The Hon. William Brown, of Nicholasville, seems to be in the lead for collector of this district, but we are still betting on Green Trimble, of Somerset.

The Louisville Store will open to-morrow 25th, with a tremendous stock of goods. Mr. M. Salinger arrived yesterday with the last of the big supply. See ad.

The docket of the Circuit Court which begins Monday is the shortest for several years. The commonwealth has 14 cases less than last time and the civil business as is considerably off.

City Tidbits.—Owing to my increase of trade this spring I have engaged a city trimmer who will be here April 1st. Call at my store and see the new hats, ribbons and foliage. Thanking my customers for past patronage I solicit same. Kate Duddler.

Hanging is certainly played out in Rockcastle. A jury let off the no-ro convict, who brutally murdered his guard for the purpose of escaping, with a life sentence. The present seems to be a very tender-hearted jury anyway, judging from the lightness of the verdicts it has rendered.

The new photographer, Mr. E. J. Earp, is fully equipped for his business. He has the largest and finest instrument in this section and being a natural artist, is enabled to get the best results. Specimens of his work show that he is capable of doing the finest quality and as he has located with us, we trust those who need anything in his line will give him their patronage.

Supt. Potts is anxious for the town to put in electric lights. He says if the council will agree to pay a reasonable rate per light, he will attach a dynamo to the mill engine and furnish them and the citizens all the light they want. When we can have electric lights at a reasonable figure and can provide water works so cheaply, it is a wonder that money in mind do not take hold of both enterprises.

There is a man in Stanford who believes so firmly in Mascots and Jonahs that he turned around and went back home on three successive afternoons that he started fishing because he met a certain man, whom L. S. Withers and others, who believe in the superstition, have denominated a Jonah. Mr. Withers says when this Jonah comes to his store, he immediately puts up his shutters and goes home, for he knows there is no more trade for him that day.

The New Orleans Minstrels, in handsome uniforms and preceded by their Gold Band, will parade the streets Monday next and that night will present the best show of the several good ones that they have given here. The house is going to be crowded, so buy a reserve at once.

Was Barking.—W. T. Royalty, of Yosemite, asks us to correct the statement that Hughes was stealing a ride when he was hurt in the wreck on the Green River road. He was barking at the time. Three inches of bone have been taken from his leg and his chances for recovery are doubtful.

The National Microscopists' Directory for 1890 is being compiled, and the editors desire the names of all microscopists, all users of the microscope in professional work and of readers of microscopical literature for insertion. Each one in this section will please send his name, profession, titles and postoffice address to Harry A. Evans, Stanford, Ky.

Complete lines of dry goods, notions, groceries, boots, shoes, &c., tinware, queensware, glassware, stoneware, hardware, cooking and heating stoves, furniture of all kinds. Having an experienced buyer constantly in the market I am prepared to give you bottom figures. Hilton sells 13 pounds, 1 oz. granulated sugar for \$1. It may seem a little odd, but I have the sugar. Farmers, I will buy your bacon. W. S. Hilton, Junction City.

Harry Wilson, the blind preacher, caused a physical examination to be made of the boy who leads him and it was found that he was not a girl. He says that he spoke pretty roughly to him at Milan, but denies that he used any profane or obscene language. A gentleman from New Albany, Ind., who has known Wilson from childhood, says he is half Indian and half negro, and one of the toughest citizens ever raised in that delectable burgh.

Lecture.—Mr. Luther Benson will lecture on Temperance at the Court House here Thursday night, March 28th, at 7:30. Admission free. Mr. Benson has the reputation of being one of the leading temperance orators in America. The Boston Post says he is superior to Gough; the Cambridge Press that he is no equal; Senator Voorhees that he is the foremost temperance orator living; Senator Vance that he is an orator of great power, and so on through a long list.

Lockjaw.—Two weeks ago, Cyrus Young, son of the late Wm. Young, of the Green River section of this county, accidentally shot himself in the foot with a Flobert rifle. He was engaged at Willie at the time, but came home, although he experienced but little inconvenience or pain from the wound. About a week afterwards he began to complain and in a day or two a genuine case of lockjaw developed, and after intense suffering he died. His father died seven years ago from the same affection, produced by a broken leg.

Acquittal.—Zack Carter, who was charged with bigamy, was cleared at his trial before Judge Shelton, at Rowland Tuesday. Miss Matilda Poe, who claimed that she was Carter's lawful wife and that they were married in Jeffersonville, failed to appear against him and that together with the fact that the county clerk of Jeffersonville could find no record of the marriage was deemed sufficient proof to dismiss the case. It is hardly probable that Carter could have kept from the public the fact that he had two wives and much less probable that she could have lived in so small a place as Rowland in such peace and harmony as Mrs. Carter and Miss Poe have. Carter says there is trickery about the whole matter and that he intends to investigate things and show them up in their true colors. Miss Poe's story is that while she was living in Louisville Carter wooed and won her and that she accepted his proposal to go to Jeffersonville and be married. They went across the river, but she is not certain whether it was to Jeffersonville or New Albany, at any rate they went into a house kept by an old couple. There Carter left her as he said to go after the license and a preacher. He returned shortly with an old man who held a piece of paper in his hand. He took them to stand up and then they took upon themselves the vows that she thought legally made them husband and wife. She is not able to read or write, though she produced letters she claims were written by Carter to her in which he calls her wife and signs himself husband. Miss Poe's recent addition to the census is not her first contribution in that line. She has had three or four children, all of whom she alleges have the legal and natural right to call Mr. Carter "papa."

The Toledo salesman who were arrested at Nicholasville for violating the peddler's act, proved that they sold only by sample, and were acquitted.

Exchange note: The interesting discovery that the average length of time a clergyman receiving \$12,000 a year is able to work without becoming a physical wreck and having to be sent abroad, is 7 months; the \$10,000 preacher 8 months; he who receives \$7,000 9 months; the \$5,000 preacher 10 months; but the man on the \$5000 salary works right along all the year round and doesn't break down.

The first duty of a preacher is to keep the congregation awake. Instruct the sexton to let in plenty of fresh air. Without air, without life. Break out a few of those stained glass windows and admit the sunshine! Darkness always provokes a yawn.—Clergyman in St. Louis Republic.

A Georgia newspaper somewhat exaggerates an important truth in the following: "This idea of teaching every girl to thump a piano and every boy to be a book-keeper, will make potatoes \$4 a bushel in 30 years."

With Pennsylvania designated by "Pa." and Montana likely to abbreviate itself into "Ma." those hitherto motherless United States will have a full set of parents.

Who struck Billy Patterson, we cannot tell; but we can positively assure you that if Garter's magic chicken cholera cure fails, your money will be refunded by McRoberts & Stagg.

Hambrick, out of mares by Lightwood, by John Dillard, and by Long's Hambletonian. These are all handsome, good colors, fine size, and with trotting action that would be a credit to any sire. Price \$1,000.—Advocate.
