Match Games at Herrington.

Herington, Kan., July 3.—(Special.)—Arrangements have been concluded for a series of three games between the Herington and Wichita baseball teams on July 8, 9 and 10. Exciting contests are expected, as the quality of the Wichita nine is well known, and the Herington players last season demonstrated their superiority over other teams in this part of the country. All the men are strong at the bat and in the field, but especial reliance is placed in the battery work. Alexander is one of the cleverest, brainiest catchers in the state, and under his coaching, Clark, who shows phenomenal speed this year, and Switzer, late of Topeka, who has been signed for the season to reinforce him, are pitching ball that is hard to beat. Three days of rare sport is looked for, with the locals confident of winning at least two of the series.

Eagle's Sporting Notes.

The National sporting club of London is going to raise a testimonial purse for Peter Jackson.

Fantasy trotted the last half of her mile in 2:07 at Des Moines in 1:03¼, the last quarter in 30¼ seconds.

Pitcher Weyhing has pitched good ball since joining the Louisvilles, but his lack of support has kept him from winning a game.

Lawrence Farrell, alias Keough, the Denver pugilist, probably will not be seen in the ring again for many years, as he has been convicted of highway robbery in Denver.

The sale of trotters of the Cedar Park farm in Philadelphia resulted in and overage of $434.60 for the thirty-eight head sold. Ella Vertuer, 2:19½, by Epaulet, sold for $1,600.

Griffin of Chicago has wonderful control—one base on balls to a game is about his average, and his slow curves are marvels. He is a winner with men on bases, and keeps hits scattered in grand style.

Jack Dempsey will eave New York for his home in Portland, Ore., today. The ex-champion is in poor health, but not so seriously ill as reported. His benefit netted him nearly $3,500, and J. P. Dwyer forwarded the greater part of it to Mrs. Dempsey.

The fastest mile ever made by a Canadian-bred gelding was made at Des Moines recently by Ben B, by Ridgewood, a son of Hambleteonian, which got a mark of 2:14 in a winnig race. Alvin, 2:11, holds the record for Canadian-bred stallions.

A. G. Spaulding & Bros. have notified Walter Sanger, who is riding in the interest of that firm, that he is to refrain from contesting in race meets that are not sanctioned by Chairman Gideon of the L. A. W. This will debar him from riding at the Grand Rapids meet.

At the Corbett-Fitzsimmons headquarters at Dallas, there is a confident feeling that the Plimmer-Dixon fight will occur some three or four days before the big battle. Dan Stuart says the $7,500 will be posted by the club as soon as the bantams assure him they mean business.

Shannon, the hard-hitting and fast-little shortstop of the Springfield team of the Eestern league, is talked of as a successor to Fuller of the Giants. He is smaller than the latter, but much more reliable, both in the field and at the bat, and his presence on the team could not fail to strengthen it.

The National Baseball league board will meet in New York on Monday, and there will be a number of very serious complaints from the Pennsylvania State league managers, among them being the Scranton-Hazelton fight over Meaney and the Potts-Rochester fight over Baldwin and Tighe, the two latter having jumped their hegularly signed contracts.

COMPETITION IS ON

DRILLING FOR PRIZES IN PROGRESS AT ST. LOUIS.

Weather is Favorable and the Free-for-all Infantry Class Program is Carried Out with Zest and is well Appreciated—Five Prizes Offered and Six Companies Compete—Fourth of July will be Celebrated by the Artillery Drill and a Sham Battle—Prizes will be Announced Sunday—Names of Companies which Participate.

St. Louis, Mo., July 3.—The third day at Camp Hancock opened with fine weather. After the ceremony of guard mount at 9 o'clock, the competition in the free-for-all infantry class for prizes aggregating in value $7,160 was begun. The program was very well received. The following companies participated: National Rifles, Washington, D. C.; Bullene Guards, Kansas City company F, First infantry, National Guards of Missouri, St. Louis; Phoenix infantry, Dayton, O.; Branch Guards, St. Louis; Belknap Rifles, San Antonio Tex. In other parts of the grounds there were exhibition drills by several of the artillery and infantry companies.

Who the winners of the prizes are will not be known until Sunday when the presentation will take place. The contest seems to be the closest between the National Rifles, Branch Guards and Belknap Rifles, which have been through many prize drills. Five prizes are offered in this class and there are six companies, one will have to go home disappointed.

After the usual dress parade, which was witnessed by an immense crowd this evening, there was a grand promenade concert by the bands present and an exhibition bugle drill by company A, First infantry of this city.

Tomorrow will be the big day of the week, the Fourth, which will be opened by the firing of the national salute. The grand artillery contest will be the principal feature of interest in the morning, four of the most noted national guard batteries being entered to drill for $3,000 divided in three prizes. They are Battery A of St. Louis; Rockville Indiana Light Artillery; Dallas, Tex., Artillery company and the Indianapolis Light Artillery.

Following the exhibition drilling will be a sham battle participated in byy all the companies present. There will be the usual dress parade in the evening and a grand display of fireworks.

BEE LIT ON HIS BALD SPOT.

New York Judge Cuts Several Figures in the Air.

New York, July 3.—Right in the centre of Justice of the Peace J. C. Lowy's head is a bald cpot. It is one of the baldest spots anywhere in Jersey City. Mr. Lowy is very proud of it. He says it is the effect of deep thought and a noble exemplification of the power of concentration of intellect. When he is deciding a case he rubs the spot for inspiration. The more he rubs it the shinier it gets, and the shinier it gets the more inspiration the justice derives from it.

Mr. Lowy sat in his office yesterday morning reading a newspaper and sunning his center of inspiration. He was sunning it through his new straw hat, which is perforated in the middle. Mr. Lowy bought the perforated hat as particular fitted to the needs of his bald spot, and not, as his enemies allege, for conversational purposes.

Through the hole in the hat a ray of bright light reflected from the sunshine beamed in brilliancy. An inquisitive bee flew in at the open window, and on hovering wings sunned itself in the ray. The justice batted at the bee, which buzzed away around the room. It circled about in a narrow course, coming nearer and nearer to the hat. Perhaps it was hypnotized by the shinning spot, for it suddenly swooped down and crawled through the hole.

Justice of the Peace Lowy signalized the entrance of the bee with startling ceremonies. He removed his perforated hat and cast it upon the floor. Then he smote the roof of his intellect violently and chanted a sonorous chant, after which he waved his hands in the air and leaped around the room. The bee, having no hold on the slippery pericranium, slid off and fell on the table, where Mr. Lowy pounded it to death with an iron paper weight. Then he went to the drug store and put his head under treatment.

The pain was soon gone, but right at the middle of the candid and symmetrical circle of inspiration there is a small red pyramidal hump. It is a mound to the memory of the unlamented bee.

Hail Had Experience.

A New York undertaker, or funeral director, as the reader may prefer, advertised for a driver for a hearse, and among the applicants he selected a good-looking, strong fellow, with a solemn countenance, and took him into his private office.

"Before employing you," said the undertaker, "I want to know if you have had experience in this business?"

"Well, I never drove a hearse," admitted the applicant, "but I've drove the next thing to it, and I guess I can give you satisfaction."

"How do you mean? I don't understand," and it was evident from the undertaker's troubled look that he was speaking the truth.

"Why," said the applicant with confidence, "I drove a rapid delivery wagon in Philadelphia for seven years."

He got the job.—N. Y. Sun.

A Stamp-Album Geographer.

Repudiated.

"Go!"

The form of the young and beautiful girl was drawn up to its full height, and, quivering with rage, she pointed to the door. "You told me it would be—"

With a commanding gesture she handed him back the ring he had just tendered her—

With crumpled horn and horrid low
She gasped: "Dear George, I'm thine!"

KIRK'S

Great Record in Wichita

The Generous and Honest Methods He Adopted in Introducing Rain Water Maker Universally Admired and Appreciated

He Wins the Fight Fairly and Squarely.

When the announcement first appeared in the Wichita newspapers that James S. Kirk & Co., would distribute free from the newspaper offices 10,000 packages of Rain Water Maker, and that the distribution would be made under the auspices of the press and that the full results of the free distribution would be published day by day in the columns of the Wichita newspapers, and that this preparation should stand or fall upon the results of this investigation, it marked a new era in the introduction of honest goods.

That Kirk has won the fight honestly and squarely, we leave the public to judge from the column after column of testimony published in this paper, which are but a few among the thousands who have gratefully testified to the merits of Rain Water Maker since the free distribution two weeks ago.

"Woman's Friend."

Mr. T. G. Parham, the head of the Peerless Picture company, 239 North Main street, told a reporter for the Eagle, yesterday, his wife's experience with Kirk's Rain Water Maker. Mrs. Parham used it to prepare hard water for washing some lace curtains and other delicate fabrics. Its effects were magical as compared with that ordinarily experienced in the use of broken hard water. The softness of the water seemed to be imparted to the articles in the wash, while the dirt stains dissolved and parted from the tissues of the goods almost without effort to remove them by the lightest rubbing. The saving in the wear to light and delicate articles will alone more than compensate for the small cost of the discovery, to say nothing of the satisfaction a woman feels at having things clean and white and fresh. Mrs. Parham is more than pleased with her experience, and denominates the discovery "Woman's Friend."

Possesses Genuine Merit.

An Eagle representative yesterday called on Mrs. Lotta McNicol, wife of D. A. McNicol, janitor for the government building, to ascertain her estimate of Kirk's Rain Water Maker. Mrs. McNicol was very frank to admit that she had given it as severe test as she could, being skeptical of its claimed virtues. She used it in the hardest water she could procure, following the introduction of soap into the water immediately after applying the resolvent, and to her surprise the water took up the soap at once, contrary to its action when "broken" with the ordinary alkatis. The cleansing of the textiles was easily accomplished with much less labor than with the use of any other preparation she has ever used, and the effect upon the blueing water was even more noticeable, not the slightest trace of curdling or settling being seen. She is altogether satisfied that the discovery is an article of genuine merit.

"Kirk's Rain Water Maker."

Will hold colors from running in printed goods. Flannels and woolens washed in water prepared with this most valuable preparation will positively not shrink. It breaks the hardest water instantly.

For the bath or toilet it is indispensable, making the water soft and velvety, accelerating the action of soap, giving the skin a healthy glow and helping to remove any superfluous excretions that may adhere to the body.

For the dishes and general washing purposes it is very essential, as it saves both labor and soap.

This preparation is not to be confounded with soap powder, as it contains no soap, lye, ammonia, borax, lime or any deleterious ingredients.

For sale by all grocers. Price, 25c.

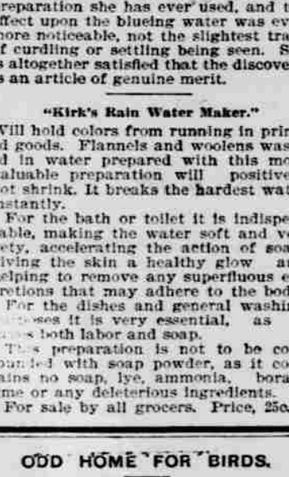
ODD HOME FOR BIRDS.

Airy Swinging Nest That Is Safe from Cats and Boys.

At the intersections of streets where electric are lights are hung, says the Kansas City Star, is a curious bit of city bird life. The lights are covered by big metal cones, inside of which a board crosses holding the bar that suspends the lamp. One day the man who replenishes the lights with carbons lowered the lamp to the street. While he was putting in the carbons a hen sparrow flew about his head chirping angrily. A crowd was attracted by the novel sight and when the people got near enough they saw the sparrow's nest on the board inside the cone and in it three young birds with gaping red mouths. The lamp man attended to his business as though it were nothing strange.

"Is that a sparrow's nest?" asked the man who always wants to know.

"No, it's a man in swimming," replied the lamp man, sarcastically, for



SPARROW'S NEST IN A LAMP CONE.

he had evidently answered the question before.

Later he said that almost every lamp cone in town had a sparrow's nest inside it. At first the lampmen tore them out whenever found, but the sparrows would rebuild the nest in a day or two and the men gave it up and let them remain. The sparrows find a high, swinging, airy home in the cones safe from cats and bad boys.

TRADE GROWS DULL

MARKETS YIELD TO THE INFLUENCE OF THE HOLIDAY.

Wheat Succumbs to the Extent of Five-Eighths of a Cent, Being Aided by the Lack of Outside Speculative Investments—Corn is Firm on Good Seaboard Orders for Export—Good Business in Oats and a Quarter Cent Gained—Provisions Strong and Advances are Made—Hog Receipts Light.

Chicago, July 3.—Trade was dull today in all repartments of the speculative business. The holiday tomorrow had much to do with the small trade, but besides that there is a great lack of outside speculative investments. Wheat was weak and about ⅝ cent lower, corn averaged firm and gained ⅛@¼ cent for September and oats closed ¼ cent higher. Provisions were firmer and shoy small gains.

Weakness was the feature of the early trading, the opening transactions taking place at from ¼@¾ cent below the closing figures of yesterday. The main source of the weaker feeling was in the northwest, where the wheat was of the most favorable character for the wheat plant. Outside of that feature of the situation, the news of the day was more bullish than before, as the following enumeration of the principal items will demonstrate. The Chicago receipts were only nine cars, two of which were new wheat, one car grading No. 3 hard and the other No. 3 red. Minneapolis received 98 cars and Duluth 65 cars, or 163 cars in all compared with 406 cars yesterday. The chief western winter wheat markets received wheat as follows: Kansas City, 4,800 bushels; St. Louis, 17,379 bushels, Toledo, 2,000 bushels and Duluth 692 bushels. The shipments from Duluth today amounted to 260,000 bushels, making for two days 520,000 bushels shipping. The export of wheat and flour from the Atlantic ports were heavy in comparison with the average of the last ten days, the total amounting to the equivalent of 420,000 bushels, 234,000 bushels of which were in the shape of wheat. The early Liverpool cables quoted an advance there of ¾ pence per cental, but the later cables reported a decline of ¼ pence since yesterday, the latter decline resulting probably from the weak opening at Chicago. Berlin cablegrams reported firmness and a slight advance while Paris sent no report and Antwerp repeated yesterday's quotations. The seaboard reported some inquiry for export, but chiefly for flour, and Duluth wired that there were buying orders from abroad for flour in the market. The market here, after a decline from around 71½ cents at the opening to a point below 71 cents and a recovery to around 71¼ cents, settled into sluggishness and assumed the usual characteristics of the day preceding the great national holiday. The business of the board was interfered with in the latter half of the session by the patriotic zeal of some of the younger members and trading was spasmodic. The price of September was kept between 71@71½ cents, with the lower edge of the range prevailing near the end. The closing price for September was 71½@¾ cents and for July 69⅝@¼ cents.

The corn market had some weak spots but on the whole ruled firm compared with the limpness of the wheat market. The fluctuations were confined to a range of about 1 cent. The seaboard advised a good export inquiry and sent their orders for execution here. About forty boat loads were reported sold at the seaboard, which means the shipment of that quantity from here. The receipts were nominally 104 cars, but two of those were merely transferred from irregular houses. September opened easier at 46 cents, declined to 45⅝ cents, rose to 46½ cents and after fluctuating between 46 and 46½ cents the most of the day, closed at 45¾@⅞ cents.

The oats market was quite the reverse. Parties who of late have sold freely and weakened prices were buying today and caused a sharp advance. Some good sized short lines were covered during the latter part of the session. September started at from 24⅛ to 24¼ cents, weakened to 23⅞ cents, rallied to 24⅜@¼ cents, back to 24 cents and finally recovered to 24¼ cents.

The provision trade was rather dull but the market was strong and it was found difficult to buy much without advancing the price. July deliveries were principally in demand, indicating an unliquidated shortage for this month. The hogs receipts were only 22,000, and for tomorrow's run but 21,000 are looked for. Prices at the close showed the following advances for the day: July pork, 10 cents; September 2½ cents; July lard, 5 cents; September 2½ cents; July ribs, 10 cents; September 5 cents.

Estimates for Thursday and Friday: Wheat, 10 cars; corn, 150 cars; oats, 200 cars; hogs, 21,000 head.

St. Louis Grain.

St. Louis, July 3.—Receipts—Flour, 1,000; wheat, 17,000; corn, 2,000; oats, 15,000. Shipments—Flour, 1,000; wheat, 3,000; corn 7,000; oats, 7,000. Flour—Hardly and demand; market heavy and declining; patents, $3.90@4.05; extra fancy, $3.65@3.75; fancy, $3.35@3.45; choice, $3.10@3.20; rye flour, $3.75@4. Wheat—Market continues unsettled and appears to be just trembling in the balance, awaiting the movement of the new crop to market ere taking a decided move one way of the other in price. The inclination was downward today, especially for July, which closed with sellers 1 cent below yesterday's bid, while September was salable ⅞ cent below what was asked at the close yesterday. No. 2 red, cash, 69¾ cents; July 69¼ cents bid; September, 70 cents bid. Corn—Still weak; September ⅝ cent lower early. The market recovered from its early weakness on reports of large export sales at the seaboard. As sellers became scarce the price advanced ⅝ cent and the close was near the top. No. 2 mixed, cash, 51⅛ cents bid; July, 42 cents bid; September, 44¼@¼ cents. Oats—The tendency was still downward this morning in the future market in sympathy with declines elsewhere and on the crop prospects, September selling off ¼@⅜ cent but toned up under better buying. A recovery of ⅛ cent took place but did not hold, though the close was slightly better than yesterday. Spot, stronger; No. 2, cash, 25¼ cents bid; July, 23 cents asked; September, 22⅞ cents. Rye—Lower; No. 2, east track, 60 cents. Barley, flax and grass seeds, nominal. Corn meal, $2.15@2.25. Bran, quiet and unchanged. Hay—Timothy, $10@13, east side; prairie, $7.00@10, this side.

St. Louis.

St. Louis, July 3.—Cotton—Quiet; no sales reported; receipts 61 bales; shipments 810 bales; stock 23,953 bales.

DRY GOODS MARKET.

New York.

New York, July 3.—In the way of new business there was very little done. The shipment of goods from the dry goods district proper has been exceptionally large. The cotton market in its entirety is the strongest since July, 1893. The advance in the price of wool at the London sales, which is expected to be increased, and especially on the light wools, has had a healthful influence on wool goods, particularly on blankets, flannels and similar fabrics. Print cloths firm at 2⅞ cents bid for 64 square regular; 4⅝ cents for 64-72 and 5⅜ cents bid for 72-80 cloths.
