MEDICAL.

The First Symptoms of Death.

Tired feeling, dull headache, pains in various parts of the body, sinking at the pit of the stomach, loss of appetite, feverishness, pimples or sores, are all positive evidences of poisoned blood. No matter how it became poisoned it must be purified to avoid death. Dr. Acker's English Blood Elixir has never failed to remove scrofulous or syphilitic poison. Sold under positive guarantee. T. G. JULIAN.

The New Discovery.

You have heard your friends and neighbors talking about it. You may yourself be one of the many who know from personal experience just how [illegible] it is. If you have ever tried it, you are one of its staunch friends, because the wonderful thing about it is, that when once given a fair trial, Dr. King's New Discovery ever holds a place in the house. If you never tried it and should be afflicted with a cough, cold or any trouble of the throat, lung or chest trouble, secure a bottle at once and give it a fair trial. It is guaranteed, every time, or money refunded. Trial bottles free at W. S. Lloyd's drug store.

Eupepsy.

This is what you ought to have, in fact, you must have it to enjoy life. Thousands are searching for it daily, and mourning because they find it not. Thousands upon thousands of dollars are spent annually by our people in the hope that they may find this boon. And yet it may be had by all. We guarantee that Electric Bitters, if used according to direction and the use persisted in, will bring you good digestion and will drive the demon dyspepsia and its all hated eupepsy. We recommend Electric Bitters for dyspepsia and all diseases of liver, stomach and kidneys. Sold at 50 cents and $1 per bottle by W. S. Lloyd, druggist.

The average weight of hogs received in Chicago, during the month of December, was about the highest on record for December, being eighteen pounds lighter than a year ago, thirty pounds lighter than in December, 1889. The average for the past three months was twenty pounds lighter than the corresponding period of 1888, and fifteen pounds lighter than the average of the past eight years.

Pronounced Hopeless.

From a letter written by Mrs. Ada E. Hurd, of Groton, S. D., we quote: "Was taken with a bad cold, which settled on my lungs, cough set in and finally settled in consumption. Four doctors gave me up saying I could live but a short time. I gave myself up to my Saviour, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for consumption, coughs and colds. I gave it a trial, took in all eight bottles; it has cured me and thank God I am now a well and hearty woman." Trial bottles free at W. S. Lloyd's drug store, regular size, 50 cents and $1 per bottle.

It is claimed to be a singular fact that of the many who go into the horse business few ever [illegible] Call Mahomet Li[illegible] ar known-ledge have [illegible] siness of handl[illegible] how low [illegible] to tear themselves away from its charms. Certainly not all have prospered, but they have clung to their idols nevertheless, perhaps hoping for better days, or it with race horses awaiting a lucky stroke that will bring them out all right. There is a sort of fascination about this noble animal which seems to take hold of those who devote their attention to it. This has marked the history of the human race from the earliest times, and the devotion was never stronger than at the present day. And it must be admitted that none of the brute creation are more worthy the admiration of man than is the horse.—[Courier-Journal.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give satisfaction, or money refunded. Price 25 cents per box. For sale by W. S. Lloyd.

The turf writer of the Mirror and Farmer says that Carlos M. de Garmendia, of Maryland, who owns the grand horse Sea King, by Lord Russell, out of Fairy Belle, sister to Viking, 2:10¼, is the best informed man upon horses that he has ever met, excepting the late Isaiah Thomas, of New Hampshire.

Can't Sleep Nights

Is the complaint of thousands suffering from Asthma, Consumption, Coughs, etc. Did you ever try Dr. Acker's English Remedy? It is the preparation known for all Lung Troubles. Sold on a positive guarantee at 25c and 50c. T. G. Julian, druggist.

Maine will have no New York market for ice next summer. Ice on the Hudson is a foot thick and the harvesting is in progress.

The First Step.

Perhaps you are run down, can't eat, can't sleep, can't think, can't do anything to your satisfaction, and you wonder what ails you. You should heed the warning, you are taking the first step into nervous prostration. You need a nerve tonic and in Electric Bitters you will find the exact remedy for restoring your nervous system to its normal, healthy condition. Surprising results follow the use of this great nerve tonic and alterative. Your appetite returns, digestion is restored, and the liver and kidneys resume [illegible] Try Price 50 [illegible]'s

THE FARM AND THE FARMER.

Vermont has a Tick and a Game League.

The winter wheat crop of Kansas is reported to be in fine condition.

It is a London journal that proposes the rabbit as a food-producing animal.

A Protective Association has been organized by the Florida Orange Buyers.

It is said that 4,000,000 acres of land are irrigated by means of ditches in Colorado.

In Ontario, where it is the rule to send children to Agricultural schools, 85 per cent. of them go back to the farm.

The test of a cow's ability to produce milk or butter, per day or week, is not without its value, but these are not to be compared to the all-the-year test, which leaves no doubt of her real powers.

The North Dakota Republican says: "Range cattle are rapidly becoming a thing of the past, and the stock farmer may breathe easier. With the constant encroachment of homesteader and the farm, the almost boundless ranges and the days of vast herds are surely numbered. Like the Indian and the buffalo, they will soon become a thing of the past."

A correspondent of the Horse Breeder gives the following mild treatment for warts: "Saturate the wart every few days with pure castor oil, and they will disappear, leaving the surface as smooth as though they were never there." We have known of several cases where warts were removed from the nose of colts by simply rubbing them with lard occasionally.

A correspondent of the Chicago Times says: "The breeders of the trotter are all striving toward a goal—that is to send out a horse that will be able to go a mile in two minutes, reaching, as they do on the ultimate showing up of a horse that can carry his speed for a mile at the rate one performs, at least, has gone a quarter."

This is a beautiful farm just back of Ocean Springs, Mississippi, owned by Parker Earle, who very wisely allows no man on the place to use a whip on any of the stock. It is said that there is but one old whip on the farm, probably a relic of some other owner, but the old whip is not used, and the farm does well and the animals work with a will and never feel the lash. Kindness can run anything, even a farm.—[New Orleans Picayune.

A few sheep are sometimes valuable in wheat growing, and for turning loose in the orchard, where they will not only break up and pack the soil nicely, but destroy weeds and eat up noxious insects. Their manure also is fine for the orchard, but is especially adapted to the garden and all hoed crops. Sheep raising needs encouragement in all parts of the country, and farmers and farm land would be inestimably benefited by it. There can be no loss, for early lambs are always marketable and wool will yield a small profit.

An English horticulturist has the following to say about raspberries: "Give raspberries a rich deep soil thoroughly worked before planting. Do not crowd the rows together, let the sunshine and air work in among them freely to strengthen and ripen the wood, and then it matters not how much the canes are shortened, there will be plenty of fine fruit. In practise where no training is done, it is found best to leave the canes about three feet long, and for a number of years I worked two plantations, one trained to wires, and the other left without training; and I was so convinced that as good results can be obtained on the free and open system as tying them in bunches to stakes, or training them on fences of wire, that I cleared away the wires and stakes."

A correspondent from Louisa, Ky., to the New York World gives the following receipt for the soft tanning of skins: "If the skin is dry I first soak it in soft water. If green, it is all ready to be treated. Next work off all the flesh and grease with a dull, broad-bladed knife, then sprinkle it thoroughly with salt and fold it carefully, with the flesh side in, and let it lie until the next morning. Then wash off the salt and make a strong solution of alum; put this on the flesh side and rub it with the hands as hot as it can be borne; double the skin together again and lay it away in a cool place. Apply the alum solution every day for a week and then dry it in the shade and work the skin until it is soft. This is for small skins with the fur o[illegible] Thin skins can be [illegible] in the [illegible] days."

DAINTY DESSERTS FOR DAINTY DINNERS.

CHOCOLATE CARAMELS, No. 2.—One cupful of grated chocolate, 1 cupful of molasses, ½ cupful of milk and 1 cupful of brown sugar. Stir till dissolved, then add a teaspoonful of butter. Boil and test as in previous recipe. Flavor with vanilla after taking from the fire.—Good Housekeeping.

TOMATO FOAM.—To 1 pint of tomato, add 1 pint of boiling water and cook ten minutes. Strain through a colander, and return to the stove, add 1 teaspoonful of beef extract, and seasoning of butter, pepper and salt, and 4 tablespoonfuls of finely powdered crackers with 1 cupful of milk.

SOUP WITH BEEF EXTRACT.—Cut in fine pieces 1 small turnip, 1 onion and 1 small carrot, and cook them in 1½ pints of water for an hour and a half, then add 1 teaspoonful of the extract (I use Armour's Solid Beef Extract, which is delicate and delicious in flavor and of excellent keeping quality), and let the whole boil gently for fifteen minutes. Season with pepper and salt as desired.

APPLE SNOW.—Peel, core and [illegible] ter tart, juicy apples and stew them [illegible] for space until soft. Mash them smooth, sweeten to taste and turn them into a dish. Make a soft custard with 1 quart of milk and 5 eggs (reserving the whites of 3), sweeten and flavor with lemon. When cold, pour it over the apple, then beat the whites of the eggs to a "standing froth," add 4 tablespoonfuls of sugar, and heap lightly on the top of the custard. Brown in the oven if desired.

PEACH TAPIOCA.—One cupful of pearl tapioca, 1 quart of tepid water, 1 cupful of sugar, 1 saltspoonful of salt, 6 canned peaches or fresh ones in their season. Soak the tapioca in the water for two hours or until it softens, then add the sugar, salt, and the peaches halved or quartered, and cook in a moderate oven until the tapioca becomes transparent and jelly-like and the peaches soft, which will require about an hour and a half, cooking slowly. Serve with cream. It is delicious.

PINE APPLE GEL[illegible] whites of 2 [illegible] them and the pulp of 5 baked [illegible] mashed smooth and sweetened. Beat all well together. Soak ¼ of a box of gelatine in a little cold water for an hour, or until it softens, and add half a pint of boiling water, stirring until the gelatine is dissolved. To this add the apple and egg mixture, beating all thoroughly, and flavor with pine-apple. Serve cold with cream.

CHOCOLATE CORNSTARCH PUDDING—One quart of milk, 1 egg, 4 level tablespoonfuls of cornstarch, 6 tablespoonfuls of sugar, and 3 tablespoonfuls of grated chocolate. Heat the milk to the boiling point. Dissolve the cornstarch in a little cold milk, stirring it free from lumps, then add the grated chocolate, beaten egg and sugar, and after thoroughly mixing pour the whole into the hot milk and stir until it becomes as thick as soft custard. Remove from the fire, let it cool and flavor with lemon. Serve with cream.

CHOCOLATE CARAMELS No. 1.—One pint of brown sugar, 1 gill of sweet milk, ½ pint of molasses, ½ cake of Baker's chocolate, grated, and a good teaspoonful of butter. Boil over a slow fire, stirring until the ingredients are dissolved and occasionally afterward, as it burns easily. Test it by dropping a little into cold water. If it hardens quickly, remove at once from the fire, flavor with vanilla and pour into buttered tins. One should be careful in adding the extract, as the heat is likely to set fire to the alchohol, especially if added while on the fire. When cool, mark the carmels in squares with a buttered knife.

Unless the cow has special value as a breeder, she should not be kept past her tenth year. If she has [illegible] every year, she will then have [illegible] eight or nine calves, and this will be sufficient to wear out her constitution. Cows that are allowed to go farrow occasionally will be better preserved to a later age, but they usually do not make as good milkers, nor tend to keep up the dairy reputation of their progeny so well as cows that suffer as little interruption in breeding as possible.
