Maxwell 35-4
\$1085.00 F. O. B. Abilene

You need not wait to buy an up to date car. The Maxwell 35-4 makes it a real extravagance for the practical buyer to go above the "thousand dollar class" to get the service he wants. This car is a big, roomy five-passenger car with a powerful long stroke motor, left hand drive, center control, and many other features we would like to call your special attention to, but will say it is a car without one single weak point.

North Buckeye Abilene, Kansas

(First published in Abilene Weekly Reflector July 31, 1913.)

NOTICE.

In the District Court of Dickinson County, State of Kansas.

ANNA WINTERS, Plaintiff,
vs.
EDWARD WINTERS, Defendant.

To the above named defendant, Edward Winters:
You are hereby notified that you have been sued in the district court of Dickinson county, state of Kansas, by said plaintiff Anna Winters who filed her petition in said court on the 24th day of July, A. D. 1913, wherein she asks for a divorce from you on the ground of extreme cruelty and gross neglect of duty; that unless you answer or demur to said petition on or before the 12th day of September, A. D. 1913, said petition will be taken as true and said plaintiff will be granted a divorce from you as prayed for in said petition.

ANNA WINTERS, Plaintiff,
By S. S. Smith, Her Attorney. 31

(First published in Abilene Weekly Reflector, July 24, 1913.)

NOTICE.

In the District Court of Dickinson County, state of Kansas.

In the matter of the assignment of the Acme Creamery Association.

To all persons interested:

You are hereby notified that the undersigned assignee of said The Acme Creamery Association will make application to said court on Monday, the 8th day of September, 1913, or as soon thereafter as the hearing can be had, for a discharge from his trust as such assignee, at which time he will file his petition in said court for such discharge, setting forth the disposition made of him of the assets of the assignment, what portions then remain on and their condition, the amount realized from the assets, the particular disposition of such amount, the demands allowed giving their respective amounts and owners' names, and the sums paid on each, accompanied by all vouchers thereon connected.

The K. S. A. C. Catalogue.

As the big college gets bigger, the catalogue gets bigger. This office has just received a copy of the Kansas agricultural college catalog, a really big book of 367 pages. It announces a division of work into a secondary school, or school of agriculture and a college of agriculture and engineering. The school of agriculture includes three-year courses in agriculture, mechanic arts and home economics. Students are admitted into these courses on certificate of the common school or grammar school work.

The standard for the college proper has been raised and now students are not admitted regularly into the college courses until they have completed the equivalent of a good strong high school course. Altogether the college offers only vocational courses—agriculture, mechanic arts or engineering, home economics and veterinary medicine, and offers opportunities both for the young people just from the common school and for the graduates of high schools and normal schools.

This catalogue will be sent free on request to President H. J. Waters, Manhattan, Kansas, box 6.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. Cheney & Co., Toledo, Ohio.
Sold by all druggists, 75c.
Take Hall's Family Pills for constipation.

Beautiful women everywhere owe their matchless loveliness to the use of HOLLISTER'S ROCKY MOUNTAIN TEA. Plain women made attractive by this great remedy. 35 cents. Tea or Tablets. J. M. Gleissner & Son.

DOCTOR MERA TELLS CHILDREN ABOUT BIRDS

The treat promised at the library yesterday morning was certainly given in full measure to an audience of eighty-five.

Doctor Mera told the story of birds in a manner entertaining alike to adults and to children. Beginning with the Kansas of millions of years ago when a vast lake with small outcroppings of land and many jumping lizards, he traced the gradual ascent of the bird to the many species of today. In an easy conversational way enlivened by humor, he introduced robin redbreast and his cousin bluebird, the thieving family of crow and blue jay, and other prominent native and visiting families.

He told of the sky highways, always the same ones, traversed year after year by migrator birds, and of the habits of some of these. He told of the peculiar habits of birds, wisdom of some, stupidity of others; of the different methods of rearing families, of the shiftless cowbird so busy with clubs and social duties she fails to provide a home and steals room for her baby in the nest of another, of the lazy turtle dove with her carelessly built nest, and of such painstaking homemakers as the orioles.

He described eggs of different birds, giving reasons for the various shapes and colors; he called attention to ways of testing the habits and instincts of birds; he gave interesting stories of individual birds, and advised the careful protection of these benefactors of man, citing the statement of an eminent scientist that if all birds were killed all animal and vegetable life of the world would soon be extinct. Dr. Mera realized that young minds cannot be long kept to one line of thought and gave frequent new starting points of interest. If the story as spoken was published it would be the book most in demand in our library.—Contributed.

UNION PACIFIC TO RUN ALFALFA-FORAGE SPECIAL.

An alfalfa and forage special train will be run on the Union Pacific through Kansas, starting from Bunker Hill on September 15. The train will be under the direction of Prof. G. L. Holden of Chicago, who will have with him three demonstrators from the Kansas state agricultural college and a staff of experts.

The train will stop at the stations where the farmers have shown an interest in the subjects of alfalfa and forage. If a certain number of the farmers living in and near a station sign an invitation blank, the train will stop and the lecturers will give a series of talks, usually six. These talks and demonstrations will be given not only from the train but in a nearby hall and on farms adjoining the towns. The men will go to the farms in automobiles where practical tests and demonstrations of the value of alfalfa and other forage material farm products will be shown. Kaffir corn, milo maize, sorghums, silos and dairying will receive their share of attention.

It is expected that twenty-five persons will go on the train, which will be made up of six cars.

GOOD FELLOWS ARE THE SOLOMON FOLKS

Solomon Trilene: W. H. Watkins, who was moving from Junction City to New Cambria Saturday, had a streak of bad luck when he hit Solomon. While driving through main street one of his horses was suddenly taken sick and died before the harness could be removed. Mr. Watkins was not financially able to buy another horse to continue the journey and a collection was taken up for this purpose. Nearly \$50 was raised in about fifteen minutes. Mr. Watkins can be thankful that the animal died in town.

Loss of Appetite is commonly gradual; one dish after another is set aside. It is one of the first indications that the system is running down, and there is nothing else so good for it as cod's liver-oil—parilla—the best of all tonics.

PLENTY OF SAND SPRINGS

No Change in Volume—Million Gallons Pumped Daily.

While streams, springs and wells all over the county, and even the state, are drying, and dozens of towns are facing water famines, Sand Springs continues to flow without a noticeable variation.

During the 24 hours of yesterday 933,000 gallons of water were pumped, and there was plenty more. For the past two weeks the consumption has averaged between 900,000 and a million gallons daily.

Numerous people have expressed fears that the spring was diminishing in volume. "There is not a bit of change," said Dorie Sherman, the engineer. "Water flows in just as it always has, and always will. When we start the pumps we lower the water in the well about six feet, after that it remains on a level, with the pumps going at full speed."

The government water gauge at Sand Springs shows the river to be six inches below normal water level. It is usually from four to eight feet above, and it has not reached the present low stage before in a decade. Sand bars all along the river are protruding.

Mud creek is dry from Fifth street north, except in places, and the rest of it is drying rapidly. The little creek west of town in the sand hills is dry for the first time. "In all the time I have lived in the sand hills I never saw it dry before," said A. W. Hargraves, through whose farm it runs. The stream is fed by springs and these have dried.

YOUTHS ARE WALKING ACROSS THE CONTINENT

H. C. Haines and Harold Miller, two young men from Shamokin, Pa., passed over the Freak Highway today bound for San Francisco. They left Shamokin June 9, and have walked 1367 miles. They expect to reach Frisco by November 1st. "We are just walking to see the country," Miller said. They carry clothes and camping paraphernalia on a push cart mounted on bicycle wheels.

Death of T. A. Slaymaker.

Thomas A. Slaymaker, a former resident of Herington, died Sunday night at his home at 2923 Brooklyn avenue in Kansas City. He had been a commission salesman at the stock yards since he went there from Herington in 1907.

He was 79 years old and was an old resident of Kansas, having moved to Peabody in 1878 from Lancaster county, Pa. The funeral services were held in Peabody last Tuesday.—Herington Sun.

C. W. B. M. Met.

The C. W. B. M. of the Christian church held an evening meeting this month. It occurred at the home of S. W. Campbell last night. The program was given by the men, L. C. Snare being in charge. William Campbell gave a sketch of the lives of two pioneer missionaries in Liberia, and I. B. Martin reviewed a part of Kinney's book on Mormonism. A quartette composed of Messrs. Martin, Snare, Rhodes and Lomax sang a selection. Ice cream and cake were served to the people present.

CAN YOU DOUBT IT?

When the Proof Can Be So Easily Investigated.

When so many grateful citizens of Abilene testify to benefit derived from Doan's Kidney Pills, can you doubt the evidence? The proof is not far away—it is almost at your door. Read what a resident of Abilene says about Doan's Kidney Pills. Can you demand more convincing testimony?

Mrs. A. L. Smith, 508 W. Sixth street, Abilene, Kan., says: "Doan's Kidney Pills have been used in our family for many years and we consider them an ideal kidney medicine. My back ached almost constantly and my kidneys were in bad shape. Doan's Kidney Pills, which I procured from C. E. Northcraft & Co.'s drug store removed these troubles and my kidneys became normal. Another of my family also took Doan's Kidney Pills when suffering from backache and the results were of the best. I am glad to confirm the statement I gave, regarding this remedy some years ago."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Children Cry FOR FLETCHER'S CASTORIA

Once Upon a Time

ONCE there was really no way out of it for the farmer. Plodding home from the field with his team at close of day, he saw before him the waiting small jobs about the house, barn, and yard, jobs that took time and labor, and never seemed to end. There was water to be pumped, wood to be sawed, various machines to be run by hand. It was a dreary prospect—but that was once upon a time. Today he lets the engine do it.

Buy from the I H C engine line. I H C engines are built right and consistently all through, to work efficiently for years. Whether you want it for sawing, pumping, spraying, electric light plant, for running separator, or repair shop, or for all sorts of tiresome energy-wasting small farm jobs, you have need of an

I H C Oil and Gas Engine

An I H C engine will develop from ten to thirty per cent more than its rated capacity. Perfect combustion makes it economical in fuel consumption. Its simplicity makes it practically trouble-proof.

I H C engines are built in vertical, horizontal, stationary, portable, skidded, air-cooled and water-cooled styles. The line includes sawing, pumping and spraying outfits. Sizes from 1 to 50-horse power. They operate on gas, gasoline, kerosene, naphtha, distillate and alcohol. I H C oil tractors range in size from 6-12 to 30-60-horse power, for plowing, threshing, etc.

Have the I H C local dealer demonstrate the engine to you and explain its various points. Get catalogues from him, or write the

International Harvester Company of America
(Incorporated)
Topeka Kans.

GOLDEN BELT TOURISTS TO HAVE GOOD COLORADO ROADS

A sum approximating \$1,000,000 is being spent in Colorado this year along two routes proposed for the Lincoln Highway, according to an announcement just made by T. J. Ehrhart, state highway commissioner. Great impetus has been given good roads work there owing to the recent visit of the Indiana Automobile Manufacturers' association and the stirring addresses of Former Mayor Bookwalter of Indianapolis to further the Lincoln Highway.

"Assuming that the highway run along the road from Burlington, connecting with the Golden Belt road, to Limon, Colorado Springs, Denver and over Berthoud pass and thence to Glenwood Springs, Grand Junction and the Utah line, twelve counties have been allotted \$98,800 by the state to be met by an equal amount from the counties which will make an appropriation total close to \$180,000," said Mr. Ehrhart.

"There is another line of road which leaves Colorado Springs and goes through Teller county and up over the Tennessee pass, meeting the first named road at Walcott. On this line of road there are eight counties for which \$62,500 has been allotted and to which the counties will add an equal amount, of a total of \$235,000. This money is to be spent in grading, drainage, bridges, culverts and surfacing."

"Altogether there has been disbursed by the state highway commission about \$530,000, which will require an expenditure by the counties of nearly \$500,000, or an aggregate of \$1,000,000 for the season."

This will be good news to folks along the Golden Belt which is the direct road to Colorado from Kansas.

Kubach's "Benefit" a Hummer.

Having given everybody else a benefit Gus Kubach held one for himself last night and the air dome was filled with friends of its popular manager. Mr. Kubach has done more for public enterprises than any person in town this year and deserved the appreciation shown.

The Best Pain Killer.

Bucklen's Arnica Salve when applied to a cut, bruise, sprain, burn or scald, or other injury of the skin will immediately remove all pain. E. E. Chamberlain of Clinton, Mo., says: "It robs cuts and other injuries of their terrors. As a healing remedy its equal don't exist." Will be good for you. Only 5c at J. M. Gleissner & Son's.

HEAT AND DROUTH ARE WORST EVER RECORDED

The heat and drouth in central Kansas are the worst on record. Wells and springs are dry that have always produced plenty in times past. Dozens of farmers over the county are boring new wells, and hauling water from their more fortunate neighbors. Every day a dozen or more carry Sand Springs to their farms.

Following is the heat record, tabulated from a reliable thermometer: August 8, 107; 7, 106; 6, 108; 5, 107; 4, 104; 3, 103; July 30, 103; 29, 102; 27, 102; 26, 103; 22, 101; 17, 105; 16, 103; 15, 109; 14, 109; 13, 105; 9, 100; 8, 110; 7, 106; 6, 106; 5, 100; 4, 101; June 25, 102; May 31, 100; 30, 104; 29, 105; 28, 102.

WOMAN TOOK FRIEND'S ADVICE

And Found Health in Lydia E. Pinkham's Vegetable Compound.

Windom, Kansas.—"I had a displacement which caused bladder trouble and I was so miserable I didn't know what to do. I suffered from bearing down pains, my eyes hurt me, I was nervous, dizzy and irregular and had female weakness. I spent money on doctors but got worse all the time.

"A friend told me about the Pinkham remedies and I took Lydia E. Pinkham's Vegetable Compound and was cured. I cannot praise your remedies enough for I know I never would have been well if I had not taken it."—Miss MARY A. HORNER, Route No. 2, Box 41, Windom, Kansas.

Consider Well This Advice.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for nearly forty years proved to be a most valuable tonic and invigorator of the female organism. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

If you want special advice write to Lydia E. Pinkham Medicine Co. (consultants) Lynn, Mass. Your letter will be answered, read and answered by a woman who has held in strict confidence.
