A lengthy discussion was then indulged in regarding the indebtedness of the district and the advisability of putting a new roof and other repairs on the school building which resulted in deferring definite action until a future meeting. The length of term for the next school year was also a matter of considerable discussion, two members favoring a three or four months term and the other two six months.

Applications for superintendent for the coming year were then taken up and after a free discussion of the matter Prof. Chas. Bowman was elected on the proposition that he is to receive a salary of \$85 per month if the school term be six months, and if less than six months he is to receive \$100 per month.

The board then adjourned to meet next Monday at 2 o'clock at the News office, at which time the length of term will likely be determined upon and teachers employed for the several departments.

"The Leading Western Newspaper."

The Kansas City Times has earned the above title by always being in the foremost rank of the metropolitan western newspapers in advocating the interests of the West. In the eastern money centers the Times is looked upon as the best indicator of the condition of the West, and this puts it in the position of being the best advocate the West can have. It has not let its opportunities pass, but on every occasion has done all in its power toward the upbuilding of this great Western country. Among the principal things it has advocated, some of which have been successful, are:

- Opening of Oklahoma;
- Opening of the Cherokee Strip;
- Irrigation for the arid regions;
- Cheap transportation for Kansas.

In this good work the Kansas City Times solicits the support of every Western man. Its Daily is the brightest and best edited in the West, and its Weekly, with its twelve large pages, ranks with any weekly newspaper in the world.

The Kansas City Times was also the first to inaugurate the system of fast trains out of Kansas City carrying the regular edition of the Sunday Times and distributing it over Kansas two hundred miles west by eight o'clock, at three hours before the regular train leaves Kansas City.
