

# The Fact Remains

No amount of misrepresentation by the peddlers of alum baking powders, no juggling with chemicals, or pretended analysis, or cooked-up certificates, or falsehoods of any kind, can change the fact that

**Royal Baking Powder** has been found by the official examinations to be of the highest leavening efficiency, free from alum, and of absolute purity and wholesomeness.

Royal Baking Powder is indispensable for making finest and most economical food.

### Life Insurance.

It is not an investment, but protection against death. At the same time the money you pay into an old line company is as safe were it invested in a government bond. Every man owes it to his family—to protect it against death. The Connecticut Mutual pays a larger dividend than any other company. See

Kentucky farms continue to move upward in price. A farm of 118 acres in Garrard county has just been sold for \$140 an acre. Ten years ago the same farm would not have brought more than \$100 an acre. The old-time limit of \$100 for land out of which a living was to be made has long since become obsolete. Modern methods of farming make farming pay at what were formerly considered fancy prices, and the shortage of free western lands is reflected in handsome increases in the older states. For a long time investment, buy Kentucky farm lands. The advance in price will pay the interest on the investment.

A certain writer has said that no newspaper which took truth for its standard would make a pecuniary success. The press might return the compliment by remarking that no minister who told the truth about his congregation, alive or dead, would occupy the pulpit not much longer
