Housekeepers Should Remember

The great success of the Royal Baking Powder is due to the extreme care exercised by its manufacturers to make it entirely pure, uniform in quality, and of the highest leavening power. All the scientific knowledge, care, and skill attained by twenty-five years' practical experience are contributed toward this end, and no preparation can be made with a greater accuracy, precision, and exactness.

Every article used is absolutely pure. Chemists are employed to test the strength of each ingredient, so that its exact effect in

combination with its co-ingredients is definitely known. Nothing is trusted to chance, and no person is employed in the preparation of the materials used, or the manufacture of the powder, who is not an expert in his particular branch of the business.

As a consequence, the Royal Baking Powder is of the highest grade of excellence, always pure, wholesome, and uniform in quality. Each box is exactly like every other, and will retain its power, and produce the same and the highest leavening effect in any climate, at any time.

The Government Chemists, after having analyzed all the principal brands in the market, in their reports placed the Royal Baking Powder at the head of the list for strength, purity, and wholesomeness; and thousands of tests all over the country have further demonstrated the fact that its qualities are, in every respect, unrivaled.

All chemical tests to which I have submitted it have proved the Royal Baking Powder perfectly healthful, of uniformly excellent quality, and free from every deleterious substance

W. L. Coppersmith, E. M., Ph.D.

That Tobacco Bill.

Following is a synopsis of the tobacco bill now before the Legislature: The bill declares that all persons receiving leaf tobacco for storage or sale at public auction as public warehousemen shall carefully weigh all packages consigned to them and mark the weight of package and after the tobacco is sold and properly re-coopered, it shall be weighed again by the same person who weighed it first, and the proprietor shall pay according to the highest weight, including the sample, after deducting the tare weight of the cask.

The making of a false weight is made a misdemeanor punishable by a fine of not less than \$25 nor more than \$100, and liability to the party aggrieved in a sum between \$10 and \$100. The selling commission of warehousemen and commission merchants is fixed at \$2 per hogshead, to be paid by the owner or his agent in case of rejection and no sale. No greater compensation may be charged than \$1 per hogshead, and no additional charge shall be made for weighing, nor any device resorted to by which the price for selling may be increased. It is made unlawful for any warehouseman to directly or indirectly charge the seller or owner anything by way of commission or otherwise for paying him the money for which his tobacco is sold. It is also made unlawful for any warehouseman to pledge or hypothecate any tobacco shipped to him or stored with him or to issue any warehouse receipts for such tobacco without consent of the owner, and if he does such pledge or receipt shall be void, provided that the bill does not apply to pledging or hypothecating by the warehousemen to the extent of any sum advanced by him to the owner. Claims for reclamation shall be made within ninety days after sale unless the tobacco is exported to foreign countries, in which case they must be made within six months after sale. A penalty is provided for nesting

or side-prising. In case of rejection by either the buyer or seller, the party rejecting shall only be required to pay the fee for the hogsheads, bales or boxes rejected by him. The act is to take effect upon its passage.

Elected Lecturer.

The Kentucky Farmer says: The Hon. Barry South was elected Lecturer of the Seventh Congressional District Union, at Lexington, last Tuesday, and in a few days will go in prepared for permanent work. His election means an active and progressive future for the order, and by the time Barry South gets over the district there will be no inquiring if the order is still alive. But the grand chorus will sound:

"As we go marching along."

Thrashed a Man Twice His Size.

The other day a small, harmless looking man entered a New York street car, and accidentally trod on the toes of a big six-footer. He apologized, but the six-footer wasn't satisfied. He talked for some time, and finally invited the little man to leave the car and settle the matter on the sidewalk. Greatly to his astonishment, the latter accepted. Those who witnessed the contest say that it didn't last long, but that the big fellow had to be carried home in an ambulance, while his diminutive antagonist walked away with a cheerful smile. And so it is with Dr. Pierce's Pleasant Pellets. They're not half as big as most of their rivals, but they do their work quietly and thoroughly. For sick headache, biliousness, constipation, dyspepsia, etc., there is nothing like them. They are the only Liver Pills absolutely sold on trial! Your money back, if they don't give satisfaction!

Engraving of all kinds promptly attended to at W. L. Coppersmith's, 284 St. Clair street. 46-1y.

Communicated.

Editor Roundabout:

I have just received a communication from one "John Smith," asking my opinion about several things, which I will answer in a very few words.

The position I took in my last about the Athletic Club was, that it had an evil tendency. I did not assume that the thing in itself was wrong, but that it tended towards evil. We are told to shun every appearance of evil.

I advise John Smith and the boys to read the history of Abraham and Lot. As soon as Lot was separated from Abraham he "set his tent towards Sodom," and he got there. Read the result and ponder over it. If John Smith will write under his own name then I will consider and answer each question, as far as I can, honestly. There are a great many John Smiths, but I know none in Frankfort and but one in the county, and I do not propose to fight in the dark. When I strike I want something to strike at. Put your communication in the paper over your own name, then I am your man.

Yours truly,
JOHN E. MILES.

Height of Cruelty.

Nervous women seldom receive the sympathy they deserve. While often the pictures of health, they are constantly ailing. To withhold sympathy from these unfortunates is the height of cruelty. They have a weak heart, causing shortness of breath, fluttering, pain in side, weak and hungry spells, and finally swelling of ankles, oppression, choking, smothering and dropsy. Dr. Miles' New Heart Cure is just the thing for them. For their nervousness, headache, weakness, etc., his Restorative Nerve is unequalled. Fine treatise on "Heart and Nervous Diseases" and marvelous testimonials free. Sold and guaranteed by J. W. Gayle.
