FOR CONGRESS.

In obedience to the requests of Democrats in every part of the Eighth Congressional District...

As a legal Democrat, I have always supported the nominees and platform of the Democratic party...

I am sincerely grateful for the cordial support given me by the Democrats of the Eighth Congressional District...

If honored by the nomination, I believe, I can with the aid of my brother Democrats, redeem the district and in the future see in the post my best efforts shall be given to the faithful discharge of all duties required of me.

MARCH 15, 1898. JAMES B. MCCREARY, Richmond, Ky.

THE announcement, of Hon. James B. McCreeary, for the democratic nomination for congress in this district, published in this issue, is a source of proud satisfaction to his many warm friends in this county.

How far these claims will go toward securing the nomination remains to be seen, as there are several other candidates in the field, who claim recognition at the hands of the Democratic party.

Several of our farmers are delivering their hemp to Mr. Hudson, at 3c per pound. T. H. Green sold an aged work mule to J. R. Sparks at \$45.

SINCE the adjournment of the Legislature Governor Bradley has vetoed several bills, among them—the bill deducting from teachers' salaries for the week when they attend institutes.

MR. WALTER FORRESTER, in the Interior Journal, while commenting on the leading Senators, in the last session of the Legislature, says: "Senator Farris could get his samples unpacked oftener and quicker than any man in the territory."

FRAIN should not be permitted to set a price on the Maine, nor to dictate the terms of Cuban independence. Uncle Sam should name all the conditions and if an unequivocal compliance does not follow war should be declared at once.

THE preparations for war are still going on, and if Spain refuses to put up for the loss of the Maine, or declines to give Cuba her freedom, hostilities will, and should begin.

IT being conceded that the Maine was destroyed by an explosive, from the outside, congress and the people are anxious for steps to be taken at once, and are impatient over the failure of the administration to announce its policy and the course to be pursued.

THE toll-gate raid, in the western part of Boyle county last Saturday night was worse than any that we have had in Garrard county, and we regret exceedingly that our neighboring county is forced to submit to such a state of lawlessness.

IT is thought that Gov. Bradley will veto the cigarette bill. If he does it will be because it is unconstitutional and cannot be enforced, for the bill is certainly a desirable one, and has in view the welfare of the young men of the country.
