St. Joseph, Mo., July 3.—The attendance at the second day of the St. Joseph association's summer meeting was very pleasing on account of the fact that rain was threatened at almost any time during the afternoon and several small showers fell. Over 4,000 paid admissions. The track was in good shape and fast, but a strong wind interfered with speed. One of the features of the afternoon was the effort of the great pacer, directly, to lower his record of 2:07 1/2. Andy McDowell sent him a pretty mile without skip or break, the time being: Quarter 32 3/4; half 1:06 1/4; three-quarters 1:36 1/4; mile 2:09 flat. The unfinished three mile race, purse \$1,000, in which Dan McCate and Tom Lee had each won two heats, was won by Tom Lee in 2:31 1/2. The other events were:

VALKYRIE LOSES IT

CUP CHALLENGER NOW MAKES BRITANNIA LOOK GLUM.

Starts with Britannia and Alta for the Muir Challenge Cup, but is beaten by Both. They Outsped Her and Otherwise Behaving Much Better—General Comment is to the Effect that It Won't Do to Send Her After the America's Cup—George Gould's Yacht is Again Defeated—Other Yachts Noted.

Hunter's Quay, Firth of Clyde, July 3. The challenger for the America's cup, Valkyrie III, started this morning in the race for the Muir challenge cup, her competitors being Britannia and Britannia. To her credit it may be said she had built great hopes on Lord Dunraven's new yacht, Valkyrie was squarely beaten in a good breeze by both the Brits, and Britannia, in the end, carried the cup by seven minutes ten seconds, correct time, and Alta defeated her by two minutes fifty-nine seconds, including her time allowance. Valkyrie headed over a great deal in a fairly stiff breeze and with her working, top sail set, had her lee rail under water when Britannia and Alta were carrying their club top sails and going along much stiffer. This was on the reach back to Kilcregan, on the second round and consequently it is not astonishing that towards yachmen of Great Britain are not so sanguine as they were of bringing the America's cup back to their shores.

There was very little change from that time on until the yachts reached Kilcregan mark boat No. 4, on the first round, when the challenger again began to show signs of weakness. She fell away still more perceptibly on the beat home after rounding the Kilcregan mark boats. The breeze increased slightly in strength after the yachts started the second race, but it was soon found necessary to take in Valkyrie's club top sail. Alta and Britannia, however, held on their club top sails and stood on to the finish. The other three events went to favor the Brits. Summaries: First race—Four and a half furlongs, 2-year-olds, Plug, 2 to 1, won; King Hazel, 4 to 1, second; Surf, 5 to 1, third. Time 1:28 1/2.

Kansas City, July 3.—A good card and superior racing conditions attended the largest attendance of the meeting at Exposition park today. La Rosa, an outsider, won the third event and Margie, at 8 to 1, took the last race. The other three events went to favor the Brits. Summaries: First race—Four and a half furlongs, 2-year-olds, Plug, 2 to 1, won; King Hazel, 4 to 1, second; Surf, 5 to 1, third. Time 1:28 1/2.

REBELS STIR AGAIN

SAMOAN AFFAIRS APPROACH THE GOING-SPILLING POINT.

Rebels Offer Terms of Peace, Stipulating for the Depositing of King Malietoa's Representatives of Contesting Factions Meet on a German Warship in the Presence of the Consuls Interested in the Present Establishment—Foreign Officials are not in Good Fellowship—Fugitive Gets a Soft Birth in Fomosa.

San Francisco, July 3.—The steamer Alameda this evening brought the following advices from Samoa, dated June 28: The situation between the two parties here has reached a stage which may be described as critical. The rebel party last week held a meeting, attended by several thousand. Although the rebels expressed a desire for peace they made the principal condition of the maintenance of peace the deposition of King Malietoa. Their meeting was held under the guidance of H. J. Moore. There is a strong feeling against him for his action in the matter, and it is expected he will be called to account for it. A meeting was held on the German warship Bussard, yesterday where six of the rebel chief, a like number of the government party and three consuls attended. Nothing has so far transpired as to what was done. It will be impossible for the consuls to arrange a peace because of his basing the downfall of Malietoa on it. He generally thought that ere long more blood will be shed. No feeling of unity prevails among the foreign officials, in fact relations are very much strained among them.

PRISON CHAPLAIN. Rev. W. Frederick Stockton was eager to begin upon Wilde, whom he regarded as the most hardened and desperate peevish from Christianity he had ever come under his spiritual care. So Wilde had not been in Pentonville many days before the old clergyman was seated at the table with his face buried in his hands, glanced at the old man, saw his occupation in the cut of his hair. He is allowed to read the Bible, and is still sane, but in a dazed and morose condition, from which he is seldom roused.

Western Lines Managers Remiss in Matter of Safe Appliances. Chicago, July 3.—The general managers of the western roads were in session today considering the charges they would make to the Interstate Commerce commission on account of their failure to equip all their cars, freight and passenger, with automatic couplers and air brakes. The time set for the finishing of the work by the commission expired last Monday. The roads deny that they have neglected their duty, and asked too much of them, saying that in these hard times of the railroad business they had not been given time enough to do the work. A DEADLY DISEASE. Paralysis Seems to Be the Great Evil of Our Times. In connection with the cocksure statement of Mr. Howells that the present 5 years are the most dangerous ever seen in the history of the world, it is interesting to read the following paragraph, written by Dr. T. S. Clouston, superintendent of the Montrose asylum, Montreal, Ha. says: "One terrible form of brain disease, with mental symptoms, is certainly increasing. That disease may be described as a breakdown of the great center of mind and motion in the brain. It always goes on from bad to worse till it renders its victim utterly helpless in mind and body and kills him in a few days. No remedy is known, and any mitigation of this latter part of disease has been devised. It is a disease of cities, of restless lives, of active brains in their prime, sometimes of dissipation and debauchery, of life at high pressure constantly."
