WILL ISSUE \$20,000 BONDS.
Herington School District to Refund Indebtedness.
Herington, Aug. 6.—During the past six or eight years not enough money has been raised by taxation, although the levy was the limit, to pay the running expenses of the schools and as a result the indebtedness has reached nearly \$20,000.

WEED BURNER GETS 'EM.
Union Pacific Machine Uses Gasoline For Fuel.
The Union Pacific weed burner is at work in this county. The monstrous burner eats up about 1,500 gallons of gasoline per day. A tank car of gasoline follows behind the burner with a water tank far enough in the rear to eliminate any danger from weeds left burning.

PARKER'S HAIR BALM
Cleanses and beautifies the hair. Promotes a luxuriant growth. Never falls to the scalp. Cures scalp disease and hair falling. 25c and 50c at Druggists.

FREE LUNCH AT NOON.
P. D. JONES
W. C. CURPHEY, Auctioneer.
C. Z. SWISHER, Clerk.

DRIVE SHAFT SNAPPED OFF.
Union Pacific Plug Was Laid Up at Detroit.
Detroit, Aug. 6.—One west bound Union Pacific plug due in Abilene at 2:10 today came near going in the ditch three miles east of here when a drive shaft on the locomotive broke. The train managed to get here with one shaft working and is tied up. The afternoon flyer took baggage and mail cars on to Salina and passengers were transferred.

A FINE MAP-BOOK.
Dickinson Needed a Plat of County Up to Date.
A fine book of complete plats of every township in the county has been issued by Arthur Capper and is being distributed with the Capital. It has a map of each township showing every township and city with the correct name of the owner of every farm. There is also a map of the county entire. County Treasurer Morse and County Clerk King compiled it making it accurate and complete. It was much needed and will be appreciated.

No Fake in This Book.
The new platbook of the county issued by Arthur Capper should not be confused with the fake atlas. This is all right and a fine book for everybody. The books will be put out in connection with the Capper publications who bought all the rights on the book and will offer them as premiums to subscribers of the Mail and Breeze or Daily Capital. The book is about 14x16 inches, nicely bound in cloth and contains a map of every township in the county, the number of acres owned by each farmer, together with the owner's name. There are also maps of every town in the county giving streets, wards, railroads, and principal buildings. The book has, besides this, a great deal of information of a general atlas nature, such as maps of the United States, the World and Kansas. This book is the best that has been made of Dickinson county and is really a work of high merit. Anyone who is approached with this proposition will be sure to get a big bargain.

Back From Camp.
P. L. Gross and family and N. E. Gish and family returned last night from their camping trip. The camp was made one mile north of Chapman on the banks of Chapman creek where they caught many fish and had a general good time.

Was a Glorious Victory.
There's rejoicing in Fedora, Tenn. A man's life has been saved, and now Dr. King's New Discovery is the talk of the town for curing C. V. Pepper of deadly lung hemorrhages. "I could not work nor get about," he writes, "and the doctors did me no good, but after using Dr. King's New Discovery three weeks I feel like a new man, and can do good work again." For weak, sore or diseased lungs, coughs and colds, hemorrhages, Hay Fever, LaGrippe, Asthma or any bronchial affection it stands unrivaled. Price 50c and \$1.00. Trial bottle free. Sold and guaranteed by J. W. Williamson.

Marshaling Again.
A long argument took place over the marshaling, the council asking Mayor Rice to appoint a marshal as the town is now without any officer. He said he could not find anybody to take it. The suggestion was made that H. G. Engle, merchants' police, a very capable officer, whom 50 per cent of the merchants have selected as nightwatch independent of the city, be named, but Mr. Rice said he would not appoint him.

Sidewalks and Sewers.
After reading of the minutes and passing of bills a number of petitions were presented. A petition for a 3rd class sidewalk on the south side of north 7th street from Mulberry to Walnut was on motion referred to the street and alley committee.

A petition for extension of water mains on north Elm street and one for extension of water mains on Enterprise street east to the section line and north to Cottage avenue recommended by the water commissioners, were on motion granted.

On application of contractor the time limit for completion of sewer in district No. 4 was extended to Aug. 23, 1909.

A petition for sewer on Pine street from First street to Third street was on motion granted.

The report of the appraisement committee on the crossing on the Union Pacific at Olive street was presented and on motion accepted and referred to the finance committee.

Tax Levy Made.
The finance committee then submitted the estimate of a levy for taxes for 1909:
General fund 2 mills on \$4,018,428 valuation would raise \$8,036.80.
Street and alley fund, 1 mill, \$4,018.
Library fund, 33 mill, \$1,326.56.
Sinking fund, .8 mill, \$320.
Interest fund, 1.7 mill, \$6,830.
Park fund, nothing, there being a balance on hand of \$500.

With this levy all tax warrants in general fund now outstanding can be taken up in December of the present year.

Sewer on East Eighth.
The reports of the street, cemetery sexton and street commissioner were received and ordered placed on file.

Ordinance No. 236 and ordinance entitled "An ordinance providing for a sewer on east Eighth street and establishing a taxing district therefore," were presented and on motion adopted.

A report of the sewer committee on the repairing on sewer outlet was presented and on motion the matter was referred to the sewer committee with power to act.

Electric Light Ordinance.
An ordinance calling for an election to vote upon the proposition to issue bonds for a municipal lighting plant was presented and on motion referred to the ordinance committee.

The sidewalk on south 4th street ordered but not laid was ordered laid by street commissioner and charged against the property.

The approaches on north 10th street and Buckeye were ordered put in.

The grades for sidewalk on Mulberry were ordered to be given. On motion lot property owners

on the south side of 4th street, Cedar to Buckeye, were ordered to put their walk in.

City Hall Improvements.
The fire chief then presented a request for the use of rooms on second floor of city hall for the use of the firemen and also for necessary furniture, and on motion the matter was referred to the fire, water and light committee to report at the next meeting.

On motion adjourned.

TWO WEDDINGS OF INTEREST.
Leon Nutt and E. L. Cryderman Both Lived Here.

A marriage of interest to Abilene people is that of Miss Grace Simmons of Salina to Mr. E. L. Cryderman of Herington. This marriage took place Monday, July 26, in Marlon, and became known today.

Mrs. Cryderman is a daughter of Mr. and Mrs. B. F. Simmons. She graduated from the business college and went to Herington some months ago to take a position as stenographer in the Mott real estate office. Soon after going there she met Mr. Cryderman and their friendship ripened into love, but it was not known that they would be married until the coming autumn. She is an attractive young woman, whose many graces of character have won for her a host of friends. She is a member of the Miriam Rebekah lodge, No. 8, I. O. O. F.

Mr. Cryderman is employed by the Rock Island railroad at Herington, but formerly lived at Abilene, and had been working in the printing office here. He is an excellent young man, ambitious and energetic. Mr. and Mrs. Cryderman have gone to housekeeping.

Mr. and Mrs. Leon Nutt of Koshkonong, Mo., are the guests of Mr. and Mrs. D. Tell Nutt of Salina, the two men being brothers. They are returning from a wedding trip, of some length through western Colorado and New Mexico. Mr. Nutt owns a fruit farm in the Ozarks, and since his trip has decided that he will stick to Southern Missouri, having seen nothing elsewhere that equals as a fruit country. The many Abilene friends of Mr. and Mrs. Nutt wish them happiness and success.

Miss Caroline Tobin Buried.
Mrs. Caroline Tobin, aged 78 years, died at the county hospital yesterday. The funeral service was held at the Catholic church at Solomon this morning and burial was in the Catholic cemetery.

\$100 Reward.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, setting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietor has so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY, Toledo, O.

Henry Kohman, a university of Kansas student and resident of south Dickinson, who has been working on new methods of bread-making for the past two years, has been asked to read a paper before the national gathering of the National Master Baker association. Representatives of all the large bakeries of the United States and Canada will be present at this meeting.

Mr. Kohman will read a paper telling of the new salt rising bread yeast that he has discovered, that insures the dough rising every time and his paper will be one of the big topics of discussion at the convention.

Mr. Kohman has been doing some valuable work in studying the methods of bread making, and it is a distinct recognition of this to be asked to read a paper before the national gathering of the master "dough mixers."

In buying a cough medicine, don't be afraid to get Chamberlain's Cough Remedy. There is no danger from it, and relief is sure to follow. Especially recommended for coughs, colds and whooping cough. Sold by C. E. Northcraft & Co.

FORTY BUSHELS AN ACRE.
Herington Farm Raised a Bumper Crop of Wheat.

Herington Times: So far as we are able to learn J. I. Kuter has the champion wheat yield for this section, but his average may be made to fade away as the threshing season advances. Mr. Kuter had a field of forty acres that made an average of forty bushels to the acre. He hauled in from the machine to the Ray Elevator where he sold it for \$1.00 a bushel, drawing his check at the end for \$1,600. The next highest average for the Herington vicinity was thirty-eight bushels.

Robert Ray, the elevator man, has kept close tab on the wheat movement and he tells us the average wheat yield for this section will be twenty-eight bushels. This is a wonderful yield and will place the farmers on easy street. During the month of July Mr. Ray paid out \$12,350 for wheat but this amount would have been doubled and then some had the weather continued favorable. Much moisture fell during the month, which has been a great hindrance to the threshing.

WILL ADDRESS THE BAKERS.
Dickinson Boy Has Been Given a Big Honor.

Henry Kohman, a university of Kansas student and resident of south Dickinson, who has been working on new methods of bread-making for the past two years, has been asked to read a paper before the national gathering of the National Master Baker association. Representatives of all the large bakeries of the United States and Canada will be present at this meeting.

Mr. Kohman will read a paper telling of the new salt rising bread yeast that he has discovered, that insures the dough rising every time and his paper will be one of the big topics of discussion at the convention.

Mr. Kohman has been doing some valuable work in studying the methods of bread making, and it is a distinct recognition of this to be asked to read a paper before the national gathering of the master "dough mixers."

In buying a cough medicine, don't be afraid to get Chamberlain's Cough Remedy. There is no danger from it, and relief is sure to follow. Especially recommended for coughs, colds and whooping cough. Sold by C. E. Northcraft & Co.

LEFT THE MOTHERLESS BOY ALL HER FORTUNE, \$14,000.
Mrs. S. V. R. Dawson Passed Away Friday Afternoon.

[From Saturday's Daily.]
Mrs. S. V. R. Dawson died Friday afternoon at 2:30 after an illness from cancer which an operation failed to check. A service was held at the home in northeast Abilene this morning and the body taken back to Mrs. Dawson's old home in eastern New York where it will be buried beside that of her husband who died here two years ago.

Mrs. Dawson was a sweet and charming woman whose education was thorough and whose tender heart won her the love of all who knew her. She and her husband came west some 20 years ago and lived on a farm southwest of town. Later they moved to this city where Mr. Dawson died.

They had no children and when about nine years ago Mrs. J. D. Haskell died leaving a four months' old boy baby, Mr. and Mrs. Dawson took the child as it seemed best for all that they should do. To the boy they have been as father and mother and when Mrs. Dawson passed away she left all their property to him—about \$14,000. The boy will make his home with his father, J. D. Haskell.

Many friends attended the service this morning which was conducted by Rev. J. A. Leussinger.

FORMER DICKINSONIAN HURT.
Injured Shoulder While Working in California Logging Camp.

R. I. Bossler, while working at Durney's logging camp near Sisson, California, last Tuesday dislocated his left shoulder. He was immediately taken to Sisson and received medical treatment. His shoulder is now much better and he expects to return to work in a short time. Mr. Bossler is a former Dickinson county man and his many friends will be sorry to hear of his mishap.

Wet at Carlton.
Carlton, Aug. 4.—Threshermen are again having a sorry time getting anything accomplished. Here of late by the time the shocks have dried enough in the morning, a shower stops the work for the rest of the day. It has even been difficult to get a stack of grain up occasionally. Such is what was once known as part of the Great American desert.
