Premier Bryan.

The President has selected a very strong body of men as advisors. His Cabinet is made up of the party's greatest men and chosen for each man's fitness for the portfolio he is to handle.

Listen! Why EASTER will soon be here.

Merry Easter will soon demand Merry attire. Bloom out in a new Easter outfit--we've got the goods--and you will be happy.

The first principle of our business is to please our customers, not only when they buy our goods, but when they wear them.

We want to urge our friends to urge their friends to come to our store. Then our upgrade goods and our low prices will urge them to buy and become, for a life-time, our business friends

John R. Gibson & Co. Telephone 500

We do not believe, however, that Mr. Bryan will remain long in the Cabinet. He can't afford it. He can make five times as much a year as his salary of \$12,000, with his tongue and pen, and like the rest of us, Mr. Bryan is not averse to filthy lucre.

His appointment was a natural one and he did not care to cast aside the great honor. But mark the prediction: He will resign in less than six months or by the time the Chautauqua season gets busy, when he will be a greater drawing card than ever.

Rocks That Wrecked The Party.

Whatever niche of fame history will allot to William Howard Taft, it is popular today to call him a failure. The New York World in a brief summary of the good and ill of his administration, says his failure to veto the Payne Aldrich tariff law was the initial error that caused most of his party's troubles.

"Reduced to the fewest terms," says the World, "the fate of the republican party may be attributed to privilege, plutocracy and personal government.

These are the rocks on which it went to pieces. Mr. Taft contended greatly to the result by his inability to perceive that the time had come to cut off monopolistic taxation. Mr. Roosevelt and his associates must accept whatever responsibility attaches to the deliberate wrecking of a party for revengeful and selfish ends.

"Democrats may study this record with profit. They will find much to emulate and not a little to avoid. They also have their stand-patters and plutocrats. They also have their turbulent leaders, eager for power and crazy for violence. The forces that have humiliated the republicans in spite of much good service will unfailingly undo the democrats, if given the upper hand."

Editor ALVORSON, of the Anderson News, comes back at us with a broadside that paralyzes us. In fact, we have been helpless since we read his scathing, vitriolic, bombastic effort. It was terrible; it was philippic; it was burning. We stirred up a hornet's nest and as a result we were "stung." Experience is a great though harsh teacher, and we have profited by ours. No more shall we tickle the hind heels of a male porcupine or our cheek a deadly rattler. The burnt child dreads the fire and we are compelled to admit that we were badly scorched. Forgive our egregious error, "Senator," and we promise never again to molest you, but on the contrary, our "disance" will be used in getting you more pie. We are sure that nothing would please you better. An avowal and--eat!

We are very glad to learn that Judge Wilkes H. Morgan and County Attorney Frank Rippe, of Anderson, have withdrawn their damage suits against Eloit or J. M. Alverson, of the Anderson News. The latter published a card showing that he had been misinformed as to the article he published and to which the gentlemen objected, and now the dove of peace hovers over the town. All of the gentlemen did the right thing. If Editor Alverson had good reason to believe that what he published was true, he should not be censured for giving it to the public. Finding he was wrong, he did the amenable thing by admitting his error. When he did this, Judge Morgan and Attorney Rippe showed themselves to be men of the right sort by withdrawing their suits and accepting his apology.

We are asked by the Anderson News if we are for Gov. McCrory for Senator. Let your boots, Mr. Alverson, we are. The Climax always supports Madison county men, when she offers good ones, and that she always does. We have not asked the governor to run, however, because that is not our business. We are not a political party. And, too, the editor of the Climax would not under any circumstances be a father to the crime of advising any person to either get in or stay in politics. He has seen too many good men ruined by the political game.

The Interior Journal has this to say about the candidacy of Mr. A. D. Miller, the president of the Climax Printing Co., for Representative of Madison county:

"Representative L. B. Herrington has declined to make the race for re-election. Now if the democrats of Madison county will get behind A. D. Miller and elect him by acclamation, they will have a representative who will reflect honor on this good county in every way."

William R. Wilson, Secretary of Labor, who was urged by Standard Oil for the Cabinet position to which he has been appointed, states that his policy will be to attempt to bring capital and labor together through conferences to settle labor disputes.

The order of Temple was conferred on Bourbon Current by Richmond Commandery, No. 19, the other night. Work of a similar kind will be done in the lodge on the 25, when an inspection officer will be present. After the work is completed a banquet will be enjoyed.

The Richmond Climax states that Dr. E. H. Brandon is dangerously ill at his home in this city. This is news to his many friends who greet him daily on our streets and are struck by his erect bearing and evident vigorous health for a man of four score.

The Climax of this city, in error this time and is glad of it, although we considered the news, at the time authentic. We hope the splendid old gentleman will be spared for many more years to walk the streets of his adopted city and that his bearing will be just as erect and his health just as vigorous when he reaches the century mark.
