## AN IDEAL CLIMATE.

The first white man to set foot on Utah soil, Father Silvestre Velez de Escalante, who reached the GREAT SALT LAKE on the 23rd day of Sept., 1776, wrote in his diary: "Here the climate is so delicious, the air so balmy, that it is a pleasure to breathe by day and by night." The climate of Utah is one of the richest endowments of nature. On the shores of the Great miles therefrom in every directionthe climate of climates is found. To enable persons to participate in these scenic and climatic attractions, and to reach the famous HEALTH, BATH-ING AND PLEASURE RESORTS of Utah, the UNION PACIFIC has made a rate to OGDEN and SALT LAKE CITY of one fare for the round trip, plus \$2.00, from Missouri River, to be in effect June 21st, July 7th to 10th inclusive, July 18th, and Aug. 2d. Two Clubs Cling to the Top in the National League.

Philadelphia and Brooklyn Cannot Be Shaken Off.

BOSTON CLIMBING UP.

St. Louis is the Disappointment of the Season.

But the Club Has Had the Worst of Luck Lately.

Philadelphia and Brooklyn have shown thus far that, in playing strength they are superior to the other six clubs of the National League. Of the two, Philadelphia is entitled to a trifle more credit, not because of any particular display of better baseball strategy, but for the reason that the team, crippled by the absence of its second baseman, one of the best of the National League players, has fought pluckily against odds and held its own.

Of the other league nines Boston certainly deserves the most praise. At the beginning of the year the former chamolons played in a dull, listless manner hat speedily put them at the bottom and kept them there for more than three weeks. With the advent of hot weather and a return to the little 2xi patch that answers for a ball park in Boston, the team representing the Hub buckled down to hard work, and, afded by a little luck, pushed its way steadily toward the top until it is now in third place.

toward the top until it is now in third place.

The most disappointing of all the league nines is St Louis. The team, however, has a fairly good excuse for its peor position in the race, owing to the injuries received, not only by one, but by four of the best men enrolled. Constituted of players who are not only individually strong, but who should play good ball together, the St. Louis individually strong, but who should play good ball together, the St. Louis individually strong, but who should play good ball together, the St. Louis individually strong, but who should play good ball together, the St. Louis has a chance to finish at least third in the race and appeared to have a fair chance to fight for first place with Brooklyn. Philadelphia or any other nine that proved itself to be of class. St. Louis has a chance to get back to the top, but it will take the most persistent effort, and no small share of good luck, in the face of the excellent work being done by the other nines of the league.

being done by the other nines of the league.

For at least 36 hours it appeared as if the New York nine had approached something like a consistent standard of work. With Smith in right field and three pitchers of at least average ability the team played well against St. Louis and even better against Phihadelphia.

Then on its return home it played listlessly against Boston and lost three games, not by indifferent field work, but by absolutely useless work with the bat. Possibly the New York air had a bracing effect upon the floston pitchers. In any event they fooled the New York patients so effectually that there were only six hits made by New York, which had any bearing upon the score in the three games played.

But when Harness & Brossman failed to put in the entry of Imp it did create some surprise, in view of the fact that trainer Brossman was so anxious to get into the special race between Ethelbert and Jean Beraud. Brossman later stated that he had a good reason for not entering Imp. The mare is in a race on next Saturday where she can run with 113 pounds, and Brossman thinks she will win this race sure. If she was to be entered in the special race it would prevent her from running on Saturday, as she would need a rest.

The Twine Plant at the Penitentiary Closed Down.

There Is Now \$30,000 Worth of Goods Stacked Away.

CASH SALES WANTED.

Farmers Could Buy Trust Twine on Credit.

Said Not to Have Been as Good an Article Either.

Leavenworth, June 28 .- The penitentiary twine plant has closed down and

will make no more twine. There are two reasons for closing the Chicago, June 28.—The dead body of plant, and the main one is that a large amount of twine remains unsold. There of his brother Samuel, were found on is about 300,000 pounds, or nearly \$30, the rallway tracks near Harvey, Ill., to- 000 worth, of twine stacked up in the warerooms. The second reason is that had been crushed with some sharp in-strument. All his valuables had been taken. Samuel had been struck in the back of the head, but will recover. All wheat binding twine made from now on has to be carried over until next

now on has to be carried over until next season, and should the price of raw material decrease the state would suffer a loss by buying at this time.

The making of twine at the penitentiary has proved beneficial to the farmers of Kansas, but so far it has not been very profitable to the state. Kansa wheat raisers have been able to get their twine made from two to five cents a pound cheaper than the twine trust intended to sell it for. The trust twine finally came down to penitentiary prices, and cuts were made on both sides.

A strong fight was made against the

A strong fight was made against the penitentiary twine on the part of the twine trust. All kinds of untruthful stories were told about the size of the balls, shortage in length of twine to the pound and that it clogged the machinery of binders. These stories tended to retard the sale. The penitentiary twine had to be paid for when ordered and as many implement dealers sold on credit this also retarded the sale of the prison twine.

So far as the sale of twine in Kansas was concerned it turned out fairly well. The officials can not sell large quantities, as they expected, in lowa, Nebraska and the Dakotas, owing to the fallure of the wheat crop in the states north of here. There is a good wheat crop in southern Nebraska and much twine has been shipped into this territory, but none has gone to the Northwest wheat growing country. A strong fight was made against the

### THE CONVICTS' FOURTH. Prison Minstrels Will Perform and a Special Dinner Will Be Served

Leavenworth, Kan., June 28.—The convicts in the Kansas\* penitentiary will have a jolly time on the Fourth of Jully even if they cannot shoot off fire-crackers. The program was prepared yesterday by Warden Tomilisson, Deputy Warden Thompson and Captain McFarland. Breakfast will be served late, at a "fashionable hour," as they term it, and the 1,020 convicts will sit down to hot rolls with butter, bacon and coffee with cream and sugar. Dinner will be served about 3 o'clock in the afternoon and the bill of fare will be Robst ham, brown potatoes, new cream potatoes, beets, green peas, mince picteam jumbles, bananas, oranges and lemonade. This will be the last meal of the day and each prisoner will be permitted to take an extra pie, and several bananas and oranges to eat while in his cell listening to concert music in the evening. A TRIP TO PARIS. Editor Howe Tells How Expensive it Is For Two.

Is For Two.

[From the Atchison Globe.]

Answer to a correspondent: A round trip tleket from Atchison to Paris costs from \$150 to \$600. You can go from Atchison to Paris and return very comfortably for \$150, which would mean second class on a fast ship: Second class on a steamship is very comfortable; almost as comfortable as first class. Two Atchison men recently spent fifteen days in Paris, and did not stint themselves particularly. They employed a guide, and rede a good deal in cabs, in order to get about quickly. During the fifteen days they spent \$200 between them. A trip to Paris lasting five weeks, which would mean fifteen days at the exposition, would cost from \$300 up.
