**A Farm Hand Near Wichita Shot by a Man in Hiding.**  
**Emporia Normal Students Are Preparing to Play Golf.**

**OTHER STATE NEWS.**

**An Abilene Farmer Killed by a Fall from a Hay Rake.**

**WICHITA, Oct. 23.**—A queer attempt at murder, reported from Kechi township, wherein a man named John Herman, employed by Scoville, the milk man, is the victim of a murderous assault and may die from a wound received at the hands of an unknown would-be assassin.

It appears that Herman had undressed and gone to bed. Late in the night he became thirsty and got up and went out toward a water tank at the side of the house. He was barefooted and had on only his night shirt.

As he neared the tank his foot slipped and he lurched forward, and in doing so he noticed a man standing by the side of the road. This stranger quickly raised a pistol and fired a couple of shots, one of which took effect in the body of the hired man. He sank to the ground and the stranger fled.

The wounded man dragged himself to the house, and was taken in by Mr. Scoville, who then went out with a light and found that whoever had fired the shot had been there on horseback. No idea as to why the assault was made is advanced and Herman may die of his wound. The only theory advanced is that some one had stopped for a drink and seeing a white-rubbed figure advancing toward him became frightened and fired the shot into the man.

**WANT FUSION ENJOINED.**  
**Wyandotte Populists Seek to Prevent Coalition With the Democrats.**  
**KANSAS CITY, Oct. 23.**—Desist! Populists in Wyandotte county have asked for a novel injunction. They want the courts to restrain the Populist leaders from fusion with the Democrats. Fusion on the county ticket has been talked of for some time and the party leaders were about ready to get together. The suit for an injunction was brought in the court of common pleas by Attorney J. A. Smith and thirty-three "middle of the road" Populists. The petition states that the Populists nominated a county ticket with the understanding there should be no fusion and that such a movement would be tantamount to an irreparable damage to the party.

**NORMALITIES TO PLAY GOLF.**  
**The Students of the State Normal to Play Golf on Wednesday.**  
**EMPORIA, Oct. 23.**—W. R. Erwin has received the golf supplies for the normal athletes. Golf is an old Scotch game, which is being introduced in this country. The field for the game occupies about three miles in length and the points are made by knocking balls into holes about 100 yards apart.

The side that puts a ball in the hole in the least number of strokes makes a score. The exercise is said to be healthy but not excessive and the game can be played by children or elderly people.

**Fast Horses to Beat Knappton.**  
**EMPORIA, Oct. 23.**—A splendid programme of races, in which some very fast horses will go, is being prepared for the matinee which will occur at the Emporia mile track on Wednesday, Thursday and Friday, Oct. 31, Nov. 1 and 2. Among the noted horses that will go in the different races will be Walter E, with a mark of 2:10; Riley Medium, 2:10 1/2; Susie G, 2:11 1/2; Free Coinage, 2:11 1/2; and Sunrise Prince, 2:13 1/2.

**Military Prisoner Suffered.**  
**LEAVENWORTH, Oct. 23.**—Military Prisoner Nicholas Lygi at Ft. Leavenworth was killed while working in the stone quarry. He was digging under the bank where it was intended to be cut and smothered him before he could be rescued. Lygi has been in the military prison for desertion since December, 1893, and had two more years to serve on his sentence.

**Stole the Money for Fun.**  
**EMPORIA, Oct. 23.**—Joe Haas was brought back from Cottonwood Falls Saturday night by Sheriff Evans. He says he took the money from his brother-in-law Kuhn "for fun." The joke isn't so funny now. Haas had hid the money, \$165, by cutting a hole in the sideboards of his wagon, placing the cash inside and then nailing a piece over the hole.

**Accidentally Shot Himself.**  
**ATCHISON, Oct. 23.**—Frank Wilcox, the Central Branch & Wyandotte station agent at Goffa, accidentally shot himself Monday morning. There was a loaded revolver in the case, and when Wilcox attempted to open it, the revolver caught on something and was discharged. The ball struck his arm, and it may have to be amputated.

**Fell and Broke His Neck.**  
**WOODBINE, Oct. 23.**—Frank Krause, aged 70, residing with his son, Charles Krause, was killed at his farm while raking hay. It is supposed that he fell from the rake and broke his neck, but the accident was seen by no one and the horse went to the son, who was working in the same field. On going to his father the son found him dead.

**HE WAS REGISTERED.**

**Police Commissioner Yount Vouches for the Age of a Republican.**  
Sanitary Officer A. Barton was so elated over his discharge in the police court, where he answered to the charge of disturbing the peace of Deputy Commissioner of Elections Frank L. Whitaker, that he gathered up a party of colored Republicans at once and marched them up to the commissioner's office to be registered.

There was no challenge until the last one of the crowd was reached. He was a youthful looking colored man named Will Perry, and he told a straight story, except that he said he thought he was born in 1878. He was refused registration until he could secure evidence on his age, and he hunted up Police Commissioner Yount, who went with him to the commissioner's office.

"Let this boy register," said Mr. Yount. "He won't vote with us, but he'll vote. I have known him since he was a little boy."

Perry was registered, and Sanitary Officer Barton went away happy.

**WANT ELIHU YALE'S MONEY**

**A Family That Believe They Are Heirs to His Property.**  
**NEW HAVEN, Conn., Oct. 23.**—An old gentleman and a young lady have been searching for several days for records of the probate court in this district for evidence of the property left by Elihu Yale, the founder of Yale university, to which they had an idea that they were the legal heirs. The searchers were named Yale and claimed to be descendants of the founder of the university. They come from Wallingford, Conn.

It is said that a commercial traveler, while in Wisconsin became acquainted with a family named Yale in that state, and informed that family that Elihu Yale died possessed of about \$100,000, 000 which was held by Yale university in trust for the heirs, who had never appeared to claim the property.

The Wisconsin family have relatives in Wallingford, and the western Yales asked the eastern Yales to make an investigation. The two who examined the records were very careful to conceal their names. The couple have given up the search, satisfied that the story was untrue. They had also seen Prof. Dexter, of Yale, and he satisfied them that they were on a wild goose chase.

"Shall we check immigration? Or shall it go on unrestricted? Whether we check it or not Dr. Price's will still rank first of all the baking powders."

**LARGER MEXICAN TRADE.**

**The Wilson Bill has Given a Great Stimulus to Exporting.**  
**WASHINGTON, Oct. 23.**—In a report to the department of state, the records of Consul German at Matamoros says the effect of the new American tariff is being felt in increased trade with northern Mexico. Large exportations of dressed hides, mules, horses, etc., has been added to the usual exports heretofore made, and the prospects of a large spring business are being cherished.

Under the operation of the McKinley act all live stock ceased to be exported, the tariff on horses and mules being \$30 each, from two to three times the selling value of the animals in Mexico. This amounted to a total prohibition and until Sept. 1 a live animal of any kind had been exported. Large exportations of dressed hides and leather show another feature that shares the benefit of the Wilson schedule.

**DOESN'T THINK IT IS WAR.**

**The Guatemala Minister Believes There is No Danger of an Armed State.**  
**WASHINGTON, Oct. 23.**—Minister Arriaga, the Guatemalan minister, does not credit the dispatches from Oaxaca, Mexico, that war is impending between Mexico and Guatemala, and that the latter country has sent a large force of troops to meet several thousand Mexican troops at Acapulco and Tehuantepec.

Senator Arriaga says he would be quickly advised by his government if any such warlike step had been taken and he has received nothing to show that such a move had been made or was contemplated.

The boundary question, which is being negotiated between Mexico and Guatemala, is no more, says the minister, than the boundary between Mexico and the United States, and that it has not at any time reached a serious phase which would warrant the reports of a war.

**DR. PARKHURST'S PLEA.**

**Declares That Society is Wrong to Ostracize Fallen Women.**  
**New York, Oct. 23.**—Charles A. Parkhurst Sunday preached a sermon in his church which was a plea for fallen women. Dr. Parkhurst said society has a way of scaling sins for which no warrant can be found in the scriptures. "There seems to be," he said, "one chief actor of crime that if one sex practices it, it is all right; but if the other practices it, ostracism invariably follows. Men can do as they choose on this score with women for whom they have no respect, but with a woman it is different."

He continued: "Society says there are several unpardonable sins. They say it is a crime for a woman to transgress the seventh commandment, but it is not so for a man. One of the great troubles when a woman wishes to lead a better life is that she does not receive the help of her sisters. What hope, then, is there for a woman to try and do better? There are a great many Magdalenes in New York. Probably thousands of them who will get to heaven. They are children of God—just as good in his sight as you—and you should do all you can to help them."

"If your fallen sister has reformed and has been washed in the blood of the lamb what is it your business what her former life has been? His blood is sufficient to redeem her. Some of you gather your skirts about you to escape from them, while they are just as precious to him as you are. They want redemption from women as women. If they don't get it they invariably live a dishonorable life, die a dishonored woman and their bodies are buried in the potter's field, where your pitilessness has driven them. There is no reason why an ex-convict or a fallen woman should not be received into society when they have again become good persons and the past is blotted out."

**To Put Down Lawlessness in the Indian Territory.**

**IS NO OTHER REMEDY.**

**U. S. Marshals Either Can't Do It or Don't Care.**

**Express Officials Say Statehood is the Only Remedy.**

**WASHINGTON, Oct. 23.**—Secretary Hoke Smith has requested the secretary of war to send troops to the Indian Territory to suppress the lawless bands which have been operating there and in the adjacent country. Accompanying the request was the communication Secretary Smith received from the Indian Territory, detailing the deplorable condition of affairs there.

**Why Troops Are Necessary.**  
**St. Louis, Mo., Oct. 23.**—Bankers and business men living in the towns in the Indian Territory, as well as those living outside the territory but doing business with territory firms, has been greatly worked up over the condition of affairs which has made it necessary for the Pacific Express company to refuse money shipments either into or out of the territory. So far as the express company is concerned, however, they take a philosophical view of the situation and not a complaint has been registered.

"The situation in the Indian Territory today," said Superintendent O. W. Case, of the Pacific company, "is worse than it ever was. There is absolutely no protection for life or property, except as we furnish it ourselves. The continual carrying of such an armed force makes the business too expensive to be profitable."

"We have lost more by the expense than we ever did by the actual robberies. Now this Saturday robbery, by it we lost just \$100. This consisted of return C. O. D. which we had to refund, and our own and the railroad's remittances. But you can see that to protect even a small amount that it would cost when such a gang as that attacked the train. The other companies are still carrying money but I am informed by Mr. Simpson for carrying money we would have to issue an order similar to ours."

"To give you a little idea of what we have paid out I will speak of the Oliphant robbery. Our loss there was about \$300, but it cost us \$8,500 to capture the robbers. At the present rates for carrying money we would have to take into the territory \$8,500,000 to get that back. For some time before the Dalton gang was wiped out the Missouri, Kansas & Texas and the Pacific had a standing reward of \$5,000 each on the eight men comprising the gang."

"There is but one way to stop this lawlessness, that is to make a state out of the Indian Territory. Or, if the federal government would send a few regiments of soldiers down there instead of keeping them in the barracks and in their eastern military stations, it might do some good. A war of extermination such as Gov. Crittenden waged against the James gang in Missouri is what is needed. This can only properly be done by admitting the territory to statehood."

General Superintendent L. A. Fuller of the Pacific company, and General Superintendent Peck of the Iron Mountain, have gone to Waggoner and will spend several days in the territory in an attempt to have the character of cases which perpetrated the last robbery, captured. The information received here is that Bill Cook is a young man not yet 22 year old and Cherokee Bill, his chief lieutenant, is but 18.

Superintendent Case says they are desperadoes, simply for the notoriety and not for the money they can get. Still they always take all they can. The gang which effected the robbery at Claremore a short time ago was the Means gang, headed by Columbus Means. This is a bad gang, as is also the Bill Doonan gang, which is said to have sprung from the ashes of the Dalton gang.

Superintendent Simpson of the Wells-Fargo is now in the territory also looking into the condition of the country in which his company operates. It is stated by some who are familiar with the situation there, that the trouble is largely due to the lack of a strong, efficient, United States marshal. It is a well known fact they are largely recruited from the desperado class, and it is often charged that they some times stand in with the train robbers.

**YALE APES OXFORD.**

**Commencement Exercises Are to be Modified After the English University.**  
**NEW HAVEN, Conn., Oct. 23.**—A committee of professors in Yale university, representing all its departments and the corporation appointed about a year ago to revise the exercises of commencement day, have reported, and many changes have been recommended and adopted.

The programme of exercises have been drawn up to a certain extent modeled after the Oxford commemoration. The only speaking will be an address by the president on the condition and progress of the university. This will be in English, but will not supersede the similar address at the alumni dinner.

The candidates for a degree are all required to be present. A new officer will be introduced, called the "Orator," who will perform the same duties as a similar dignitary does at Oxford. It will be his place to introduce the various candidates to the president. The candidates for honorary degrees will have their qualifications for the honor put before the faculty and president by this officer, after which the customary "pro auctoritate mihi commissis" will follow from the president.

This officer is a resurrection of a former one at Yale. His place was formerly filled by the senior tutor, who presented the seniors to the president for degrees. The formula was somewhat quaint and was entirely in Latin. The valedictory and salutatory addresses, together with all other speaking, will be abandoned.

One might as well be without money as without Price, that is Dr. Price's Cream Baking Powder.

**TO FOUND A NEW NORWAY.**

**Three Thousand Norwegians Going to Establish a Settlement in British Columbia.**  
**VICTORIA, B. C., Oct. 23.**—Rev. Simon Saugstad, pioneer minister of the Lutheran church in Minnesota, and his little band of eighty Norwegian farmers, have got this far on their way to Bella Colea, where they, with about 3,000 of their countrymen, propose establishing a new Norway among the British Columbia mountains and fjords, so like to those of their native land.

These Norwegians purpose engaging in mixed farming and development of the deep sea fisheries. They are the first to take advantage of the British Columbia government's new terms to settlers. Their families and friends will follow as soon as they have completed building the houses whose construction will be their first duty. Rev. Mr. Saugstad says that in all his settlements will have a population of about 3,000 souls and will have a capital of \$50,000.

**TODAY'S MARKET REPORT.**

**Furnished by the Associated Press to the State Journal.**  
**CHICAGO, Oct. 23.**—There was very little doing in the grain pits today. Wheat was dull, though cables were firm and reports came from New York of an active demand from foreigners. Northwestern receipts were large at 1080 cars. December started 1/2c lower and advanced to 32 1/2c.

Corn was easier on outside selling orders, though cables were steady to firm, and New York reported exports bid 1/2c up. May opened 1/2c lower at 49 1/2c, advanced 1/2c and then declined to 49 1/2c. May oats started 1/2c lower at 32 1/2c and advanced to 32 1/2c.

Provisions were easier. January pork opened 2 1/2c lower, at \$12.25, and declined to \$12.20. January lard opened unchanged at \$7.10, and declined to \$7.05 1/2. Estimates for Wednesday: Wheat 180 cars; corn 75 cars, oats 115 cars, hogs 30,000 head.
