular 50c goods marked in plain figures 50c. Fabulous stories about \$15, \$16.50 and \$18, choice tomorrow \$9.97, and are shown suits that have been on sale for the past two months at \$10, marked in the window \$10 and never sold for more.

It's the Customers

Whom that kind of nonsensical advertising does not appeal to that the Imperial gets for patrons and really it's surprising to note how many people prefer to buy 50c Neckwear for 50c—\$1 Shirt for a dollar—\$3 Hats for three dollars and \$10 Suits for ten dollars, and—

TRY TO DODGE TAXES.

W. W. Astor and Bradley Martin in the Same Fix. New York, June 6.—Bradley Martin and William Waldorf Astor, formerly two of New York city's wealthiest residents, are seeking to be relieved of taxes to this extent, but say they are no longer a resident of this city and has not been for about two years.

Mr. Astor has not only given up his residence here, but also has renounced his citizenship and is now a citizen of England. Mr. Martin has not yet gone to this extent, but says he is no longer a resident of this city and has not been for about two years.

Mr. Astor's property has been assessed at \$200,000, and that of Mr. Martin at \$200,000. Dependent upon the result of the assessment in the case of Mr. Martin are two other cases, that of his wife, Cornelia S. Martin, who has been assessed at \$200,000, and that of Mrs. Elizabeth Sherman at \$250,000.

Discussion was had before Judge Andrews in the supreme court in the certiorari proceedings to review the assessment of Mr. Martin's personal property. Judge Andrews reserved his decision.

William Waldorf Astor certiorari proceedings to review the action of the commissioners in assessing his personal property in this city for 1899 for the purpose of taxation at \$2,000,000 has been set for hearing next Tuesday. Mr. Astor argues that when the assessment was made he had no personal property here subject to the tax. He says he has not been a resident of this city since 1895.

He protested against the imposition of the tax in 1899, and since then has become a subject of the queen.

Corporation Counsel Whalen, for the commissioners, holds that although Mr. Astor gave up his residence here in 1895, he was taxed regularly every year thereafter, but made no protest until last year.
