A BIT OF ADVICE

First—Don't Delay. Second—Don't Experiment

If you suffer from backache; headaches or dizzy spells; if you rest poorly and are languid in the morning; if the kidney secretions are irregular and unnatural in appearance, do not delay. In such cases the kidneys often need help. Doan's Kidney Pills are especially prepared for kidney trouble. They are recommended by thousands. Can Hartford residents desire more convincing proof of their effectiveness than the statement of a Hartford citizen who has used them and willingly testifies to their worth?

L. P. Turner, farmer, Clay street, Hartford, says: "I am glad to recommend Doan's Kidney Pills because they relieved me when my kidneys and back troubled me. I consider Doan's Kidney Pills a reliable kidney medicine and deserving of great praise."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Turner had. Foster-Milburn Co., Props., Buffalo, N. Y. Advertisement.

A Voice From Sioux City, Iowa, says

PE-RU-NA

Worth Its Weight In Gold

You cannot mistake the words of Mr. W. W. Northrup, of 908 Fourth Street, Sioux City, Iowa. He is enthusiastic about his present health and the merits of PE-RU-NA and wants everyone to know it. Here is a recent letter from him:

PE-RU-NA is worth its weight in gold and then some. I used to think it only a woman's remedy but have changed my mind. I had a cough, especially in the morning. After several bottles of PE-RU-NA was used I found I could cough up handfuls of phlegm and mucus, my eyes itched and both sides of my face were swollen. I had been given several bottles of other remedies. My stomach felt better a million times since using your medicine.

There are thousands just like Mr. Northrup, skeptical at first but convinced by a trial of PE-RU-NA.

DON'T BE AN UNBELIEVER. If your trouble is of a catarrhal nature, try PE-RU-NA, then tell your friends. It is fine after an attack of grip or Spanish Flu.

An Easy Way to Get Bigger Grain Yields with Less Seed

Planting with a grain drill, instead of with a broadcast seeder will cause you no more work, in fact, considerably less, and in a short time the saving in seed will pay for the drill.

That, in itself, is sufficient reason why we want you to see the John Deere-Van Brunt Grain Drill we have on display. There are other reasons that apply only to the Van Brunt. This drill has a patented, adjustable gate force feed that successfully handles any size seed from alfalfa to bearded oats without choking.

The force feed compels the seed to leave the grain box in

even continuous streams and the seed is protected until it reaches the bottom of the furrow.

That is why a field planted with a Van Brunt Drill makes such a pleasing appearance to the eye—and why it adds extra money to your bank account. All of the grain is ready for harvest at one time. There are no bare spots in the field and you can feel absolutely sure that no seed is wasted in planting. Come in and let us show you how easy it is to regulate the flow of seed so that an equal amount is placed in each furrow—simply moving a lever regulates the quantity sown.

It's no wonder woolen frocks are enjoying such popularity when they are as fascinatingly styled as these late interpretations. Unexpected and strikingly original are the lines which they follow.
