DAILY EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.

ROSSER & McCARTHY,

Proprietors.

MONDAY EVE., NOVEMBER 8, 1886.

JOHN R. McLEAN, of the Cincinnati Enquirer, is said to be the richest man in that city. His fortune is away up in the millions.

COLORADO has been wavering in the the balance ever since she was admitted as a State, but will waver no longer. She is a Democratic State now.

THE Republican Enterprise still harps about Democratic "boodle," when it knows all the time that it was George M. Thomas' money that pulled him through.

THE laws relating to bribery in elections are dead letters for want of enforcement.—Ironton Irontonian.

"Pity 'tis, but 'tis true," here as elsewhere.

MILLERSBURG precinct, Bourbon County, has two hundred and fifty votes, but at the recent election only ninety-four of these were polled. This is a striking instance of the apathy in the Democratic ranks.

LET $100,000,000 be taken out of circulation and piled up in the vaults of the treasury for a few years longer, and money will be so scarce that the "laborer" will never see any of it, unless some plan be devised to get it back among the people.

THE majority for prohibition in Christian County is eighty-six. Of the nineteen saloons in Hopkinsville, fourteen have already closed, four will quit business the first of January and the last one will close up shop on the 9th of next April.

IN referring to the recent election, the Bourbon News remarks: "Every sorehead who didn't get a postoffice or still-house watch throughout the land stayed at home. Barring the defeat of Judge Wall, we are glad that the party has had a close call. It will save us from defeat in 1888."

ABOUT $100,000,000 annually is being added to the surplus now in the treasury by the high tariff. Still the protectionists argue that the tariff is not too high, and hold free trade up as a bugaboo to scare the working masses of the people. The strongest argument in favor of a revision is the fact of this immense surplus being taken out of circulation and piled up year after year in the treasury.

IF the people come to a realization of the fact that money is being taken out of their pockets for no good use, which must either be squandered in extravagant appropriations or heaped up in the treasury, they will take prompt measures to see that taxation is reduced. And when it comes to a question whether the taxes shall be taken off from liquors and tobaco, or from the materials of manufacture, the choice will not be doubtful or long delayed. If the case shall be presented in this way, as there is every reason to think that it will be, tariff reform will come about with a certainty that will surprise a good many theorists on both sides of the question.—New York Times.

Agricultural.

Not less than 20,000 pounds of starch are made annually in Maine from potatoes.

The American Dairyman does not consider that coloring is an adulteration of butter.

Great Britain will need to import from 140,000,000 to 150,000,000 bushels of wheat this year.

Some of the Indians in Dakota are said to be proving themselves rather successful wheat growers.

France will need from 28,000,000 to 30,000,000 bushels more of wheat this year than it has grown.

The sugar beet crop of Europe is estimated at 2,475,000 tons, an increase of about 379,000 tons over 1885.

Out of one hundred samples of milk, from as many milkmen, recently collected in Boston, 10 per cent. were found to be adulterated.

The year 1886 has not been a good year for making honey. The quantity in many honey districts is not one-half as great as usual.

Experiments with nearly all kinds of feeding materials show that it is cheaper to use a variety than to confine the animals to a single kind.

The London Daily News says that the year 1886 will stand out conspicuously in the horticultural annals of England as one of the heaviest fruit years ever known.

Rotten potatoes should be burned or buried. Their manurial value is small, stock will not eat them, and their presence about the premises is an invitation to disease.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by J. C. Pecor & Co.

Attempted Assassination.

KNOXVILLE, Tenn., Nov. 8—A dastardly attempt was made to assassinate William Carr and family, of Union county. Carr and his son were unloading corn at the barn, a daughter of about nine years being on top of the wagon, when they were surprised by a volley of shots from a thicket near by. Each of the three received a portion of two loads of buckshot, and it is thought that all were fatally injured. Carr cannot possibly recover. Tom Berry, a distant relative of the Carrs, has been arrested and made a confession. He was lodged in jail, and it is feared now that he will be lynched in spite of all that the officers can do to prevent it.

College Building Burned.

STEWARTSVILLE, Mo., Nov. 8.—About 9 o'clock in the morning, Stewartsville college was discovered on fire and the building and its contents were soon in ashes. The first intimation of fire to the inmates came from smoke pouring into the recitation room, and examination showed the cupola and the greater portion of the roof surrounding it to be in a blaze. Every effort was made by the students and college employes to save the building, but the flames had gained too much headway. Loss over $10,000; insurance $5,000.

Startling Assertions.

CHICAGO, Nov. 8.—Daniel F. Gleeson, who ran against Frank Lawler for congress in the Second district, made some startling assertions to a reporter. Mr. Gleeson was in the election commissioners' rooms early, and said that before the day was over he would produce affidavits from men who would swear that they saw election judges in some of the precincts erase the figures credited to Gleeson and put them in smaller.

Roosevelt Goes to Europe.

NEW YORK, Nov. 8.—Theodore Roosevelt, late candidate of the Republican party for mayor of the city at the last election, sailed for Europe on the Cunard steamer Etruria to-day. He is accompanied by his sister. Mr. Roosevelt will spend some time abroad, and intends getting married while in Europe. His choice is Miss Edith Carow, of this city.

Assignment.

BALTIMORE, Nov. 8.—The failure is announced of P. Hanson, Hess & Co., importers and manufacturers of furniture, draperies, mirrors, ornaments, wall papers and frescoes, at 45 North Charles street, with a branch house in Washington, at 815 Fifteenth street, N. W.

Hackmen to Observe the Sabbath.

MONTREAL, Nov. 8.—The Hackmen's union has issued a circular stating that as God commanded man to keep the Sabbath day holy, they have agreed to abstain from labors Sundays, and have requested all the hackmen to follow their example.

Death of the Astor House Chef.

NEW YORK, Nov. 8.—Charles Babin, the Astor house chef, who was shot on Monday night last by Joseph Ott, a waiter, who afterwards committed suicide, died in Chambers street hospital.

Knitting Mills to Remain Closed.

COHOES, N. Y., Nov. 8.—Messrs. Bailey and McGuire, of the National executive board, Knights of Labor, are here now. Nothing was done, and from the talk of the manufacturers the knitting mills in the National association will be closed until January 1.

Beaten and Robbed.

LIMA, O., Nov. 8.—Several unknown men entered the house of Richard Peach, Friday night, and beat him over the head with clubs until he was insensible. They then robbed him of $400 and left. Peach's injuries are terrible and possibly fatal.

Fatally Burned With a Match.

YOUNGSTOWN, O., Nov. 8.—A three-year old son of William Black, of Lansingville, while playing with matches last night, set his clothes on fire and was so badly burned that he died a few hours later.

Small Talk.

Where does a buckboard?

The violinist is always up to his chin in business.

Fat men ought to see the sea-serpent tip the scales.

The workingmen of New York now swear "By George."

It takes a handsome young boilermaker to rivet himself for life.

It's very cold in Europe. A Russian chill has settled upon the continent.

The telephone complication just now is a complication of "Sweet Bells jangled."

A newspaper article is headed, "Earthquake Lore." That is right. The lower the better.

"No Admitance Behind the Bar," the fellow said to the mosquito when he crawled under the netting.

It is stated that Henry Clay never was at a loss for a word. From this it is evident that Henry never jammed his thumb in a door.

An old lady in New York gives it as her opinion that "there is going to be a war, because of the birth of so many boy babies." We infer from this that the old lady thinks the boys will marry. If they do, war will probably follow.
