Wise and Otherwise.

In rest there are always two elements—tranquility and energy; otherwise it is mere stagnation.

Few of the men who are willing to give you a recommendation would give you a job.

It is the law of influence that we become like those whom we habitually admire.

The man who has a jolt coming to him seldom realizes it until he strikes out.

Really big men are measured by what they do, not by what they do, not by what they say.

It is easy to find a man who is willing to grunt while you lift.

Touchiness is self-love inflamed; it is conceit with a hair trigger.

The genuine woman never buttons anything that she can pin.

Friendship is the nearest thing we know to what religion is.

The highest ambition of some thieves is a chicken roost.

The more a man knows the less he thinks he knows.

Love may be blind, but alimony is an expert oculist.

The Bible is a product of religion, not a cause of it.

The latest ruling by Attorney General Garnett in regard to the funds raised for road improvement through the issue of bonds and derivable from the state is another important reason why every taxpayer should vote for a bond issue.

Warnings were sent to the Lusitania from London and it is surprising that after she received them the steamer did take the mid channel course.

## This is the "Thornhill" Wagon—the Wagon that Must Make Good

The best known materials—the labor of master workmen—the aid of the most ingenious modern machinery have been employed to make the Thornhill wagon.

The wheels are made with excessive care. For the spokes the manufacturers use the finest hickory—machine driven to insure the right dish. The hubs are of oak, thoroughly seasoned and banded with double refined sable iron.

The bolsters are of the best white oak. They have an iron plate at top and bottom, riveted through and through—multiplying their strength.

The "Thornhill" has a malleable front hound plate that is braced to the hounds at all points. This is an exclusive "Thornhill" feature. It prevents the

gears from ever getting out of line and causing hard pulling.

"Thornhill" wagons are equipped with long sleeve malleable—non-breakable skeins that insure light running, and outlast any other skein. Each skein is fitted to its axle with a Defiance machine—infallibly accurate. This machine insures the right pitch and tuck, makes light draft a certainty.

The axles are of toughest nickory—the steel axles of the best refined steel.

The sides of "Thornhill" beds are made of poplar. It costs the makers more—but it holds paint better and gives better service.

Come in and see this wagon—sold under a binding guarantee.
