

\$1000.00

Given for any substance injurious to health found in food resulting from the use of

Calumet Baking Powder

ABILENE WILL HAVE ONE.

Alfalfa Mill in Prospect With No Stock Selling.

It is reported on good authority that a capitalist who is convinced of the value of such institutions will put in an alfalfa mill at Abilene soon and build it himself, asking none to subscribe stock.

The Hoffman mill at Enterprise is handling 18 tons a day and a market is found for all that can be produced. The cutting method is used and the alfalfa is cut into small pieces instead of being ground. It is said to be more satisfactory than the other method.

Wanted Calves 1 to 3 weeks old. T. A. Rogers, R. F. D. 6. 21w3*

FREE LUNCH AT NOON.

JOHN RUBIN

E. E. HOFFMAN, Auctioneer.

WEIGHTS AND MEASURES MUST BE STRICTLY LEGAL.

New Law Requires Some Close Figuring by Dealers.

The lack of general information about the new weights and measures law is embarrassing because the grocer and retail merchant does not have ready access to the statute book. The following extracts from the law of 1909 were prepared by A. G. Pike, state food inspector, and will be of importance to everyone who sells or buys:

The following things must be sold by weight only, unless special contract or agreement shall be made to the contrary:

Table listing various commodities and their weights in lbs. per bushel, including Green Apples, Peaches, Barley, Corn Meal, Sweet Potatoes, Parsnips, Carrots, Buckwheat, Tomatoes, Beets, Rye, Kaffir Corn, Rice Corn, Shelled Corn, Potatoes, Beans, Wheat, Shelled Dried Peas, Onions, Turnips, Indian Corn, Dried Peaches, Dried Apples, Malt, Bran, Castor Beans, Salt, Unslaked Lime, Timothy Seed, Millet Seed, Sorghum Seed, Flax Seed, Clover Seed, Alfalfa Seed, Hemp Seed, Blue Grass Nt, Blue Grass Eng.

All dry commodities not in above list shall be sold only by standard dry measure—standard weight or numerical count—except where otherwise agreed upon.

A United States standard bushel is 18 1/4 inches in diameter and 8 inches deep, or 2,150.42 cubic inches; a United States standard peck is 537.80 cubic inches, a quart 67.20 cubic inches.

One gallon liquid measure is 235 cubic inches, a quart 57.75 cubic inches.

A loaf of bread shall be two pounds in weight. Bread, unless composed in chief part of rye or maize, shall be sold only in whole, half and quarter loaves and not otherwise. Bread when sold shall upon request of the buyer be weighed in his presence, and if found deficient in weight additional bread shall be delivered to make up the legal weight. Every loaf, half loaf or quarter loaf of bread which does not weigh the full weight required by this section shall be plainly labeled with the exact weight.

(Except that this section shall not apply to rolls or to fancy bread weighing less than one-quarter of a pound.)

Berries and small fruits whenever sold in boxes, shall be sold in boxes containing a standard dry quart or dry pint. If said boxes contain less than this amount the information must be given to the purchaser or such packages must be labeled with a statement of the net contents.

A print or package of butter shall contain sixteen ounces avoirdupois, and when a print or package of butter containing less than sixteen ounces avoirdupois shall be sold, its net weight shall be disclosed by the seller to the buyer or a statement of the net weight be made upon a label attached thereto.

All milk or cream that shall be sold in bottles shall be sold only in bottles containing half pints, pints, quarts, half gallons, and gallons.

A person who, by himself or by his servant or agent or as the servant or agent of another, uses a weight measure, balance or measuring device that is false and does not conform to the authorized standard, for determining the quantity of any commodity or article of merchandise, or sells or offers for sale commodities in a manner contrary to law shall be deemed guilty of a misdemeanor, etc. The fine is not less than \$5 nor more than \$100. He shall also be liable to the injured party in double the amount of the property wrongfully taken or not given and \$10 addition thereto, etc.

The selling and delivery of any commodity or article of merchandise shall be prima facie evidence of representation on the part of the vendor, that the quantity sold and delivered was the quantity bought by the vendee.

There shall be taken into consideration the usual and ordinary leakage, evaporation or waste, etc. A slight variation from stated weight, measure or quantity for individual packages is permissible provided it is an often above as below, etc.

The full law can be seen in the Kansas Session Laws of 1909 and it is time merchants were looking it up, as the state inspector for the board of health began to enforce same October 1st. They will charge a small fee (as law provides) for the testing of each weight and measure, etc.

The dry goods merchant will find that he can no longer measure off his goods on counter measure made by driving brass headed tacks in same, as it will not be allowed.

The groceryman must give full measure on correct scales.

The baker must give a full weight loaf of bread or mark same just what it weighs.

The butter man's print of butter must be 16 ounces net or be marked what the weight is.

The milkman's bottle of milk must be full measure. He cannot use a short measure bottle at all.

The berryman's box of berries must be full measure or marked what its contents is, etc.

ABILENE MAN DRAWS CLAIM.

C. F. Spidel's Number is 1012 Which Should be Good. Charles F. Spidel is the first Abilene man to draw a claim in the Indian reservation of Cheyenne River and Standing Rock. His name was drawn the first day and his number is 1012. It is considered that all claims below 2000 are valuable and Mr. Spidel considers himself fortunate.

HOW ADVERTISING PAYS.

'Reflector' Publicity a Money-Maker For this Farmer.

S. H. Lenhart of Acme believes in printer's ink, likewise he believes in putting an advertisement where the most people see it. He raised this year some wheat from pure seed and wanted to sell it for seed. He spent \$1.50 on an advertisement in the Reflector. 'The result,' said he, 'was ample. I have sold over 700 bushels of it at \$1.25 a bushel and the buyers came to the farm after it. It all came from the Reflector advertisement.'

RECEPTION FOR CLUB WOMEN.

Enterprise will Give Them an Interesting Program.

Enterprise, Oct. 28.—A public reception has been arranged for the meeting of the Fifth district federation of women's clubs next Wednesday evening. It will be at the home of Mr. and Mrs. C. Hoffman and the program is:

Vocal duet, Miss Herrmann, Mr. Peterson; Greeting, George Merrill; Greeting, E. N. A., Prof. D. L. Katterjohn; Songs, Mrs. Julia Short; Greeting from the Public Schools, Prof. O. L. Coleman; Greeting from the Conversation Club, Mrs. Catharine A. Hoffman; Response, Mrs. E. E. Porter, Marysville; Violin Solo, Miss Ruby Norman, Abilene; A Word from the Vice President, Mrs. Hattie Britt Hall; Songs, Miss Eula Grandberry; The Hearts that Yearn for Service, Mrs. William A. Johnston; Advice from the State President, Mrs. C. C. Goddard; Songs, Miss Ella Staats.

K. of P. is Active.

There is much more activity in lodge circles since the weather has changed to cooler and the evenings lengthened. The Knights of Pythias members are having good meetings and have elected 12 pages and 3 equires ready to take Knight ranks. They also have a dozen more applications in the hands of investigating committees. Chancellor Commander Garrett and his able assistants have their hands full and work every night is assured for the next two months.

Grand Chancellor R. V. Brokaw has ordered Deputy Grand Chancellor F. B. Glimps to Herington for special work. Grand Master of Exchequer F. A. Wilcox is in Vermont for a well earned vacation and is missed from the floor during rank work.

Forced Into Exile.

Wm. Upchurch of Glen Oak, Okla., was an exile from home. Mountain air, he thought, would cure a frightful lung-racking cough that had defied all remedies for two years. After six months he returned, death dogging his steps. 'Then I began to use Dr. King's New Discovery,' he writes, 'and after taking six bottles I am as well as ever.' It saves thousands yearly from desperate lung diseases. Infallible for coughs and colds. It dispels hoarseness and sore throat, Asthma, Croup, Whooping Cough, 50c and \$1.00. Trial bottle free, guaranteed by J. M. Gleissner.

WERE WEDDED AT WICHITA.

Abilene Young Man and Bride Have Reception This Evening.

(From Friday's Daily.)

Mr. Josse R. Engle and Miss LaRue Hornor were married at the home of the bride's parents in Wichita yesterday.

Miss Hornor who has for some years been an English teacher in the Wichita High School is of Quaker parentage and is a graduate of the Friends University in that city. She has made several visits to Abilene and has acquired a wide circle of friends here.

Mr. Engle is a son of Bishop Josse Engle. He completed the local high school course, graduated from Emporia College and is now in business in Denver.

A reception is given in their honor tonight at the home of Mr. Engle's mother, corner 8th and Kuney. They leave for Denver tonight assured of the good wishes of a host of Abilene friends.

MARSHAL SAVED HER.

Chapman Officer Did Good Deed for Girl.

On last Saturday morning a young girl about 16 years of age landed in our city on the local, and was wandering around town, when Marshal Banning's attention was called to her. Mr. Banning having a card from the Sheriff of Wakeney with the description of a young girl wanted at that place, began to question this girl, at first she refused to give her name or address but after being put under arrest she soon told who she was and where she was from. He at once phoned to Ellsworth to the sheriff of that place and found that three young girls had formed a plot to leave and only one got away. The young lady whose name is Whipple thanked Mr. Banning for the way he had treated her by arresting her and returning her to her people who were also more than grateful to him, for no telling what a few more days would have brought forth.—Chapman Advertiser.

HIGH SCHOOL NOTES.

Miss Galloway, our English teacher, gave several readings in chapel Monday. Among them were 'John Smith U. S. A.' and 'The Call of Kansas.' They were enjoyed by all.

Miss Beesie Hoffman of Enterprise visited high school Tuesday.

An industrious chemistry student while trying an experiment the other day burnt one of his fingers on a glass test tube. He started the whole class and made the air blue when he let out this exclamation, 'Wow—burnt my lunch book!'

Miss Stewart read an interesting article, 'Immigration to the United States,' in chapel Thursday morning which was appreciated by the students. The article pointed out the causes and results of the many immigrants daily landing in the United States.

Miss Grazella Pulver was on the sick list this week.

The Juniors finished studying 'The Flight of the Tartar Tribe' this week.

Miss Leah Lightner visited high school Friday, the guest of Miss Marie Nuss.

FOR STOMACH AGONY.

Ask J. M. Gleissner About Mi-o-na, it Gives Relief in Five Minutes.

He will tell you that he guarantees Mi-o-na to relieve promptly and cure permanently all diseases of the stomach and indigestion, or he will return your money.

Have you gas on stomach? One Mi-o-na tablet and the misery is ended.

Are you bilious, dizzy or nervous? Mi-o-na tablets will put you right in a day; give relief in 10 minutes.

Now, dear reader, don't go on suffering with stomach trouble. Be fair to yourself; throw aside prejudice and try Mi-o-na. It is a great doctor's prescription. No doctor ever wrote a better one.

And money back from J. M. Gleissner if you don't say Mi-o-na is worth its weight in gold. Sold by leading druggists everywhere but in Abilene by J. M. Gleissner. 50 cents a large box. Test sample free from Booth's Mi-o-na, Buffalo, N. Y.

Mrs. Mary Hutchinson says: 'Pains and distress in my stomach and a general stomach complaint was entirely cured for me by the use of two boxes of Mi-o-na, and I have no hesitation in recommending its use.' 508 Pearl street, Ypsilanti, Mich., December 19, 1909.

Drive out or money back. Just breathe it in. Complete outfit, including inhaler \$1. Extra bottles 50c. Druggists.

Almost as Quick as a Gas Stove

If you are going to cook a steak, Mrs. House-keeper, you want a quick, brisk fire, don't you?

And you want it right away—you don't care to let the rest of the meal get cold while you wait for the fire to burn up.

Well, here's a range that will give you a quick, hot fire without waiting.

And when you are through you can bank it down and save your fuel.

Because you have perfect control of the fire-box.

The Monarch Range is so tightly constructed that no 'air-leaks' can get in to make your fire slow when you are in a hurry.

The Duplex Draft, which lets in a current of air from each end of the fire-box, makes the fire burn evenly and regularly. One handle operates both damper doors at the same time, and you can open them as much or as little as your fire calls for.

So when you want a quick fire you get it, with-

MINICK & TAYLOR

LARGEST MONUMENT IN PLACE.

Jacob Brown Puts 24-Ton Stone on Lot.

The Abilene Monument Co., under the management of Jay and Harry Harding has just completed placing on the cemetery lot of Jacob Brown the largest monument in Abilene cemetery. It is of Barre, Vt., gray granite and in three places, each weighing eight tons. The pieces were taken to the cemetery on heavy trucks drawn by a traction engine. Two of the sections lie end to end across the full length of the lot, 24 feet, the other forms the monument proper. The horizontal pieces have names paneled in the stone opposite the graves. It is an imposing memorial.

OFFICERS WERE SCARED.

When Guns Were Pulled These Robbers Escaped.

Herington, Oct. 28.—Sunday morning the sheriff of Marion county, the city marshal of Marion and a number of others were in town early in search of a couple of robbers. The robbers, two well dressed young men, had stolen an overcoat at Peabody, a necklace and \$37 in money from a hotel in Marion.

At Lost Springs the posse got the robbers in close quarters and took several shots at them, and it is thought one of the offenders was slightly wounded. But they got away and walked to Herington. Early in the morning, before daylight, they were discovered near the Missouri Pacific track and several shots were again directed toward the robbers. They again escaped and have not been seen since. The Marion posse left for home Sunday noon.

Overland and Cadillac Tied.

Junction City Sentinel: G. H. Flower, driving an Overland and C. C. Shoffner, driving a Cadillac, finished the Lyric Cup Run to Hutchinson and returned with the same scores, .980. They are therefore tied for the Lyric cup and will have to run off the tie before it can be decided to whom it shall be awarded for 1909. A decision as to when and how the tie shall be run off will be reached at a meeting of the Junction City Automobile Club either tonight or tomorrow night.

At Abilene and Herington several local motorists were out in their cars to show the cup chasers some court-tes. But there wasn't much doing at Salina. However, Salina was only a little way station on the route of the run, anyway.

P. H. Gfeller, the winner of the Lyric cup last year, had hard luck yesterday, losing a burr which let a rod down and he reached the noon control with the rod dragging.

Only One Perfect Score.

Sixteen of the 18 cars that made the motor run from Salina to Hays City returned to Salina at 4 p. m. yesterday. The Velle was the only car with a perfect score. Two cars were laid up at Ellsworth until today.

Baby won't suffer five minutes with croup if you apply Dr. Thomas' Electric Oil at once. It acts like magic.

out loss of time or fuel. It doesn't take much longer than a gas range.

The reason you can't do this with the old fashioned steel range is that the seams in such a range open up from the expansion and contraction of heat and cold, and let in the outside air to deaden the fire.

In the Monarch, the sides are cold-riveted to Malleable Iron frames extending all through the range. There are Malleable Iron frames around each opening—the Draft Doors, Pouch Feed Door, Ash Door, etc.

So the Monarch remains tight as long as you use it—it is the real 'stay-satisfactory' range.

A \$1.00 Cook Book Free

The Monarch Cook Book, written by Mrs. Helen May Thomson, an acknowledged authority on domestic science is a Real Book, not a cheap circular, 144 pages bound in cloth on board covers—a book that would cost \$1.00 at the book store.

It contains 500 recipes, many of them new, all simple, easy to make and inexpensive.

Has practical menus for the whole year and many valuable hints on diet and marketing.

You can get it without cost if you intend buying a range or cook stove within a year.

HOW TO GET IT. Cut out this advertisement, mail it to the Malleable Iron Range Company, Beaver Dam, Wis., and tell them you want the book (stating month if possible) you expect to buy and you will secure this valuable book free. As the edition is limited, write now.

DUNKARD BRETHREN HAD DISTRICT SESSION AT NAVARRE.

Meetings Well Attended and Good Interest Maintained.

Navarre, Oct. 30.—This town has had the opportunity of entertaining a church conference, which was, compared to the size of the town, a thing of no small importance. The church of the Brethren (Dunkards) have just closed a three days' conference, which represented some of the strongest men and women, the active church workers and delegates, of that church from the northeast quarter of Kansas, which is called the northeast District of Kansas Conference.

A strong delegation were in representation in the meeting throughout, and the spirit of the meeting was fine. The work of the conference moved on along three different lines. 1st. The Sunday school convention which lasted Sunday and Monday morning. The improved methods that were suggested and the admonitions to greater consecration bespeak an awakened area in Sunday school work. Our beloved State Sunday School Secretary and fellow citizen of this county was with us to give suggestions and inspiration in his own able way. The county Sunday school superintendent was also with us.

Monday afternoon the ministers, pastors and elders held a ministerial meeting, an open session, which was quite helpful to all. Especially the ministry. Monday evening a strong missionary sermon was preached by Rev. J. R. Frantz of Beattie, Kan.

Tuesday the district conference proper was organized with Elder Geo. Manon of this county moderator. This conference handles queries and problems of the different churches. It also called for our general conference to be held in Topeka or Kansas City as shall be decided hereafter in 1911.

But to mention the pleasing and helpful features of this meeting and forget the hospitality of the neighbors and friends as well as the resident members, would be to forget the one thing that, from a human standpoint, did most to make the meeting enjoyable. So with the greatest of pleasure we present to the readers of the Reflector our resolutions of thanks:

'Inasmuch as it has pleased our Heavenly Father to again permit us to enjoy another District Meeting, be it therefore resolved:

First, That we be very grateful to our Divine Father for the spiritual uplift and inspiration we have received during these hallowed associations.

Second, To those who so kindly and successfully ministered to our wants on the dining hall.

Third, To the members and friends in and around Navarre who opened their hearts and houses to us, and who by their kind hospitality made it possible for us to enjoy this feast of soul.—E. F. Sherry.

When a cold becomes settled in the system, it will take several days' treatment to cure it, and the best remedy to use is Chamberlain's Cough Remedy. It will cure quicker than any other, and also leaves the system in a natural and healthy condition. Sold by C. E. Northcraft & Co.
