OUR POLICY

To support such measures as are unquestionably for the good of Mason County as an entire community, rather than such propositions as are in favor of the individual interest, or of one section as against another. And likewise to earnestly and consistently oppose all things that are not for the good of the County as a whole.

Someone has said that there were but three classes of people who would never organize—farmers, school teachers and lunatics. Mason county farmers have already organized and the teachers are now getting busy.

Like with all other campaigns, Mason county will go over the top in the drive for one thousand dollars for the Roosevelt Memorial. Hundreds of our citizens are proud of the opportunity of contributing to a memorial for this great American.

It's a mighty good thing for that Friday night audience that the Democratic leaders sent Senator Harris along with Governor Black to do some speaking.

Wonder if Lenin follows the American custom and clips Trotsky's hair when he throws him into prison. Nothing would be more effective, since the bolshevik hords would probably forswear all allegiance, once he presented himself before them minus his locks.

Sapping the Public Schools of Kentucky

Taxes Going Up; Teachers Underpaid

Under Stanley Democratic rule, in the three years 1915-1918, the equalized value of all property assessed for taxation in Kentucky has increased the enormous sum of \$27,278,483.00. During the same period, the amount distributed by the state to the counties to pay the salaries of school teachers has only increased the pitiful sum of \$48,754.37.

Taxpayers, This Is Your Business

The new tax law making this huge increase in taxes was passed to raise more money for general state expenses, to pay off old debts and to give more money to the public schools. If this law has raised enough money to pay general expenses and to help pay off some old debts, why has the school fund not received a proportionate increase for the education of your children?

Stanley O. K's Pay Cut

In 1918 a Democratic legislature passed a law and it was approved by Governor Stanley, March 18, 1918, cutting down the amount of money for school teachers' salaries from 28 cents to 18 cents, and many teachers were forced to quit their jobs altogether or to seek positions in other states.

The School Teachers' Merry-Go-Round

The records show that in 40 counties in Kentucky, the salaries of school teachers were more in 1916 than in 1917 and 1918. They also show that in 71 counties the salaries were more in 1917 and 1918. This has forced hundreds of teachers to travel from one county to another seeking better pay to meet the high cost of living. In one county in Kentucky, out of 104 teachers last year, only 22 returned this year. In another county only seven out of 48 returned. In another county only 5 out of 95 returned. In one of the largest and best counties of the state only one rural teacher has not changed location within the past five years.

Holding Up the Teachers' Pay

In the same month that Governor Stanley approved the law cutting down the teachers' salaries, the state owed the teachers for back pay, \$548,372.00. Three months later this amount had jumped to \$1,402,887.94. On June 30, this year, the state still owed the teachers for back pay \$668,454.87. In 1917, the first month's salary was paid in October after three and a half months of teaching. The final payment was not made until August, 1919, eight months after the close of the session. Last year a law was passed to remedy this, but at that salaries are still running late. In addition to having their salaries cut, the teachers also have their pay held up.

Cutting Down the School Year

Three months after Governor Stanley signed the bill cutting down the teachers' pay, the school year was cut from 7 months to 6 months. The children were deprived of a whole month's schooling. This year, the school year ending June 30, 1920, was cut to 5 months instead of being put back to 7 months, thus depriving the children of another month's schooling. Twelve months' schooling in two years in place of 14 months.

Gilbert's "Sore Toe" Book

Supt. Gilbert's printing bill is costing the taxpayers three times what they paid under Governor Wilson (Republican). Among the books paid for by the taxpayers at a cost of \$15,000, was the famous "Sore Toe" book, compiled by the equally famous Dr. W. L. Halsey, whose "Physiology" was ridiculed by the leading Democratic newspapers of the state. This "Sore Toe" book tells little Johnnie how to wrap up a "punchure" in his foot, warns little Jennie not get wet more than once a day, calls on dad to shave off his whiskers, advises mother to wash an egg before boiling it, and demands the killing of all dogs and cats.

Gilbert's Extravagance

The minute Supt. Gilbert got into office he began filling up his own office, at Frankfort, with clerks and stenographers. The salaries in his department have gone up to three times what they were under Governor Wilson (Republican). The Democratic legislative probe committee of 1918 condemned the Bureau of School Inspection for giving salaries to people who did no work, but there has been practically no change. Morrow will change it.

Text Book Commission Farce

The Stanley Text Book Commission charged most of the books in the grades and would have soaked the parents of the children \$500,000 more for their books, but the whole adoption was thrown out by the Court of Appeals. Urged by leading Democrats all over the state to also throw out the Text Book Commission, Governor Black turned a deaf ear and by the time a new adoption was made the publishers were so delayed that many schools have been forced to get along with old books, and some of them won't get the new books at all for proper work this year.
