### WON THE SUIT.

Messrs. Crutcher & Starks become the Purchasers of Oak Hall.

The suit of Kleinhans & Simonson against Samuel H. Jones, of Philadelphia and others, seeking to enforce a contract for the purchase of the Oak Hall property at the corner of Fourth and Jefferson streets, Louisville, was decided in the United States Court in that city Tuesday morning by Judge Barr in favor of the defendant. Kleinhans & Simonson entered into a contract with Dr. Pope,

Jones' agent, to buy the property for \$120,000. Dr. Pope submitted the offer by telegraph, to Jones, who accepted the terms mentioned. Subsequently a contract in writing was drawn up at Louisville, which, however, differed with the contract communicated by telegraph, principally in that a commission was provided for John A. Stratton & Co., the real-estate agents. Jones then refused to deliver a deed to the property and subsequently sold it to Messrs. Crutcher & Starks. Kleinhans & Simonson's suit for breach of contract followed. Messrs. Crutcher & Starks will tear down the old building and erect a handsome new structure in its place in a short time.

Increased \$100,000.

Senators Lindsay and Blackburn have succeeded in getting the appropriation for the improvement of the Kentucky river in the River and Harbor bill increased from \$100,000 to \$200,000, and the bill has been reported to the Senate with the increased amount in it. The Senators will doubtless have no trouble in making the amendment stick in the bill until it goes back to the House, where Gov. McCreary and Col. Al. Berry will see after it. With this increased amount lock and dam No. 7 should be gotten well under way this season.

A Breeder of Disease.

We called attention to the fact several weeks ago that the imperfectly constructed sewer running south on Main street from the intersection of Third, South Frankfort, would prove a pestilence breeder, as it has no traps or catch basins and is scarcely covered with earth in many places. At the time we wrote the former item a gentleman in the immediate vicinity was suffering from an attack

of typhoid fever, and now a bright blue-eyed little girl is dangerously ill with diphtheria just across the street from where foul gases are continually issuing from the mouth of this sewer. Diphtheria is known to be one of the most fatal as well as most contagious of diseases to which children are subject, and within the distance of a block east and west from the point named there are fully twenty-five children living. It seems to us prompt action should at once be taken to abate this nuisance before this dreadful disease begins to spread and the lives of all the little ones in that section of the city be endangered.

## SYRUP OF FIGS
