EMBREE SPEAKS OUT.

The Methodist Pastor Registers a Strong Protest

AGAINST THINGS THAT ARE WRONG.

His Sermon Yesterday a Departure From the Usual Subjects Heard in Churches.

Rev. Dr. Embree of the First Methodist church, yesterday morning preached a sermon from the text, "How old art thou?" which has been much talked about today. He said: "Life is not measured by the number of years a man lives, but by what he accomplishes while he lives. Some men have accomplished more in a year for the good of humanity than others would have if they had lived for centuries."

"Martin Luther did more in a year than other men have done in a life time, and character is the measure of life and not years."

"The life of a nation is also measured by the character of its public men and officials, but there are elements in our national life which are injurious; see what the demoralization of a single metal has caused, it has shocked the entire world and has brought on a financial crisis which has hardly ever been surpassed."

"As long as political parties have the same old political rivalries and believe that the virtues belong to the spoils, so long will our national life be crippled."

"While I do not believe in mob violence, yet I have heard of mobs that I would not get in the way of preventing from carrying out their purpose. We can expect mob violence as long as the people elevate to the bench, judges not worthy of public confidence."

"Our public men should be such men as we could point our sons to with pride, but where is there a governor that we can point to with much pride?"

"While I am not a Populist or an anarchist yet there are laws which are oppressive, and which should be made to protect all instead of a few. What wonder is it that a railroad should go into the hands of a receiver where its officials are paid \$30,000 and the employees are paid barely enough to live on?"

"We must recognize these perils to social life and face them like honest men."

LOCAL MENTION.

Most of the county offices were closed all day.

The January term of the district court will convene one week from tomorrow.

The work of prayer will be observed in the city churches, beginning on Wednesday evening.

"REBEKAH" SUNG.

A Pleasant Musical Entertainment at the First Presbyterian Church.

"Rebekah" was sung at the First Presbyterian church last evening before a large congregation. The solo and chorus singing was excellent, and service throughout was one of the pleasantest of the "old year." The solo work was done by Mrs. George W. Parkhurst, Mrs. Frank West, Mr. H. N. Hinckley and Mr. E. J. Shiner.

The church was prettily decorated with green and a banner suspended above the pulpit upon which was written, "A Prosperous and Happy Year."

A PROSPECTIVE FIGHT

The Attempt to Decapitate Street Commissioner Hopkins

IS RESISTED BY THAT OFFICIAL.

Some of the Facts Connected With the War Made on Mr. Hopkins and the Reason of It.

Street Commissioner Albert Hopkins will lose his official head at the meeting of the city council tonight if the resolution which one of the members says he is going to introduce passes.

This resolution will be in substance, "Resolved, that Albert Hopkins be notified that his services as street commissioner are hereby dispensed with." The member who says he has canvassed the subject thoroughly says his resolution will pass by the following vote: Aye—Troutman, Stevens, Edlinger, Fellows and Burgess. No—Holman, Earnest, Fulton and Griggs. The member says that Mayor Harrison would not veto such a resolution.

There is no doubt but that Mr. Hopkins intended to resign Saturday. He himself admits it. He was aware of the hostility of several councilmen, and he began hunting for another job. He made arrangements for the position of night depot-master at the Santa Fe depot at \$75 a month, which he secured with the assistance of Mayor Harrison. Later in the day however he had a consultation with Albert Earnest, and others of his friends in the council, who advised him to stay. They said that he was contracted for a term of two years, and that the only way he could lose his job was by impeachment on a definite charge, such as incompetency, and there was no danger of that. Then Mr. Hopkins, who had previously given Mayor Harrison to understand that he would resign, notified him of his change of purpose.

The member of the city council who told a JOURNAL man that he would introduce the resolution to dispense with the services of Hopkins, said that if the resolution did not pass he would bring other forces to bear that would "Wipe only need six councilmen and the mayor to get Hopkins out," he said. "I know the mayor would prefer somebody else in the place, and I only know of four councilmen who would stand by Hopkins in the council. They are Holman, Earnest, Fulton and Griggs."

Councilman John Troutman, whose term in the council from the First ward expires next spring, aspires to Hopkins's place, and he has more than one member agreeing to support him. Dave Navar and Foreman Eastman would also like the place.

The charges against Hopkins are not definitely stated but the objection seems to be largely on the ground that "Earnest has too much influence with him," as one of the members put it. It is said that when Earnest makes any request from the street force it is always complied with, and that when the other councilmen make a similar request sometimes it is granted and sometimes it is not. The same member expressed the opinion that there were not a few Republicans more "deserving" of the place than the present incumbent, whom they charge has lived in Topeka a comparatively short time, pays no taxes and never did the party any good.

Mr. Hopkins says he has limited to do the best work possible with a few men, and that if he loses his job it will be for political reasons and not through any negligence or incompetency. The records of this department show that the work has been well done and that the expenses of the department have been reduced in the past six months from \$8,500 monthly to less than \$2,000, and last month they were only \$700. Mr. Hopkins said to a JOURNAL reporter today that after consulting with his bondsmen and friends in the council, he had decided to hold his job and fight any charges that may be brought against him rather than leave the office under a cloud.

NOT A PRIZE FIGHT.

Little Danger That There Will Be Any "Bloody Rounds" Tonight.

The sporting men who go to the athletic exhibition at Hamilton hall tonight expecting a genuine prize fight will be disappointed, according to the statements of Chief of Police Lindsey and Sheriff Wilkerson.

Chief Lindsey said this morning: "It has been represented to me that it is not to be a prize fight but simply a glove contest. I had a talk with Sheriff Wilkerson about the matter and if it is a prize fight he won't stop it. I propose to be present with a squad of police and will be ready for business."

Sheriff Wilkerson said: "If it is a prize fight I propose to stop it. It has been represented to me by the manager of both O'Keefe and Bradshaw that it is not a prize fight but a fight for points with five ounce gloves. I will be present, however, and if it turns out that it is a fight for blood I will stop the fight."

These policemen will be asked to explain their visits to the joint when the keeper of the joint is tried.

CHARGED WITH BURGLARY.

Irving Thompson Arrested For Breaking Into a Home.

Irving Thompson, a young shoemaker who has run a shop near the Santa Fe depot, was arrested by the police today and turned over to the state, charged with burglary. It is charged that Thompson broke into the house of N. Paimlund at 814 Tyler street and stole a clock and several blankets, in all valued at \$17, from Mrs. Nellie Motion.

E. E. Shuman was also arrested for complicity in the same theft but he was able to satisfy Chief Lindsey that he was not involved in it, and he was discharged.

A WRONG IMPRESSION.

Says Mr. Bredenthal is Given of His Views on Office Holding.

To the Editor of the State Journal. DEAR SIR—In your issue of Friday you publish an interview with the writer in which you convey a wrong impression as to my views in regard to the duty of the governor in regard to removing appointees. A change of one word will change the entire interview, and make it appear as I intended and not as you represent me. You have me say that "The governor as the head of the state government, is responsible to the people for the offices, and although I have been confirmed by the senate, I recognize that it is the governor's right to remove me whenever I am not conducting my department satisfactorily to him."

Instead of the word "him" the interview should read "the people." In other words the position I take is that the governor is the representative and the servant of the people, and upon him devolves the duty of seeing that the different departments are administered in a satisfactory manner to the whole people and whenever he finds that an appointee of his is not conducting the affairs of his office in a proper and satisfactory manner to the people it becomes the duty of the governor to remove such officer and fill the vacancy with some one calculated to properly conduct the office. Believing that you did not intentionally misquote me, I ask that you make this correction. Very truly yours,

JOHN W. BREDENTHAL.

THEY WILL COME.

A NEW OFFICE CREATED.

"City Electrician" Made Out of the Electric Light Superintendent.

The ways and means committee of the city council held a meeting Saturday night in the council chamber. There were present Councilmen Holman, Stevens, Earnest, Fellows, Fulton and Mayor Harrison.

The city attorney was instructed to prepare an ordinance giving the superintendent of the electric light plant the additional title and duty of "city electrician," without an increase of salary.

The object of this is to assign to some responsible and capable person the supervision of all the electric wires in the city, which often come in conflict. A few days ago a light wire across Mr. Holman's telephone wire, and if any one had taken hold of the telephone then the stock would have meant serious injury. It will be the duty of the city electrician to see that the wires are properly laid and properly kept.

COURT HOUSE BIDS.

They Will Be Tabulated by the Board Tomorrow.

THE COMMISSIONERS IN DOUBT

As to What They Will Do—Most of the Bids Being Beyond the Limits of the Bond Issue.

The board of county commissioners meet again tomorrow, and at that meeting all of the bids submitted on Saturday for the erection of the proposed court house will be considered and tabulated in readiness for the awards which will probably be made this week.

One hundred and fifty thousand dollars was voted for the erection of the court house. On the blue prints of the proposed new building the total cost including the purchase of additional land, was placed at \$125,000. This is the cause of several mistakes appearing in the papers, recently, on this point. The original bonds call for \$100,000.

The board has issued only \$100,000 in bonds, and hope that will be sufficient, as they expect to sell the old court house site for enough to pay for the new building, with the \$100,000 of bonds already printed.

On Thursday the bonds will be offered for sale at the county clerk's office, and while no offers have been received for them yet it is expected that they can be disposed of in time so as not to delay the construction of the building.

Captain J. Lee Knight speaking of the bids said: "We did not have time on Saturday even to look over the bids a second time, and there are a great many details which will have to be discussed before any contracts can be awarded. I do not know just when the awards will be made, but presume it will be several days at least."

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is severely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Cases out of ten are cured by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. Crowley & Co., Toledo, O. Sold by druggists, 75c.
