

SAVE THE SHEEP?

Every farmer ought to raise some sheep. Had you ever thought about how much clear money there is in a bunch of sheep? They will yield more money than most any thing else on the farm. We know of some flocks of sheep that have produced more than 200 per cent clean cash in less than 12 months. Now, what can beat that? Nothing but more SHEEP. Improve your sheep until you have the very, very best.

WOOL! WOOL! WOOL!

Gradyville.

J. F. Pendleton bought here last week, a carload of hogs for May delivery.

J. F. Gilpin and wife, of Sparksville, visited their daughter, Mrs. Rose, here one day the first of the week.

Ernest Rodgers, of Roachville, spent a day or so here the first of the week.

Mike Winfrey, Circuit Clerk of Columbia, was in our midst one day last week.

Allen Rose, J. T. Rodgers and Dolphus Keltner, of Keltner, were with us last Friday.

Dr. and Mrs. L. C. Nell and their son, L. C., are in Louisville this week.

G. T. Flowers has been on the sick list for several days.

A. W. Tarter, of Columbia, spent several days of last week, on his farm, near this place, looking after his farming.

We were all very sorry to hear of the great loss of Mr. Lewis Compton, at Portland, last Wednesday, when his dwelling and barn with about all of their contents were consumed by fire. The fire originated from a defective flue.

The few days of warm sun shine put some of our people on the banks of Big creek fishing. We understand they are having fine success and there is a great many fish in the creek, of the kind we usually have in this part of Big creek.

W. L. Grady, the well-known stock man of this part of the county, is having a fine demand for his jennets and jacks almost receiving orders daily for them to be shipped to the South. When a deal of this kind turns up it means something in dollars and cents. He also sold a very fine Jack to Poke Mitchell, of Edmonton. Price not known.

The hog cholera has struck this part of the county. Judge Moss has lost several and also Henry Keltner Both living below this place on the creek.

Thos. Chastine, who lives a few miles down the creek has sold his farm to W. E. Keltner. Mr. Chastine will move to Miami in a very short time to engage in the blacksmith business.

J. C. Wooten, of Sparksville, was in our midst a few days ago and notified us that he was a candidate for the office of jailer, subject to the Republican party. Mr. Wooten was soliciting the support of his Democratic friends after the primary only.

The farmers in this section are progressing nicely with their arming for the past week. You would have no idea the amount

of work that has been done in such a short time, unless you was to drop down and take a bird's eye view for yourself. They are virtually through sowing oats and grass seed and by the way there has been over an average crop of both sown, and quite a lot of corn ground turned. We are glad to say that there was not an idler around our town during the past week. Every body was busy. Quite a number of gardens were planted.

Strong Hill and wife returned from Louisville the first of the week, where they had been on the market, buying goods in their lines for this market. Mr. Hill informed us that he bought a hearse, something that our undertakers have needed here for a number of years. From the number of coffins and caskets that have gone out from this place during the last two months, the hearse would have been in use the most of the time.

Rheumatic Pain Stopped.

The drawing of muscles, the soreness, stiffness and agonizing pain of Rheumatism quickly yield to Sloan's Liniment. It stimulates circulation to the painful part. Just apply as directed to the painful part. Just apply as directed to the sore spots. In a short time the pain gives way to a tingling sensation of comfort and warmth. Here's proof—"I have had wonderful relief since I used your Liniment on my knee. To think one application gave me relief. Sorry I haven't space to tell you the history. Thanking you for what your remedy has done for me."—James S. Ferguson, Philadelphia, Pa. Sloan's Liniment kills pain. 25c at Paul Drug Co. Adv.

Editor News:—

If you will allow me a few lines in your valuable paper, I will try and write you a little of the news.

I reached this place the 15th, and got a job the 16th, and have nice place to work. I work 8 miles North of Toledo, but the road is just fine, and so it doesn't take long to drive it in the Kissel—a seven passenger. There are more cars in this State than buggies.

The weather is just fine at present, but I guess before this is printed, it will be as cold as blue blazes. There hasn't been much farming done yet, but I suppose there will be quite a bit done the first of April.

Well, there are quite a few Kentucky people in this country, and they have treated me as nice as I ever was treated, and I want to thank them for it.

If this escapes the waste basket, I will write again.

Yours truly,
Charles Tucker.

WAR SITUATION

At intervals of a few miles each, all day can be seen what appears to be huge clouds of gray smoke. These mark the positions of the moving supply trains or cavalry patrols, squads of signal corps men on military automobiles. On the individual initiative and skill of the American soldier and his officers depends the success of moving supplies over these Mexican roads.

Marching or riding the troops find much of the road uncomfortable for travel because the mountain winds drive the sand into the men's faces with a sting as sharp as winter sleet.

The body of J. H. McKinney, the American ranchman killed by Villa on the Mexican side of the border the night before the Columbus raid, has been found by American troops. It was near the Boca Grande. McKinney had been hanged and his clothing was ripped where he had been repeatedly stabbed.

While the celebrated ride of the American cavalrymen, 110 miles in forty-two hours' marching time, was heralded throughout the United States, the work of the infantry following behind the cavalry went unnoticed. One command carrying full infantry equipment and packs of about forty-five pounds, marched twenty-six miles in about eight hours.

This was over rocky roads covered with volcanic stone or else in places where the dust drifted over them like a heavy fog.

Keep Your Skin Clear and Healthy.

There is only one way to have a clear, healthy complexion and that is to keep the bowels active and regular. Dr. King's New Life Pills will make your complexion healthy and clear, move the bowels gently, stimulate the liver, cleanse the system and purify the blood. A splendid spring medicine. 25c at Paul Drug Co. Adv.

W. L. Lemmon, who has been very sick with pneumonia, is some better.

S. Parsons was thrown from a mule Sunday, getting one arm broken and getting bruised up badly.

Rev. W. H. Lemmon has been very sick with gripe for several weeks.

Joe Moore removed from Knifley to this place last Saturday. He will run a blacksmith shop at this place.

J. O. Mitchell, of C-ville, who has been absent for a few weeks, has returned to finish turning the spokes at the spoke factory.

Evert Workman and Wilburn Ellis left Monday for Illinois.

Mr. and Mrs. D. S. Ellis, two sons, Ernest and Enoch, who have had pneumonia, are better. W. S. Sinclair made a business trip to Frankfort last week.

B. Caskey, C-ville, was here two or three days last week looking after the spoke business of the Archibald Wheel Co.

J. D. Lowe called on the merchants of this place last week.

Mr. and Mrs. T. W. Harden, Campbellsville, visited Mrs. Harden's father and brother at this place, who has been very sick.

Mrs. Mary Pelly is visiting in Iowa for several months.

Why Constipation Injures.

The bowels are the natural sewerage system of the body. When they become obstructed by constipation a part of the poisonous matter which they should carry off is absorbed into the system, making you feel dull and stupid, and interfering with the digestion and assimilation of food. This condition is quickly relieved by Chamberlain's Tablets Obtainable at Paul Drug Co. Adv.

Mogul 8-16 Saves Its Own Price In Fuel Bill Reduction

THAT'S true. A Mogul 8-16 kerosene tractor saves its own price in fuel bill saving, as compared with a gasoline tractor.

Until April 1st the price remains at \$675 cash f. o. b. Chicago. Fortunate early purchases of material still allow you this low figure. After April 1st the price will be \$725, same terms.

At either price the Mogul 8-16 is by far the most economical tractor because it operates on cheap, common kerosene or coal oil. Gasoline to run the gasoline tractor costs over 100 per cent more than the kerosene a Mogul 8-16 will use. Which is best for you?

You know what gasoline costs you, and you know what you pay for kerosene. Figure it out yourself, or see your dealer. This is a saving you can't afford to miss.
