HON. HARVEY HELM

of Lincoln county, is a candidate for re-nomination for Congress from the Eighth district, subject to the action of the democratic party.

THE INTERIOR JOURNAL goes to its readers this issue slightly altered in its general appearance. We hope that its patrons will approve the changes in form of make-up and the effort that is made to make it more metropolitan in appearance, and more complete with live local news.

We deeply appreciate the warm-hearted, whole-souled welcome which the good people of Stanford and community have given us and ours, and hope to make the INTERIOR JOURNAL such a good newspaper that it will continue to be a welcome visitor to every home.

Almost 100 new names have been added to the paper's mailing list already this week. No paper in this part of the State, outside of Lexington, compares in circulation with the INTERIOR JOURNAL.

GOVERNOR WILLSON vetoed the celebrated Louisville Ripper bill, designed to take the office of city attorney from the republican incumbent and give it to a democrat. The republicans protested from one end of the State to the other over this "steal."

OF course everyone in Lincoln county is proud that her son will continue to so well represent the Eighth district in the National Congress.

THE establishment of a five-million-pound tobacco prizing warehouse here, which is now said to be assured, will make Stanford rightfully the center of the tobacco growing interests south of the Kentucky river.

Wants "V's" Off Court-house.

Preachersville Reporter Says They Are Out of Date--Live News.

PREACHERSVILLE, KY. We are one of Lincoln county's most humble citizens, yet we cannot refrain from making one suggestion--that those cranky Colonial style of letter "V's" on the front of our new court-house be changed so as to look as modern as the rest of this magnificent structure.

Do farmers eat the proper sort of food?

The farmer of today buys a much larger proportion of the food that goes on the table than he did ten years ago. It's a good thing that this is so because he has a great variety to select from.

The widespread tendency in the city to increase the amount of Quaker Oats eaten is due very largely to the recent demonstrations by scientific men that the Quaker Oats fed man is the man with greatest physical endurance and greatest mental vigor.

Farmers should give this subject careful thought and should increase the quantity of Quaker Oats eaten by themselves, their children and the farm hands.

Packed in regular size 1lb packages, and in hermetically sealed tins for hot climates.
