

THE CROP OUTLOOK.

Weather Conditions the Past Week Unfavorable to Agricultural Interests.

[Weekly Weather-Crop Bulletin.]

The weather conditions of the past week have, upon the whole, been unfavorable to agricultural interests. The intensity of the heat was almost without precedent for this season of the year, the average maximum of the State for the week being above 90°. The sky was practically cloudless, no rain, except a few scattered showers, being reported. These conditions have had the effect of injuring the prospects for all crops which are still unharvested. While the complaints of drouth are general in all sections of the State, the greatest damage appears to have occurred in the central and eastern counties, where, in some localities, very serious injury has been reported. The western sections, especially in the bottom lands, have suffered only slightly, and the crops in that portion of the State will nearly fulfill earlier anticipations, while in the eastern and northern counties it is probable that they will fall short of the expectations of some weeks ago.

The reports received this week regarding the effect of weather conditions upon corn are somewhat conflicting. A majority of correspondents state that the late crop is rapidly reaching maturity and that the outlook was never better, but many, especially those in the central and eastern districts, report serious injury from drouth. The correspondent in Fayette county states that the early crop is good, but that the drouth has nearly ruined a larger portion of the later corn, which he states is of poor quality, chaffy and light. It is believed that this fairly represents the condition of the crop in Fayette and contiguous counties. Cutting is progressing rapidly in all sections of the State.

Tobacco cutting is in full progress in the western portion of the State, and is about completed in other portions. The crop generally has not been seriously affected by the drouth, since the greater portion of it had reached an advanced stage of growth before the need of rain was begun to be felt. Reports regarding the crop are generally favorable, and much of it is already housed. Some damage is reported from chinch bugs in Crittendon County.

Pastures and grasses of all kinds have suffered severely from the drouth, and those upon the uplands are practically burnt up. The lowland pastures in the western portions of the State are still in fair condition, but in all other sections they are very poor, and the condition of stock is therefore low. Much complaint of the scarcity of water for stock is made, and many creeks and springs which have furnished a plentiful supply for many years are now nearly dry.

The drouth has caused a practical suspension of the work of plowing and seeding, the soil being dry and dusty.

Irish potatoes have not suffered materially in the greater portion of the State, and the late crop is generally reported to be in good condition.

Late garden products are not, as a rule, in the best condition, and crops are reported as being from poor to fair.

Cabbages are bursting and rotting, from the combined effects of heat and dry weather.

Good, soaking rains are badly needed for all crops which are as yet unharvested, and also to prepare the soil for fall plowing and seeding.

ROCK-RIBBED WORK.

On the Cincinnati Division of the C. and O.

[Times-Star.]

President Ingalls said in his annual report a year ago that it was proposed for some time to come to put all the surplus earnings of the C. and O. over fixed charges into betterments, and that policy has been vigorously carried out the past year.

Some remarkable work is being done on the Cincinnati division getting the road-bed into shape for the laying of the new 100-pound rails. An instance of this is to be seen near Augusta, where the course of a creek has been changed to prevent any wash of the embankment, and a magnificent arched culvert, sufficient to carry off the water at any stage of flood, has been put in. Great stone, tons in weight, have been used making the structure as solid as the hills.

Then at Maysville, from Market to Wall streets, three squares, a great retaining wall of Stone City freestone is being built in place of the old trestle along the river front.

The 100-pound rail is being laid as fast as possible and when that is done the Cincinnati division will not be excelled in the world and will be equipped for the faster schedules of the already notably fast and reliable C. and O.

It May Do As Much For You.

Mr. Fred Miller, of Irving, Ill., writes that he had a severe kidney trouble for many years, with severe pains in his back and also that his bladder was affected. He tried many so called kidney cures but without any good result. About a year ago he began use of Electric Bitters and found relief at once. Electric Bitters is especially adapted to cure of all kidney and liver troubles and often gives almost instant relief. One trial will prove our statement. Price only 50c. At J. James Wood's drug store.

Good for nothing

did you say?
Yes, that describes how I feel.
I have no energy left, nothing interests me.
My strength has left me and I have no inclination to work.
No one would take me for the same person that I used to be.
I look and feel forlorn and miserable.
My spirits are low, I feel despondent and I can't sleep at night.
I am constipated and my digestion is out of order.
I feel almost hopeless, it seems to me that I shall never be strong again.
Cheer up, your case is far from being hopeless. You are suffering from general debility, your nerves need toning up, you lack vitality. The cure lies in enriching and purifying your blood and strengthening the system. You should take **Brown's Iron Bitters.** It will restore you to robust, perfect health. You will improve from the first bottle: This remedy is pleasant to take and is a very powerful strengthener. It does not stain the teeth. But get the genuine—see the crossed red lines on wrapper.

PISTOL AND KNIVES.

They Figure in a Tragedy at Berlin, Bracken County.

Bracken County comes to the front with another killing.

In a fight at Berlin Jasper Sharp shot George McClanahan and his wife, badly wounding the former and instantly killing the latter.

The trouble grew out of an alleged intimacy between Sharp and a daughter of McClanahan.

McClanahan and his wife were both armed with knives and Sharp is dangerously cut in several places.

This order will be strictly enforced, and parents will make a note of it.

Two thousand five hundred invitations have been issued and if children were admitted, the Masonic Temple would be crowded to suffocation.

It was further ordered that the Sir Knights must come in full Templar uniform, consisting of coat, chapeau and belt—no swords.

The Knights will comply with this order out of respect to the Most Eminent Grand Master, and the visiting commanders and other fraternities that will be present.

PETE STEVENSON JAILED.

Wanted for a Job Done at Dover Last Winter Had Forfeited His Bond.

Detectives Fitzgerald and Rothenhoffer of the C. and O. landed Pete Stevenson in jail here last evening on a serious charge.

Last December Mr. W. A. P. Lurty's store at Dover was entered one night by thieves who carried away a lot of goods.

Stevenson was arrested a week or so later by Detective Fitzgerald and Constable Dawson and some of the goods were recovered. The accused was jailed but succeeded finally in executing bond for his appearance at the June term of the Circuit Court.

When his case was called he was not on hand, and a bench warrant was issued for him. It was sent to Sheriff O'Donnell of Covington and he turned it over to Detectives Fitzgerald and Rothenhoffer.

The Post says: "They have been untiring in their search for Stevenson, and were unable to locate him until Tuesday evening when they got word that he was in hiding in Jeff Murphy's place, on Madison Avenue and Seventeenth street. The two officers kept watch on the place until daylight, when they made a search of the building. The search revealed Stevenson hiding in the cellar. He had a bottle of chloroform and a lighted candle. The officers, knowing his character, took no chances with their prisoner, but immediately covered him with their revolvers. He made no effort to resist, and he was taken to jail and locked up. Stevenson, it is claimed, gave the C. and O. officials no end of trouble. Much of the recent breaking open of freight cars and stealing of merchandise they attribute to his work. He also bears a bad reputation among the Covington police."

That Parade.

Cincinnati is justly proud of her fire department, easily the best in America and its police department which stands first in all that appertains to efficiency. The fire department is modernly equipped, and the splendid army of horses that draw the great machines and ladder wagons and march in reserve is a sight to be rarely witnessed. Animals chosen only for their strength and intelligence. They almost talk, these Cincinnati fire horses. The police force—marches like a phalanx in blue down the street, six footers nearly every one, clean looking, well dressed, intelligent men, who surpass in drilling any similar force on earth. Four Governors of four of the best States in the Union, Governors MacCorkle, of West Virginia, Brown, of Kentucky, Matthews, of Indiana, and McKinley, of Ohio, will be at the parade. The city will be adorned profusely, and the parade of half a hundred bands will saturate the air with sweet sounds.

The C. and O. is making a special study of taking everybody along its line who wants to go to Cincinnati October 3rd to see this grand spectacle. The price decided upon is more than reasonable and the time given is ample. You can see the parade, see the town and ride home in a fine train. It will be better than medicine and not half so costly. See the C. and O. agent at your station for fuller details.
