DOES IT PAY TO BUY CHEAP?

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you, then in either case take the ONLY remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Boschee's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try ONE bottle. Recommended many years by all druggists in the world. For sale by Jones & Gibson.

A Cup of Good Coffee

To get a real good cup of coffee you'll have to start back of the actual making; you'll have to look to the roasting and the grinding. It isn't reasonable to expect the best flavor from roasted coffee that's stood in the grocer's bin for weeks, absorbing the noxious odors common to grocery stores. It's sure to be impaired. In ARBUCKLES' COFFEE you have a coffee that's scientifically roasted, delivered to you with all the pores of the berry hermetically sealed. You're sure of a good cup of coffee because all the coffee flavor and aroma are kept intact until you want it. And the price?

Arbuckles' Roasted Coffee

has long been famous as the most economical coffee in the world. It's a good, honest, delicious coffee at an honest price. Millions of pounds sold every year. Millions of tables supplied with no coffee but ARBUCKLES'. Examine the list of articles in each package, a definite part of which you become entitled to with each purchase.

COLLYER - KANSAS.

COLLYER. Nice shower Wednesday. The children were practicing for Children's day last week. Liveryman Hickman has added to his livery barn a fine double carriage. The firing squad was practicing Sunday afternoon. Doc Ellis drilled them. Mrs. Otis Kessler and three children returned from Oklahoma Wednesday. Miss Della Kessler was in town on Thursday. Her friends were glad to see her around again. John Walsh, Joseph Brown and Mrs. Douglas Webster visited at the Larimer ranch Monday. Dr. Kirk of Salina brought Miss Ida Courtney home last Tuesday. Miss Ida's health is much improved. Mr. and Mrs. Bestor, Mr. and Mrs. T. R. Moore were entertained last Sunday by Mr. and Mrs. Wm Walsh on the Saline in honor of Mrs. Douglas Webster. Wallie Gibson's dog was poisoned this week and died; also a \$25 herifer of Bob Forrester's. This thing is growing monotonous, some people think they own the town and have a right to do as they please regardless of the rights of other people; we would say to these parties don't be all hog for there are a few people intended to live beside yourselves; any one that will scatter poison as recklessly as has been done lately, would poison your children if they had a chance and should good fortune set anyone on the trail to find out these parties they will be prosecuted to the full extent of the law.

The Coach in Early Times The introduction of coaches in England is credited to Queen Eleanor, who died in 1291. Her death was thus amicably discussed in a ballad of the time, entitled "A Warning Piece to England Against Pride and Wickedness, being the fall of Queen Eleanor, wife of Edward, King of England, who, for her pride, by God's judgment, sunk into the ground at Charing Cross, and rose at Queensbury." She was the first that did invent, In coaches brave to ride; She was the first that brought this land To deadly sin and pride. Later testimony, no less direct, credits the first introduction of coaches to Sir Thomas Chamberlayne, English ambassador to the court of Charles V. of Spain; and again to the earl of Rutland, for whom Walter Rippon, Queen Elizabeth's subsequent coachmaker, is recorded to have built the "first coach that ever was seen in England, Anno Domini, 1555."

However this may be, a great stir was certainly made in England by the magnificence of the royal coaches which Queen Beas received as presents from her admirers abroad. Her admirers at home followed suit. Thus Sir Philip Sidney risked his knightly reputation by appearing in a coach instead of on horseback, riding into Shrewsbury in his wagon, "with his trumpet blowing, very joyful to behold." Good Bishop Hall, in his "Satires," published shortly afterwards, took a less joyful view: "It's not a shame to see a groomer sit perched in an idle chariot room. That were not meet some pannel to be stridde, Sursingled to a gallad hackney's hide?"

It is computed the death rate of the world is sixty-seven and the birth rate seventy a minute, and this seeming light percentage of gain is sufficient to give a net increase in population each year of 1,200,000 souls.

All New York City contractors wishing permits for blasting will have to make application to a board of examiners first and then send a man who must pass the examination, which is to be a practical one.

In Milwaukee recently sixteen aspirants for the position of keeper of a city natatorium were required to plunge into the tank in their street clothing and swim. It was part of a civil service examination.

One of the three old ash trees which marks the site of Lincoln's birth on the upper Tweed, Scotland, immortalized in Burns' "Willie Wastie," has been destroyed by a storm. Paris actresses wear paper lace, which by night looks as beautiful and delicate as the best of real lace, while it costs just a trifle.
