URGED BY GOVERNOR.

Gives Out Statement Concerning Semi-Centennial.

Governor Stanley urges the people of Kansas to united effort to make the semi-centennial exposition a success. The governor had the following statement prepared for publication: "It will require a united effort upon the part of the people of all sections to interest the different counties and cities in the enterprise. It will need general support to give it something more than a local significance, to get the necessary appropriation from the legislature, and it will need the earnest and enthusiastic co-operation of our senators and members of congress, backed by the hearty indorsement of their constituents, to secure a reasonable appropriation from congress. Before we can get an appropriation from congress we must have a reasonable appropriation from our own legislature. Before we can get one from our own legislature, we must have generous contributions from our towns and cities, and especially generous ones from the localities entering into competition for this exposition, if there is to be any competition, and before we can ask the different localities to enter the competition or give their donations, we must have a reasonable subscription of stock, and the amount fixed in the charter, \$50,000, is not unreasonable. This subscription, however, will not be secured by promiscuous talk, but can only be secured by close organization and reasonable effort. "The board of directors ought to be called together at an early day, perfect their organization, and the directors in the several congressional districts or other suitable persons selected, should thoroughly organize their district in an effort to secure stock, and give the movement definite shape and character. "The very first step in this enterprise should be the enlistment of the press of

the state, and the organization should be so absolutely devoid of partisan or local bias that the newspapers may be induced to take hold of it without regard to their location or their political bias, and give the movement an enthusiastic start. If the newspapers can be induced to take the matter up and give it earnest support, and the directors in the several congressional districts can be induced to organize their several districts and secure the necessary subscription of stock, the success of the enterprise will be assured. All of this preliminary work ought to be absolutely gratuitous. Those who are intrusted with putting the movement on its feet ought to be generous enough to do it without compensation. As the work progresses, it will be necessary, of course, to have paid employes, but payment for services ought not to be thought of until the movement is well underway."

BAKER IS PLEASED.

Senator Says He Will Easily Be Re-elected. United States Senator Lucien Baker has given out the following statement of his views and strength in the senatorial contest: "I have not been in the habit of conducting any campaign, or in fact any matter of business in which I am interested, with a brass band, and through all my senatorial career I have probably find that the things that I have done or have accomplished, have generally become known through the newspapers long after they were consummated. "I am greatly pleased with the general party outlook in Kansas this year, and the magnitude of our success at the approaching election will astonish a great many politicians who, by habit, are disposed to adopt a conservative view. My correspondence, which is

from the old veterans, points to the inevitable conclusion that President McKinley and Governor Stanley and the remainder of the Republican ticket will carry the state by majorities running well up into the thousands. "You may say that so far as I am personally concerned I am more than satisfied. The result of legislative nominations in the past two months has verified careful estimates made as long as five months ago. While I have lost in two or three districts upon which I relied, I have gained in five that were not originally counted on, and I think you will discover when the legislature meets that I will have a good, substantial working majority of the Republican members. "This is all I care to say excepting that my friends have been earnestly requested to work for the election of the party nominees in their respective districts without regard to their senatorial preferences. The success of our party generally, is above and beyond all of my personal ambitions."

THREE WERE KILLED.

Fireworks Factory Explosion in Philadelphia Creates Havoc. Philadelphia, June 18.—Three men were killed and fourteen persons were injured, none fatally, Sunday, by an explosion of gunpowder and dynamite used in the manufacture of fireworks. The dead are: PENTAGON DEJANNO. FRANCISCO GIANGIULIA. CARMINO MARINO. The explosion occurred at the dwelling of Giangiulia, on Schell street. The third floor was utilized for manufacturing carbon crackers and other fireworks. It is not known just how the accident occurred, but it is believed that the three men who were killed were smoking in the room containing

the explosives and that sparks from one of their pipes fell into the powder or dynamite. The house was completely wrecked and every other dwelling in the block was damaged more or less seriously.

SUPERINTENDENTS HERE.

Work of Stringing New Santa Fe Time Card Commenced. The division superintendents of the Santa Fe proper are in Topeka today arranging the new time card which is to go into effect July 1. The work of stringing the new card will probably not be completed until the end of the week.

STARVING INDIANS.

Great Distress Reported From Arizona Reservations. Chicago, June 18.—A special to the Times-Herald from Phoenix, Ariz., says: Eight thousand Pima Indians in the Gila reservation, thirty miles from Phoenix, are destitute, and a like number of Papagoes are on the verge of starvation. S. H. McCowan, superintendent of the Phoenix Indian industrial school, has been directed by the interior department to make an examination into the condition of the Pimas. He declares that the sole salvation of the Indians is in federal appropriation for the construction of a storage reservoir. "An appropriation of \$33,000," said Mr. McCowan, "has been made for the relief of the destitute Pimas. Rations will be distributed before the end of the summer, but the appropriation will not preclude a recurrence of the famine."

ROBERTS TO END WAR

By Cutting Off Communications With Delagoa Bay.

New York, June 18.—A dispatch to the Tribune from London says: The opinion prevails at Cape Town that the Delagoa Bay communications will be cut off speedily and the war be brought to a close. There have been many untrustworthy rumors about secret expeditions towards Komatiport but there has been no definite information about any movement of this kind in progress through Swaziland. Lord Roberts' own plan of campaign seems to involve complete separation of the Free State and the Transvaal forces by the occupation of the railway between Johannesburg and Laings Nek, which will probably be captured this week. Press dispatches indicate that no advance has been made from Volksrust towards Ermelo, and that there has been no change in the situation. The Free State General Ruddle's division is skirmishing with the commandoes, but only insignificant outpost affairs are reported with some artillery firing near Ficksburg. The ministerial crisis at Cape Town is believed to be at an end, and Sir John Gordon Sprigg is reported to have received assurances from Mr. Schreiner's group which will enable him to enter office.

TO VISIT YELLOWSTONE.

Ex-President Harrison and Party Leave For Western Mountains.

Indianapolis, Ind., June 18.—At 12:05 this morning ex-President Harrison, wife and daughter, Miss Stroude of New York city, and the Rev. Dr. M. L. Haines and Dr. Dorsey, of this city, left for a trip through Yellowstone park. They will go by way of Minneapolis stopping in that city to visit relatives. Returning they will come by the Black Hills and will arrive home July 2.

International Mining Congress.

Milwaukee, Wis., June 18.—The International Mining congress begins a five days' convention tomorrow. Between 1,000 and 1,500 delegates are expected, coming from all parts of the union, Canada and Mexico. A large collection of mineral displays is being installed in the convention hall. The chief work of the convention will be the formation of a permanent organization instead of the present unorganized body. A Big Shot. Cheyenne, Wyo., June 18.—The blowing off of 60 feet of the top of a large granite butte near the Cushing railroad camps on the Sherman Hill cut off grade occurred without accident. The shot was composed of 10,000 pounds of black powder. Four thousand cubic yards of hard granite were blown off, shattered and rolled down into Dale creek valley below. At least one more large shot will be needed to complete the work. About \$3,000 expense was saved by the shot. Gold For England. New York, June 18.—It is announced that Heidebach, Ickelheimer & Co., will ship \$2,000,000 gold to England this week.

Transportation Companies Combine.

Seattle, Wash., June 18.—A strong combination of the transportation companies doing business in Alaska and the Northwest Territory has been formed. The White Pass and Yukon railway company has practically absorbed the Canadian Development company and the John Irving Navigation company. The management of the three big companies has been brought under one control, which will be from general headquarters at Skagway.

Won the Emperor's Cup.

Heligoland, June 18.—The annual yacht race from Dover to Heligoland for the German emperor's cup was started from the former place Sunday with ten yachts competing, and was won by the Flaua, a cutter of eighty tons owned by Mr. H. M. Rait. For the best of feed and hay, at lowest prices, try Geo. Wheaton, at 233 Kansas avenue. Tel. 483. The Only High Grade Baking Powder Offered at a Moderate Price. CALUMET Baking Powder. NOT MADE BY THE TRUST. NONE SO GOOD.
