KISSES THE GOVERNOR

Or, Rather, it is the Governor Who Kisses Her.

PRETTY MISS FANNY MOON SURPRISED.

Gov. Morrill Plants a Fatherly Kiss on Her Lips Before the Whole University—He Knew Her When She Was a Little Tot.

Governor E. N. Morrill kissed Miss Fanny Moon of Topeka yesterday morning in the state university hall before several hundred students.

The occasion of this action was that the governor was so glad to see an old acquaintance that his joy overcame him and he kissed one of the prettiest and most charming young ladies at the university. Governor Morrill had just finished his address to the large audience, and the closing song had been sung, when Miss Moon, anxious to see her former townsman, stepped forward to grasp the hand of the governor of the state, and tell him how glad she was to see him.

Miss Moon used to live in Hiawatha, and is well acquainted with the family of Gov. Morrill. The young lady approached the platform with a warm blush and a bright smile upon her pretty face. The governor descended the steps from the platform and was standing talking to Chancellor Snow.

When Miss Moon stepped closer, the governor's attention was attracted to her. "How do you do Governor Morrill, I'm so—," Miss Moon was unable to tell him how glad she was to see him, for he had drawn her into his arms in a fatherly embrace and pressed a firm and resounding kiss upon her lips. There was an instantaneous and profound sensation throughout the room, but Gov. Morrill seemed oblivious to it. He looked extremely happy. Miss Moon blushed

deeply. The students looked on in amazement.

Miss Moon chatted a moment with the governor, recovered her composure in a few moments and bade the great man adieu. Her girl friends pretended to be quite oblivious that she should be so particularly singled out.

Governor Morrill's address to the students was a very short one, but he spoke very earnestly, and said some valuable things. After the usual introduction in saying it gave him especial pleasure to be before the students that morning, he said:

"It is my especial pleasure to meet young people. I always feel like taking the advantages of gray hair (though I don't feel very old), to give advice. I could give you valuable advice from an active busy life of over 40 years."

Then he gave the students some good suggestions. "Above all things," said he, "is strictest integrity. Don't do a mean thing or dishonest thing. Better lose a right hand than be dishonest. There is no royal road to wealth and education."

The governor told of an incident in the Black Hills. A stranger inquiring for a certain man, asked a native if he knew such a man. The man replied: "You just bet I know him. He will stand without hitching."

TRACE OF THE LOST BOY.

A Man With a Gun Seen to Get Into His Wagon.

The first thing that appears like a clue to the disappearance of fifteen year old Edward Ilson who lived twelve miles southeast of Topeka has been reported to Sheriff Burdge.

L. R. Garlinghouse, who lives five miles west of where the Ilson boy lived, is the informant. He says that on the afternoon of the day young Ilson came to Topeka for his load of sand a rough looking man, who carried a small rifle appeared at the orchard of a neighbor who lives across the road from Mr. Garlinghouse. A boy about sixteen years old was in the orchard, and the man approached and opened a conversation.

They talked of guns and shooting, and the boy informed the stranger that he also owned a rifle, and going into the house brought it out and he and the stranger spent some time shooting at a mark. The stranger was anxious to trade guns, but the boy refused, and while they were talking a boy with a load of sand came in sight.

"I believe I will ride with that boy if he goes my way," said the stranger.

He got into the wagon with the boy and together they turned east toward the Ilson home.

It was about a half mile from this place that the sand was found. This occurred at about half past four in the evening and the description given by the boy of the boy who was in the wagon leaves no doubt that it was Edward Ilson with whom the stranger rode away.

The neighbors have offered \$200 reward for the discovery of the lost boy.

HOLLIDAY

Trade is near at hand and we are going right after it to capture our share. If the city council will grant us permission to occupy ten feet more of Kansas avenue we will build an addition to the front of the GOLDEN EAGLE and hire a few more clerks and help boom the city while we are booming our own business. Just now we are enjoying a nice little boom in the overcoat trade, thanks to Sergeant Jennings, who ordered a nice little Manitoba wave for our especial benefit. Charley Holliday's boom is nowhere compared to our

since we got in those Cast-Iron Overcoats with storm collars, and pull-over capes to match, and a pair of knit gloves, all of which we are selling for \$3 a kit. They come in young men's sizes, for youths, ranging from 12 to 20 years of age, and can be worn by large young men or little old men. We are also enjoying a boom in our genuine beaver overcoats, in blue, black, brown, grey and every other imaginable color, which we are selling at \$10 each. All we need is a little more space and another cold wave.
