

**Ford**  
THE UNIVERSAL CAR

**Buyers to Share in Profits  
Lower Prices on Ford Cars**

Effective from August 1, 1914, to August 1, 1915 and guaranteed against any reduction during that time:

Touring Car	-	\$490
Runabout	-	440
Town Car	-	690

F. O. B. Detroit, all cars fully equipped. (In the United States of America only.)

Further, we will be able to obtain the maximum efficiency in our factory production, and the minimum cost in our purchasing and sales departments if we can reach an output of 300,000 cars between the above dates.

And should we reach this production, we agree to pay as the buyer's share from \$40 to \$60 per car (on or about August 1, 1915) to every retail buyer who purchases a new Ford car between August 1, 1914 and August 1, 1915.

For further particulars regarding these low prices and profit-sharing plan, see the nearest Ford Branch or Dealer.

**SOME FACTS IN REGARD TO CRIMSON CLOVER**

Crimson clover is a cover and green manure crop of such value that every farmer in the State of Kentucky could find use for it on his farm. No other crop grown for similar purposes possesses as many advantages as crimson clover. Seeding is cheap—an important consideration. It may be seeded late in the summer after small grain crops are removed or in cultivated crops after cultivation ceases. It protects the soil during the winter and spring and furnishes large quantities of material rich in nitrogen which can be plowed under in sufficient season to permit planting corn or other cultivated crop. It is in fact a crop which interferes with few of the regular crops commonly grown on the farm and yet capable of improving soil almost as much as the longer lived red clover. While it is preeminently a soil improving crop, it will furnish fall and early spring pasture and will make considerable hay of fair quality. Red clover is proving a failure in so many cases that we must use something to take its place if we are to maintain the productiveness of our soils, and crimson clover is undoubtedly the best substitute we have.

Many farmers have had poor success with crimson clover, and this has led to the belief that it is not adapted to Kentucky conditions. Most of these failures were doubtless due to a lack of knowledge of the requirements of the crop and careless and thoughtless methods of seeding. Crimson clover will not succeed every year and the farmer should learn when to plant it and when not to. It will succeed in most seasons, however, if rightly handled, and the crop is of such tremendous value that every farmer should make repeated tests with it until he learns how to grow it or proves decisively that it cannot be grown on his land. The following instructions will help the crop to succeed:

Do not plant in corn or cultivated crops of any kind unless there is abundant moisture at the time of the seeding. When planting alone prepare a good seed bed. A good seed bed is one that is fine and made firm by rolling.

Cover the seed carefully. Every seed not covered will probably be lost. Do not cover too deeply, however, or the seed may not get up. A clover drill is splendid for sowing crimson clover seed.

Do not sow later than the first of September and preferably by the middle of August.

Get good seed. Buy it by sample and test it for germination. Plant 100 seeds in a box of clean sand and keep the sand moist. If less than 90 seeds grow, refuse to buy the seed.

Do not pasture too close in the fall, nor too late, for if you do it will certainly winter kill.

Do not plant on a poor thin piece of land without first fertilizing. In most cases an application of 200 pounds of acid phosphate per acre will be a satisfactory treatment.

Do not plant on wet or poorly drained land. No clover will grow on such land.

E. J. KINNEY,  
Asst. Agronomist Kentucky Experiment Station.

It may not be of much interest to anyone, but if I were compelled to become a dog, I would prefer being a bull dog. I have never yet seen a tin can tied to a bull dog's tail.

**A Sufferer From Rheumatism for 25 Years Tells  
What The Great Andes Medicines Did for Him**

When anyone has suffered from an ailment for 25 or 30 years the disease has become chronic and in many cases incurable, especially so in Rheumatism, as it is a well known fact that there are few medicines that will eliminate uric acid entirely from the system. Andes' great prescription, where properly used and given a good, fair and impartial trial, will positively remove all uric acid from the system by its action on the kidneys.

And where the joints have become stiff or swollen Andes' Oil used externally with the Great Prescription, will cure any case that is curable.

Mr. J. W. H. Jennings, of 502 Columbus street, has been a chronic sufferer from Rheumatism for 25 or 30 years. He says: "I have spent many a dollar for medicine that has done me no

good whatever. I have been using Andes' Prescription and Oil about two weeks, and it has done me more real good than any medicine I have ever taken."

Andes' Prescription cures all forms of Kidney, Liver and Bladder troubles, Weak Back, Pains over Kidneys, having frequent desire to empty the bladder, skin yellow or sallow, losing flesh, appetite poor, tongue coated, bad taste in mouth on arising, weak spells, dizzy and lightness of head, shortness of breath, palpitation of the heart, bloating and fullness after meals, constipated, sick nervous headaches and hot flashes. Price, Andes' Great Prescription, \$1.00 per bottle, 3 for \$2.50, 6 for \$5.00.

Order by mail if you can't call. All directions and information enclosed with each shipment. Also the valuable book, "Health

and Happiness," sent and given to every caller free.

Andes' Great Oil has no equal for curing deafness. Mr. H. T. Crawford, of 329 South Holt street, 65 years of age, has been hard of hearing for a number of years. Last night before an audience of 4,000 he was made to understand, anything 40 feet away. Ringing, roaring, hissing, buzzing, sounds, contracting cold early, ears stopped up, wax dry in ear, all these troubles can be overcome by using Andes' Oil in and around ear, and the Great Prescription must be used internally. Price of the Great Oil, 50 cents per bottle, 3 for \$1.25.

These are the medicines that are doing so much good in Montgomery county. They are sold by The Mt. Sterling Drug Co. and W. S. Lloyd. Adv.

**CLIPPINGS FROM THE SNAGTOWN TORCH**

H. E. Megginson says he wishes the people would get things straight before they set to talking about it. He made the announcement from the top of a rail fence the other day that he expected to die in Snagtown. Someone reported this to someone else, and the report was started that Mr. Megginson was dying. Then the report traveled in every direction, and by the time it reached Wildcat Hill it was told that he tried to commit suicide.

"Skinney" Elliston has improved the inside of his home by installing a looking glass. He is taking a course in medicine and will use the glass to watch himself and see if the medicine is doing him any good.

L. A. Burton was arrested today for leaning too hard against the postoffice.

On last Friday night Jimmie McManus saw a star fall in the vicinity of the Red Wing school house, and has left for that place in his wagon. He expects to return with it tonight.

One of the wheels ran off of Walter Ebel's wagon while he was coming down Peavine Ridge yesterday. It rolled on ahead and when he got home it was leaning against the stable.

Jack Goodine who has been following the shade around the post

office for several weeks, has been badly upset for the past few days on account of the cloudy weather. The fish in the creeks are needing rain very bad at present. It has not rained in so long every time the fish hear it thunder they gather under the Gimlet creek bridge. The young fish are growing up as thin as razor back hogs, and will not be worth catching, the dry weather having caused the scales to peel off their backs. It will only be a matter of a

short time before Capt. Jack Barnett appears before the public in a new checked shirt, provided his wife has enough leavings after making her dress.

The weather has been so hot the mail carrier has had to cut some holes in the mail sack to prevent the chickens from smothering.

Bad luck ruins one man in a hundred; good luck ruins the other ninety-nine.
