MOTHERS WHO HAVE DAUGHTERS

Find Help in Lydia E. Pinkham's Vegetable Compound

Winchester, Ind. — "Four doctors told me that they could never make me regular, and that I would eventually have dropsy. I would bloat, and suffer from bearing-down pains, cramps and chills, and I could not sleep nights. My mother wrote to Mrs. Pinkham for advice, and I began to take Lydia E. Pinkham's Vegetable Compound. After taking one and one-half bottles of the Compound, I am all right again, and I recommend it to every suffering woman." — MRS. MAY DEAL, Winchester, Ind.

Hundreds of such letters from girls and mothers expressing their gratitude for what Lydia E. Pinkham's Vegetable Compound has accomplished for them have been received by The Lydia E. Pinkham Medicine Company, Lynn, Mass.

Girls who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion, should take immediate action to ward off the serious consequences and be restored to health by Lydia E. Pinkham's Vegetable Compound. Thousands have been restored to health by its use.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

OPPOSE THE DEEP WATERWAY

REPORT OF ARMY ENGINEERS BELIEVED TO BE ADVERSE.

They Take the Ground That Commercial Interests Do Not Justify the Vast Expense.

Washington, June 5.—From the known attitude of some prominent army officials the impression has been gained that the unanimous report of the army board of engineers on the proposed Mississippi deep waterways project from St. Louis to the Gulf of Mexico, which probably will be before congress before the end of next week, takes the general ground that commercial interests do not warrant the expenditure vast sums required to construct and maintain the proposed waterway. No intimation, however, of the conclusion of the engineers could be obtained.

Conclusions of the board has been awaited with a great deal of impatience especially in congress, where two weeks ago there was an extended debate over the question of calling on the secretary of war to transmit forthwith the report on the subject.

The debate evidently has had the effect of expediting consideration of the question by the board of engineers for it is announced that they have completed their report, which is now in the hands of the chief of engineers of the army, Gen. Wm. L. Marshall.

According to law, the board will be authorized to pass on the data collected by a special board created by congress to examine the Mississippi river below St. Louis to collect data to enable army engineers to reach a conclusion, with a view of recommending action thereon.

The report of the board will not be made public until after it has gone to congress.

The proposed deep waterway from St. Louis to the gulf is a part of the great project to connect the great lakes with the gulf by a channel sufficient to accommodate large craft throughout the year. Engineers were to collect data on the construction of a channel 14 feet deep.

A Rival Telephone Company.

Charleston, W. Va., June 5.—The National Telephone corporation with a capital stock of $15,000,000 was incorporated here. It is understood the new company expects to become a rival of the Bell system in its long distance business.

Cough Caution

Never, positively never poison your lungs. If you cough—even from a simple cold only—you should always heal, soothe, and ease the irritated bronchial tubes. Don't blindly suppress it with a stupefying poison. It's strange how many things finally come about. For twenty years Dr. Shoop has constantly warned people not to take cough mixtures or prescriptions containing Opium, Chloroform, or similar poisons. And now—a Rule has, though—Congress says "Put it on the label. If poisons are in your Cough Mixture." Good! Very good it is. Remember for this very reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poison marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And it's not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance then, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and note the difference. No poison marks there! You can always be on the safe side by demanding

Dr. Shoop's Cough Cure

STINGING RETORT FROM LA FOLLETTE

The Senator From Wisconsin Paid His Respects to Penrose.

CONTRAST OF THEIR ASSOCIATES

A Reference to the Company the Senator Keeps After Senate Adjourns Caused Renewed Interest.

Washington, June 5.—Through forenoon, afternoon and evening sessions the senate labored on the cotton schedule. Mr. LaFollette completed his long speech, attacking changes in the Dingley rates recommended by the senate finance committee and replied to Senator Penrose's charge that he was shamming sickness as an excuse for his absence from the night session. He said he was not sick but was very tired and was resting to be in shape to continue his speech in the senate. He asserted that Mr. Penrose might perform a greater service for the country and his state if he would account for his own time when not in the senate.

"I would suggest that the senator from Pennsylvania would render a more important service to the state of Pennsylvania and to the United States if he should account for the way he spends his time after leaving the senate than in any effort to account for mine."

This was the reply of Senator La Follette of Wisconsin to the attack made on him last night by Senator Penrose of Pennsylvania. It was made with dramatic intensity at the conclusion of the statement of the motives that have animated the Wisconsin senator in his political career.

"But," LaFollette continued, "no man could account for the whereabouts of the senator from Pennsylvania after he leaves this body without transgressing the rules of the senate."

The reply was a direct retort to Penrose's charge that LaFollette was known to have given out the report that he was ill when really he was consulting with "yellow journalists and the agents of uplift magazines."

The sting of the reply was in the implied contrast between such associates and those of Penrose.

At the night session Chairman Aldrich replied to Mr. LaFollette's assaults upon the work of the finance committee and made a general defense of amendments which he asserted were necessary to carry out the intent of framers of the Dingley law. Throughout the entire day the temperature in the chamber was sweltering. It is said another effort will be made to obtain a vote on the cotton schedule to-day.

TO ASK BETTER RATES TO GULF

Kansas Railroad Commissioners Will Unite With Other Boards for That Purpose.

Topeka, Kan., June 5.—The Kansas state board of railroad commissioners decided at a conference to unite with the boards Oklahoma and Texas and the Southwestern Shippers' association in an action before the Interstate Commerce commission for a reduction of freight rates to Gulf of Mexico ports. The reduction is asked for on the allegation that the rates in the sections of country affected are unjust as compared with Mississippi and Missouri river rates. The commission will be asked to base the new rates on the cost of service.

The Hawaiian Exhibit Landed.

Seattle, June 5.—The United States transport John A. Dix has arrived from Honolulu, bringing the Hawaiian exhibit, 1,500 cases for the Alaska-Yukon-Pacific exposition and a quantity of material needed to complete the Philippines exhibit. Hawaii has a special building at the fair and the islanders are making an effort, by showing their products, to effect the establishment of a steamer line between Puget Sound and Honolulu. Bananas and pineapples are to be shown prominently with a view to obtaining a market in the Pacific Northwest.

Great Celebration by Danes.

Chicago, June 5.—Danish residents of Chicago and the middle west have completed arrangements for the big fete here to-morrow in celebration of the sixtieth anniversary of the adoption of the Danish constitution. About 20,000 Danes from neighboring states have come to participate in the festivities. The exercises will consist of speeches, music, games and a banquet.

A Portrait of Root Hung.

Washington, June 5.—A portrait in oil of Senator Elihu Root, secretary of state for the greater part of the last term of President Roosevelt's administration has been hung in the big diplomatic room of the state department.

No Quorum in the House.

Washington, June 4.—After trying for three quarters of an hour to obtain a quorum and not meeting with success, the house adjourned until Monday.

CHAUTAUQUA

Are you making plans to attend the Chautauqua this summer?

The program offered will be the best that experienced managers can assemble.

Dr. Peter MacQueen

DR. PETER MAC QUEEN

See his wonderful performance and hear the interesting stories of himself and his people.

The Chautauqua is a good thing for the community. Support it and benefit yourself by securing a season ticket.

CHICAGO WELCOMES GUNBOAT

Historic Nashville Met by Naval Reserve and Swarm of Yachts and Other Boats.

Chicago, June 5.—The historic gunboat Nashville, which has been assigned to the Illinois naval militia, was given a rousing welcome when it arrived here to-day. The members of the naval militia and a number of guests met the war vessel at Milwaukee and escorted it to Chicago and as it entered the harbor it was greeted by several hundred yachts and other small craft, and all the steamers near by whistled their welcome. In the afternoon a reception was held on board the gunboat.

The Nashville had the honor of making the first attack against the Spanish flag in 1898. Its armament consists of eight four-inch rapid fire guns, four six-pounders, two one-pounders, two gatlings and a torpedo tube. Capt. Warren F. Purdy and 110 men of the naval militia brought the vessel from Boston, through the St. Lawrence river, the canals and the great lakes.

Saving an Ancient Fresco.

It is not only in this country that church restorers are allowed to do much as they like. An interesting story comes from Hal. The church is under restoration, and the workmen came across traces of a fresco. Its existence had been unknown, and according to the plats the plaster was to come away. Fortunately a townsman knew a process by which the plaster could be taken off intact on canvas. He obtained permission to make the experiment, and it has been carried out with success. He is said to be now the possessor of a valuable fifteenth-century painting. The Brussels museum authorities have learned of the existence of the painting, and they are endeavoring to prevent the alienation of this interesting work of the middle ages.—London Globe.

Robins' Curious Nesting Places.

The two robins which have built their nest in the cover of a meter at the Market Drayton Electric Light works have many precedents in the choice of unconventional nesting places. A year or two ago a robin's nest was built on a book shelf in a night nursery at Chiselhurst which was occupied without interruption by a nurse and child. Four eggs were laid, and two young birds were hatched out. Two other robins built their nest on the axle of a colliery wagon in daily use at Seghill, in Northumberland. Among other curious recent nesting places have been the breast pocket of a scarecrow at Ashbourne, a nail box in a village forge, the skeleton of a crow, and the rifle range butts at Ticehurst, Sussex. —Westminster Gazette.

A Good Hair-Food

Ayer's Hair Vigor, new improved formula, is a genuine hair-food. It feeds, nourishes, builds up, strengthens, invigorates. The hair grows more rapidly, keeps soft and smooth, and all dandruff disappears. Aid nature a little. Give your hair a good hair-food.

Does not change the color of the hair.

Formula with each bottle. Show it to your doctor. Ask him about it, then do as he says.

Ayer's

You need not hesitate about using this new Hair Vigor from any fear of its changing the color of your hair. The new Ayer's Hair Vigor prevents premature grayness, but does not change the color of the hair even to the slightest degree.

—Made by the J. C. Ayer Co., Lowell, Mass.—

THE PHILADELPHIA STRIKE IS SETTLED

The Men Get 22 Cents An Hour for Ten Hour Day.

OTHER CONCESSIONS RECEIVED

Books of the Company Show That More Can Be Paid It Will Be Demanded.

Philadelphia, June 5.—"The strike has been settled. The men will receive 22 cents an hour beginning this morning and ten hours will constitute a day's work."

This statement emanating from C. O. Pratt, chairman of the executive committee of the Amalgamated association of street railway employes, leader of the striking motormen and conductors, followed by the deportation of the 450 strike breakers, who came here from New York, ends the strike of employes of the Philadelphia Rapid Transit company. The strike began one week ago to-day.

The termination of the trouble was brought about primarily by Senator James P. McNichol, Republican leader of this city, at conferences with the traction officials and strikers representatives. These conferences were followed by additional meetings. After being in session nearly all day the men agreed to accept 22 cents an hour. The old "swing system," has been abolished; ten hours will constitute a days work; all employes will be permitted to purchase their uniforms in the open market; all future differences are to be adjusted between the company and a grievance committee chosen by the employes. If, after an investigation by the city controller of the books of the company, it can be shown that more than 22 cents an hour can be paid without crippling finances, of the company, the men will insist upon a further advance in wages.

The elevated men, many of whom deserted their cars, are also to receive an increase of one cent an hour.

Notwithstanding that the strike, to all intents and purposes, was practically settled before 6 o'clock last evening, no effort was made to run cars after dusk. Saloons were closed at 6 o'clock. There were several incipient riots early in the evening. A mob of several hundred persons pelted a passing car with rocks, coal and bricks.

READY FOR THE BALLOON RACE

Nine Great Gas Bags Are Being Filled at Indianapolis' Aviation Field.

Indianapolis, June 5.—The aviation field of the Indianapolis motor speedway was busy and picturesque when the aeronauts who have entered today's balloon races began to inflate the great bags with gas from a high power main extended from the city. The balloons will be carefully watched until the starting of the races for flaws that, discovered too late, might spoil the start or endanger lives.

Many members of the aero club of America are here and a great crowd is at the speedway. There are six entries for the national distance race and three for the contest under the auspices of the Aero club of Indiana for the honor of staying in the air the longest period. The national race will be started, it is expected, at 4:30 and the Indiana race an hour earlier.

Frisco Papers Consolidate.

San Francisco, June 5.—The Evening Post of this city has been sold to the interests owning the Evening Globe, and it is understood that the plants will be merged and the newspaper appear as the Globe and Post.

The Mississippi Goes North.

Pensacola, Miss., June 5.—The visit of the United States battleship Mississippi to the waters contiguous to this port to receive the state of Mississippi's silver service gift, has ended. It goes direct to Philadelphia.
