DENTON, GUTHRIE & CO. has those nice Linen Suits your have heard so much about. Also a full line of Summer Underwear.

\$10 SUITS.

Our's has that certain something about them that you can't fully comprehend. They look and fit different from any other ready-to-wear clothes; you wonder why they look so much like tailor-made garments, that you have been paying \$20 and \$25 for. The reason is this: We buy only from the best manufacturers. We look to the style, making, trimming, and even to the buttons, before they get into our house. All these little things count in the looks of your clothes.

Tom Welch Makes Things Go.

(FROM KENTUCKY REPUBLICAN.)

I was to-day the second time down where Mr. T. C. Welch is making "The Clay Stone Pike," and I was more than pleased with Mr. Welch and his stone crusher. When Mr. Welch began work on this pike the 18th of May he said he would complete the section, one mile and twenty rods in length, in thirty days, and he tells me to-day he will make good his promise. Some part of his machine broke, which caused a suspension of work for thirteen days, yet he will close out this section the present week, which will reduce the time to less than twenty-five days to complete the job. The pike he is making is superior to any I have ever seen when finished. The base and surface are of the usual thickness, twelve and eight inches respectively, and a heavy coat of pulverized stone over all, which fills all crevices and forms a cement as smooth and as firm as if covered with asphalt. No indentures or furrows will be made by vehicles, and no necessity for shying from sinks and prominences by the traveler. Every part of the surface will remain smooth until worn out by friction. It struck me at once that the stone crusher will be certainly adopted for repairing our pikes, and our Fiscal Court should acquaint itself with the great advantages of this machine for repairing pikes before letting to contractors. My opinion is that to employ men who own stone crushers to repair our pikes would save many thousands of dollars to the county per annum. Upon my asking Mr. Welch how many miles he could keep in repair he replied: "I could keep all the pikes in your county in repair," implying, of course, that another crusher or two, perhaps three or four more, would be required. Of course his work would be done by the rod, but at a cost much below the price paid to "nappers." But the letting of the pikes for repair will be to the lowest and best bidders, of course.

F. W. HOUSTON.

The pain that sometimes strikes a man at the most inopportune moment is due to indigestion. It may come in the midst of a dinner and make the feast a mockery. It is a reminder that he may not eat what he chooses, nor when he chooses. He is a slave to the weakness of his stomach. A man's health and strength depend upon what he gets out of his food. This depends on his digestion. Remove the obstruction by taking Dr. Pierce's Pleasant Pellets. They are a positive cure for constipation and its attendant ills—headaches, sour stomach, flatulence, dizziness, biliousness, "heartburn." The "Pellets are very gentle in their action. They simply assist nature. They give no violent wrench to the system. They cause no pain nor griping. Send 20 one-cent stamps to cover cost of mailing only, and receive free a copy of Dr. Pierce's Medical Adviser. Address: World's Dispensary Medical Association, Buffalo, N. Y.
