

HAGENBECK - WALLACE CIRCUS AT LEXINGTON, APRIL 28.

The great Hagenbeck-Wallace shows combined, is to visit Lexington on Wednesday, April 28. Great interest attaches to the event because amusement lovers will have a chance of viewing the combined performance of the two greatest circus organizations on the road. The Hagenbeck trained wild animals are famed in every nation on the globe. At the European headquarters of the show, London, England, the animals are transported after their capture and taught to perform remarkable feats.

The history of the Great Wallace Circus is a part of the history of America. With the stalwart B. E. Wallace as the originator the show grew from a single wagon to one of the most colossal institutions of its kind. Starting as a poor Indiana farmer boy Mr. Wallace by perseverance and honesty in the course of thirty years, saw his show reach the pinnacle of America's circuses. With his many and varied interests he devotes his personal attention to the interests of the Hagenbeck-Wallace shows. There are in the neighborhood of 1,000 people connected with the big show. He personally engages every attache. The combined shows are transported from city to city upon three of the longest circus trains in America. (adv)

TRANSYLVANIA OBSERVES HENRY CLAY'S BIRTHDAY

Transylvania College at Lexington celebrated with appropriate ceremonies the past week the birthday of Henry Clay, Kentucky statesman, who at one time was a member of the faculty of that institution and later one of its curators. The speaker for the occasion was Judge Charles Kerr, of Lexington, who long has been a student of the life of the great Kentuckian, and who is engaged now in writing a history of the Commonwealth to the service of which Mr. Clay gave so many years in Legislature, Congress and U. S. Senate. The birthday of Clay is an annual event with Transylvania, which thus pays tribute to his his memory.

"IT HAS MADE A NEW WOMAN OF ME"

That Is What Mrs. Bartlett Says After Taking Tanlac

"Tanlac is certainly a wonderful medicine to do what it has done for me," was the statement made the other day by Mrs. Frances Bartlett, who lives at 1106 Norwood avenue, Toledo, Ohio.

For the past five or six years I suffered so much from stomach trouble, nervousness and a general run-down condition that I saw little pleasure in life. Mrs. Bartlett continued: "And then when I had the influenza over a year ago it left me so weak and miserable that I almost suffered a complete breakdown. I was unable to even sweep the floor, for I would give out completely and one to keep up the house it hurt when my husband had to get some me so that I almost gave up heart. My digestion was so bad that I nearly lost my appetite, and what I did eat bloated me up with gas and caused me to suffer agonies from pains in my stomach. Dizzy, nauseating spells would come over me suddenly and I would have to lie down wherever I happened to be. I was so weak and short-winded that I could not walk a full block without having to stop and rest. I was so nervous that for past two years I didn't know what it was to get a good night's sleep. In fact, I had fallen off in weight, and was in such a miserable condition that I just hate to think what a wreck I was and can hardly understand how I held out as long as I did.

"About a month ago my husband came home with a bottle of Tanlac and said he had been hearing so much about it that he wanted me to try it. I began to improve right away and now, although I have taken only three bottles, I feel that I have been made over into a new woman. I eat just anything I want and am never troubled afterwards in the least. Those dizzy, nauseating spells don't bother me any more and I am doing all my house-work by myself. The nervousness has all left me and I am now enjoying sound, restful sleep every night. Already I have gained eight pounds in weight and have more strength and energy than I have had in six years. I am just so happy over what Tanlac has done for me that I want to tell other suffering people about this medicine."

Tanlac is sold in Paris at Peoples Pharmacy. (adv)

Wage Successful War on Pest.

The worst enemy of the grape growers in California is a minute insect called the "thunder fly," because it appears in greatest numbers in hot and sultry weather, when thunder storms are frequent. A man out there has invented a suction apparatus, with a ten-horsepower blower, that is placed on wheels and driven through the vineyards, harvesting the pests from the vines as it goes along. It is said to work very successfully.

ARE YOU HAPPY?

To be happy you must be well. If you are frequently troubled with constipation and indigestion you cannot be altogether happy. Take Chamberlain's Tablets to correct these disorders. They are prompt and effectual, easy and pleasant to take. (adv)

Kentucky's Greatest Clothing Institution

(The Name of Kentucky Circle 1920)

CLOTHES that know no clique or clan. They're just as popular with the American farmer as with the Wall Street financier or the University man at Yale or Princeton.

From Southern Indiana to Northern Tennessee they are worn by men who want typical American style, quality that gives real service—true economy.

You do not pay one cent extra for the added convenience of shopping at the "Store of Standardized Values." If you can buy anything for less elsewhere we will refund your purchase price.

This Clothing Institution, established 50 years ago at Versailles, Ky., later moved to Lexington, and then to Frankfort—and finally located in Louisville—is as truly a store of the Commonwealth of Kentucky as of the City of Louisville.

PROCLAMATION BY THE STATE BOARD OF HEALTH

WHEREAS, The winter's accumulation of decaying filth and refuse in alleys and streets of cities and towns, and especially in and about the back premises of almost all homes, rich and poor, in cities, towns and country districts, constitute an annually recurring menace to the health, life and comfort of the entire population of Kentucky, which easily and inexpensively can be hauled away and spread upon gardens and farms where it is much needed if all classes of the people will lend a hand in the work now;

THEREFORE, Be it known that the State Board of Health, by virtue of authority vested in it by law, hereby joins the State Federation of Womens' Clubs in designating and proclaiming the period from April 26th to May 2nd, as "Clean-Up-Week," this to include hosing and white-washing, for every home in Kentucky; and in this health and life-saving work earnestly appeals for the full and active co-operation for the entire week of all city and county officials, day Sunday school teachers and pupils—their duty to begin with the school house and grounds so as to make them models for the community—preachers and their church members, womens' clubs, Red Cross chapters, newspapers, and every family, and especially asking city and town officials and heads of families to furnish teams and the heavy labor necessary in hauling off the refuse which, with this encouragement, the women and children can be relied upon to collect at accessible places; and the Board urges the wrong way.

that the press, womens' clubs, clergy and teachers give this proclamation such publicity as will make it effective, with plea that the clean-up be repeated monthly until cold weather sets in next fall, except that it be weekly as to the manure in all stables where horses are kept in order to put an end to the breeding of flies.

Given under our hands and the Seal of the Board, this 20th day of April, 1920.

JOHN G. SOUTH, M. D., President.
 A. T. McCORMICK, M. D., Secretary.

HOW DIPHTHERIA IS CONTRACTED

One often hears the expression, "My child caught a severe cold which developed into diphtheria," when the truth was that the cold had simply left the little one particularly susceptible to the wandering diphtheria germ. If your child has a cold when diphtheria is prevalent you should take him out of school and keep him off the street until fully recovered, as there is a hundred times more danger of his taking diphtheria when he has a cold. When Chamberlain's Cough Remedy is given it quickly cures the cold and lessens the danger of diphtheria or any other germ disease being contracted. (adv)

Business and life are like a bank account—you can't take out more than you put in.

The "cat" in most people comes can be relied upon to collect at accessible places; and the Board urges the wrong way.

HOW IS YOUR COMPLEXION?

A woman should grow more beautiful as she grows older and she will with due regard to baths, diet and exercise, and by keeping her liver and bowels in good working order. If you are haggard and yellow, your eyes losing their lustre and whites becoming yellowish, your flesh flabby, it may be due to indigestion or to a sluggish liver. Chamberlain's Tablets correct these disorders. (adv)

Dr. Waddell's Pile Remedy
