NATION-WIDE CAMPAIGN OF EPISCOPAL CHURCH.

This is the last appeal in the press in the Nation-Wide Campaign, for money to push the work of the Episcopal Church, in the Lexington Diocese, of which this parish is a part.

The apportionments are calculated mathematically and with the exception of the Colored Mission, are proportioned to the amount of the annual expenditures upon itself of each Parish or Mission, taken in connection with its baptized membership. There is, therefore, entire impartiality and nothing arbitrary in the fixing of the parochial quotas. It has been announced from the National Headquarters of the Nation-Wide Campaign that what is received from the General Church will be proportioned to what is contributed from here, to objects outside this Diocese.

The quotas present the share of each Parish and Mission in the apportionment for each of the three years laid upon this Diocese by the National Organization of the Nation-Wide Campaign, for objects outside the Diocese, such as Missions, Religious Education and Social Service. If the organization is able to grant all the Diocesan askings, this Diocese shall receive back as a Diocese from the General Church, several times as much as it is asked as a Diocese to give to objects outside the Diocese.

Margaret College is the Diocesan Institute as Versailles, Kentucky, for Education of Episcopalian girls and has been so successful as to require aid to enable it to take advantage of its great opportunities. This Diocese has asked for \$30,000 from the General Church for the development of Margaret College, with the understanding that the Diocese would raise \$5,000 for Margaret College each year for three years. Thus at the end of the three-year period, Margaret College will altogether have received \$45,000 which will so enlarge and equip it, as will enable it to accommodate its "waiting list" of pupils and make room for many others in addition.

The total asked in the Lexington Diocese every year for three years is: To general budget, \$15,935.01; Margaret College, \$5,000.04, increase for clerical salaries, \$74.05; total, \$24,709.10. Further information will be furnished by the local chairman, Mrs. Wilson Stillwell.

DR. LEIGH ADDRESSES PUPILS OF HIGH SCHOOLS.

Dr. T. R. Leigh, who occupies the Chair of Chemistry and Analytical Research in the Georgetown College, delivered an interesting and entertaining address to the pupils of the Paris High School Tuesday afternoon.

Dr. Leigh took for his theme, "The Story of a Lump of Coal," showing the formation of coal from the beginning to the time it is taken from the mines. The subject was made so plain to the pupils that even the dullest understood. Dr. Leigh, the author of an article which gained world-wide fame during the war, in which he showed conclusively and scientifically that the great inventions and scientific discoveries claimed by the Germans were really products of American English and French ingenuity and scientific research.

A Prominent Woman's Testimony

Louisville, Ky.:—"I can certainly praise Dr. Pierce's remedies for the benefit I have received from them. The 'Lotion Tablets' I used on my doctor's recommendation about four years ago. I had a condition that weakened me terribly and I lost flesh as well. These tablets cured me of all inflammation. I afterwards took the 'Favorite Prescription' and it built me up in health and strength; my weight increased seven pounds while taking the first bottle. I have also taken Dr. Pierce's Pleasant Pellets for biliousness and inactive liver, and am confident that there is no other medicine made that can equal them for giving prompt relief."—MRS. ELEANOR STEINMETZ, 1049 E. Washington St.

A Woman's Experience in Middle Life

Covington, Ky.:—"Dr. Pierce's Favorite Prescription and Golden Medical Discovery are the very best medicines I have ever taken. They brought me thru when I was so ill that I was bedfast for weeks. I had heard so much about Dr. Pierce's medicines that I finally sent for the 'Golden Medical Discovery' and the 'Favorite Prescription' and with the first few doses that I took my health commenced to improve until I became a perfectly well woman. I cannot praise these medicines too highly. I only hope this statement will be the means of other women who are weak and suffering, especially those at the critical time of middle life, giving Dr. Pierce's medicines a trial."—MRS. CARRIE PAYNE, 1458 Cordelia St.

When a girl becomes a woman, when a woman becomes a mother, when a woman passes through the changes of middle life, are the three periods of life when health and strength are most needed to withstand the pain and distress often caused by severe organic disturbances. At these critical times women are best fortified by the use of Dr. Pierce's Favorite Prescription, an old remedy of proved worth.

Goat Good Milk Producer.

Mr. Winthrop Howland of Redlands, Cal., last year had a Swiss Toggenburg goat, kept on the University of California farm, which broke the world's record as a milk producer, by over 300 pounds. For the period of one year this doe produced 2,941 pounds of rich sweet milk, or more than 24 times her own weight. The period of lactation for a good doe should be from seven to eight months.
