Bogard, Jan. 12t 1915.  
Editor News:

Enclosed you will please find \$1.00 to pay for the News for the year 1915, please pardon me for being a little late sending in my subscription.

My son, Robert, broke out with small-pox the 29th. of November therefore we were quarantined for five weeks; during this time we were not allowed to send out any mail. Now we are all free again and Bob has gone to work feeling better than for a year. By having the other children vaccinated and following the directions of our physician the rest of us have escaped the dreaded disease, for which we are very thankful indeed. There have been several cases in the county during the last few weeks.

Mr. Edd Smith the gentleman that Jim Shirley and Nat Walker worked for while in Mo., has it now. While we were shut in our neighbors were very kind and good, everything we needed was brought and put where we could get it. We were still under quarantine when X'mas. came but still it was a very happy X'mas, to us. Bob came out of his cell X'mas. Eve and we fumigated everywhere except one room. This had only one bed which was occupied by the two youngest children. The rest of us sat up all night, but Santa Claus came in from every direction. Our Sunday School remembered us with their X'mas treat and our day school teachers, sent the children a nice treat and then some of our neighbor friends remembered us with several nice and useful presents. Certainly we are among good people.

Our son, Coakley, got married last summer and is still running a restaurant in Bogard and is handling a few groceries in connection with his eating establishment. Our oldest daughter, Lethia, has been given a position as assistant cashier in the Bogard State Bank, which was organized about three months ago. She begun work the first of the year. Well, we have had some real winter weather since the 10th of December. Lots of snow and ice. That makes a feast for the blacksmiths. It cost \$3.00 to get a team shod all around here, but a time like this is the only time they do any shoeing. Well, last year was a bad crop year for Carroll Co. The continued dry weather and the visitation of the chintz bug cut all kind of crops short. Though when the fall rains come it made lots of good pastures and then we had fine weather for gathering corn and working the roads, the latter of which there was lots done. By the way, how did my friend, Mr. J. N. Coffey's drag work that he had made. I feared it would be too light to do good work. Here we use a steel shase and with the weight of two ordinary men on it and four horses to draw it, so when we make a round on a mile, we

leave it as nice as you ever saw a track at the Columbia Fair grounds. We are always glad to get the Adair County News. It tells of all the happenings at home. The Gradyville letter is read first, because we all want to know about the home folks first. I will close by wishing the News and its readers a happy and prosperous New Year.

Most Respt.

Luther M. Wilmore.

## The Peevish Child Needs a Laxative

It is natural for a child to laugh and play and when it sulkis drowsily or cries you may depend on it something physical is the matter. If you see no evidences of a serious ailment you will not be wrong if you quietly give it a dose of mild laxative that evening on putting it to bed.  
The remedy most generally recommended for this purpose is Dr. Caldwell's Syrup Pepsin, which mothers throughout the country have been giving their children for a quarter of a century. Today thousands of families are using it where hundreds used it then, and there must be good reason for this word of mouth recommendation.  
It is admittedly the perfect laxative for children, women, old people and all others who need a gentle bowel stimulant and not a violent salt, cathartic pill or doctored water. Dr. Caldwell's Syrup Pepsin will act gently, and when taken before retiring will bring com-

plete satisfaction in the morning. After a short use of this remedy all forms of outside aid can be dispensed with and nature will again act alone.  
All classes of good American people keep it in the home for illis of the stomach, liver and bowels, and among the thousands who have written the doctor that they will never be without it are Mrs. J. W. Haynes, Brady, Ky., and Mrs. E. L. Weeks, 1744 W. 2nd St., Owensboro, Ky. A dose of it has saved many a person from a serious illness.

Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. B. Caldwell, 405 Washington St., Monticello, Ill. Your name and address on a postal card will do.

That an unusual amount of corn was raised in this county last year is evidenced by the fact that hundreds of our farmers have not yet gathered their crop, not having any place to store the grain. You can hardly go upon a farm without finding quite a number of shocks of corn still ungathered.
