EASTER Sunday to pass without a new Bonnet or new Suit would certainly not be right. You would never forgive yourself without a new suit if you let it pass. This is the coming out day. This is the day you want to go to church and be seen in a new Suit or new Hat. Our store is now brim full with all the rich designs that high art can produce. We visited the world's great markets to get the best for your close inspection and we now have it to show you. We feel so good over our assortment we want to tell you about it. You are as much interested in this store as we are. You want this store to succeed. You are our partner. You have an interest in this store. Every dollar you buy makes you a bigger stockholder. Our boys' department never was in better shape for to supply the little man with new things. We like the boys. They like us. Boys get to be men, wear better clothes and more of them.
