Mrs. MARTHA BESS, a sister of Mrs. Hettie Davis of this city, died August 24th at Keokuk, Iowa, aged nearly 64. She was born in this city and married James Bess before removing to Iowa some thirty-eight years ago. Her husband has been dead several years. Three children survive.

YOU'RE not obliged to believe this Lewis county yarn if you don't want to. Mrs. Sallie Willis of Sand Hill is almost blind, but she beats the record with her tongue. When she wants to thread a needle she simply puts the needle and thread in her mouth and with her tongue she threads it in less time than most persons could with their fingers.

CHARLEY McMEANS and Miss Lizzie Watkins, a verdant couple from Greenup, swooped down on Ironton to get married. Finding that a license and the incidentals would cost about \$3.50 Charles announced that he had only \$2, and yanking his girl by the arm he said, "Let us go back home while we have money; we can get married there;" and the license clerk was forced to make a red ink entry on his record. "Error," says he hasn't enough money to pay for license and preacher.

BUD HATFIELD, a carpenter at Franklin, O., met with a painful and peculiar accident. He was shingling a roof when he lost his balance and fell to the eaves, when a large gold band ring which he wore on his little finger caught upon a nail. The momentum acquired in rolling down the roof carried him over, and for a second he hung by the nail, when the ring, having cut completely through the finger, gave way and he dropped to the ground. Except the loss of the finger he sustained no serious injury.

THE first birth that has occurred in the Frankfort Penitentiary for several years was recorded Saturday. Lily White, the mulatto sent from Lexington for the noted wholesale poisoning of a family, is the mother. At the woman's trial her condition was developed, notwithstanding she had been in jail continually for fifteen months. It was also developed that she had resorted to a most extraordinary ruse to escape hanging, but it has never been proved who was the party to the ruse that had its unusual climax.

THERE is an epidemic of flux at Stone City, Lewis county.

JOHN WILCOXSON, the negro who murdered a young man named Coffee, his object being robbery, was killed by a mob in the Edmontown jail.

THERE were 176 business failures in the United States and Canada during the last seven days, as against 217 for the corresponding week of last year.

R. L. BROWNING the Dry Goods man will leave to-night for New York to purchase the season's stock. Look for nice goods and handsome bargains on his return.

FITZPATRICK, a few years ago the most successful and aristocratic tailor in Cincinnati, is now serving out a thirty day and \$25 fine sentence in the Workhouse of that city.

THE Maysville Colored School has been painted and papered and looks like a new pin on the inside. The hope of the trustees is that the teachers may be inspired by their surroundings.

TALTON HALL, the many times murderer, died Friday at Wise Courthouse, Va. His death was sudden and due to heart failure. Of course the rope around his neck and the subsequent fall had nothing to do with it.

W. C. PAYNE, Agent Adams Express Company, who has supervisory charge of this section, recently found 287 "Old Hoss" packages in the office at Richardson. This was largely owing to the suspension of boating on the upper Sandy.

DAVID L. HARDESTY of Lexington is in the hands of Uncle Sam's representatives for using the mails in sending out circulars offering to furnish sample cases of whisky to agents, and charging them \$5.50 for what was worth only \$1.65. It is thought his aim was to defraud people, as he was not a liquor dealer.

THERE is a great big row over the possession of Wesleyan College, Cincinnati. The Browns are in occupancy and the Trustees have resorted to all sorts of trickery to get them out, having failed so far by legal procedure. When religionists indulge in such disgraceful scenes, it's about time to stop talking about the wickedness of Vine street.

WILLIAM HOLDER and Owen Walker, the latter a pilfering negro, became involved in a fight at the K. C. Depot at Richmond and both received dangerous wounds. Holder stabbed Walker in the back, and the latter responded by shooting his assailant in the abdomen. The negro was stealing vegetables from Holder's market when he was attacked. Both were arrested. The wounds are serious and may prove fatal to each.

Hon. T. H. Paynter Now Has Enough Votes to Nominate.

Bracken, Harrison and Nicholas counties had already made their delegates to the convention to be held at Carlisle to-morrow.

Saturday Carter, Greenup, Lewis, Lawrence and Mason held their meetings and each of these counties sent up delegations instigated for Mr. Paynter. This insures his renomination beyond a doubt.

IN THE primaries of Harrison county Saturday W. W. Kimbrough won by 800 majority, defeating Hanson Kennedy of Nicholas, Winfield Buckler of Robertson, and Thomas Owen of Nicholas, in the order named, for nomination for Circuit Judge.

Reports from the remaining counties of the District—Pendleton and Robertson—indicate a close vote, with the chances in favor of Kimbrough.

J. T. Simon of Harrison was nominated for Commonwealth's Attorney without opposition.

THE barns of George Parker and William Reese of Cold Springs were burned Friday evening. Coal oil was found a few days ago sprinkled on the residence of Thomas Dameron at the same place, and it is now thought that firebugs were at work.

THE editor of The State News of Lexington was in Maysville during the fair and among other good things he says about the city and its citizens is the following: The genial Captain Roser took good care of ye editor when in the city. The fair was in progress and the hotels crowded; he invited us to his palatial residence on Front street; we slept with his oldest son who, by the way, is studying a trip to Europe recently, returning with some knowledge of the high profession of which he seeks to become master. We found him to be a very intelligent young gentleman. His prospects are very flattering for the future and The News wishes some day to record the fact that Mr. Roser is second to none in his profession.

THE employees of the Newport Rolling Mill went on a strike because the mill used iron that had the Carnegie brand on it. Suppose it had been branded with the name of some British concern that pays its workmen less than half the wages that the Carnegie Company pays?

ACCORDING to M. Flammarion, the French astronomer, the mean temperature of Paris during the past six years has been about two degrees below the normal. It is also stated that Great Britain, Belgium, Spain, Italy, Austria and Germany have also been growing cold.

FOR a lame back or for a pain in the side or chest, try saturating a piece of flannel with Chamberlain's Pain Balm and binding it onto the affected parts. This treatment will cure any ordinary case in one or two days. Pain Balm also cures rheumatism. 50 cent bottles for sale by Power & Reynolds.

WILLIAM DUNN, the well-known trainer of Danville, has bought of Jesse Dunn the yearling trotting filly Fannie Pittman, by Gambetta 1172, dam by Banker. The price paid was \$1,000. This is considered the fastest trotter of her age in the state. She will not be sent for any fast work this year, but is expected to make a phenomenal mark next season.

THE Falklands Islands produce no trees, but they do produce wood in a very remarkable shape. You will see scattered here and there singular blocks of what looks like weather-beaten, mossy, gray stones of various size. But if you attempt to roll over one of these rounded boulders you will find yourself unable to accomplish it. In fact, the stone is tied down to the ground—tied down by the roots; or in other words, it is not a stone, but a block of living wood.

THE family of John Williams, a farmer who lives about eleven miles West of Danville, was awakened at a late hour of the night by a crackling of flames, and barely had time to escape alive. They lost everything, even to their clothing, and Mr. Williams's son-in-law lost his hair, which was singed off by the fire before he was awakened. Old man Williams, who is counted a dangerous man, had some trouble with some tough characters in the neighborhood, and, as one thing was seen lurking in the bushes shortly after the fire, he thinks one of them set his residence afire. He swears vengeance, and it is not improbable that one or two shooting scrapes will result.

SCIOVILLE, O., Sept. 5.—Henry Kemper, employed at the C. W. Maner saw mill on Bonser run, four miles from this place, met with a probably fatal accident. While assisting in the work of running the mill he fell on the large saw. His right leg was cut off at the knee joint, the right hip frightfully cut, and the left leg mangled below the knee, necessitating amputation. He is the same young man who was knocked in the head with a rock and almost killed, a short time since, by some drunken hoodlums at Portsmouth, O., from which injury he had hardly recovered.

A Farmer Mysteriously Missing.

JACKSON, Mich., Sept. 5.—Thomas Purcell, a farmer of Painesville township, this county, is mysteriously missing. Tuesday he drove to Concord to pay a \$200 mortgage. He was prosperous and could have no reason for going away. The authorities are working on the case.

Reappearance of a New Star.

BOSTON, Sept. 5.—A cable message from the European Union of astronomers to Mr. J. E. Elstie, Jr., announces the reappearance of the new star in Auriga. It has now reappeared, being of the 2.9 magnitude on August 21 and 4.8 magnitude on August 31. The spectrum is monochromatic.

Greave Accusation Against Barillas.

CITY OF MEXICO, Sept. 5.—A formal written accusation against ex-President Barillas has been presented to the Guatemalan congress. The document bears several thousand signatures. Killed Her Stepmother.

BARDSTOWN, Ky., Sept. 5.—The eldest daughter of John Nalley, living in the Greenbriar section, objected to a stepmother being brought into the family.
