

# Catarrh Leads to Consumption.

A Forerunner of the Most Fatal Disease.

Through its offensive features are sometimes almost unbearable, few people are aware of the danger of which Catarrh is the forerunner. Catarrh invariably leads to Consumption. Growing worse and worse each winter, those who rely upon the usual treatment of sprays, washes and inhaling mixtures find that it is impossible to check the disease with these local applications which only reach the surface. The offensive discharge increases all the while, causing a feeling of personal defilement, and gets deeper and deeper until it is only a question of a short time until the lungs are affected.

The importance of the proper treatment can therefore be readily appreciated. But no good whatever can be expected from local applications, as such treatment never did cure Catarrh, and never will.

"I had such a severe case of Catarrh that I lost my hearing in one ear, and part of the bone in my nose sloughed off. I was constantly treated with sprays and washes, but each winter the disease seemed to have a firm hold on me. I had finally been declared incurable when I decided to try S. S. S. It seemed to get right at the seat of the disease, and cured me permanently. For I have had no touch of Catarrh for seven years."

"Mrs. JOSEPHINE POLHILL,  
"Due West, S. C."  
Those who have had the first touch of Catarrh will save themselves suffering by taking the right remedy at the outset. Others who have for years sought relief and found only disappointment in local treatment will find it wise to waste no further time on sprays, washes, inhaling mixtures, etc., which are only temporary and can not save them from Consumption. Catarrh is a deep seated blood disease. S. S. S. is the only remedy which can reach the very bottom of the disease and cure it permanently.

## FARM AND STOCK NOTES.

The Agricultural Department estimates the crops of corn and oats for 1895 as worth \$83,000,000 more than the same crops for 1897.

Although Col. J. P. Cahn sold his great thoroughbred horse Lissack, a number of brood mares at the Lexington sale, he did not by any means sell out, as he has yet about 23 first-class yearlings and 10 brood mares—Democrat.

On account of low prices for feed there is more money in butter at 20 cents now than there was at 25c a few years ago, but when we undertake to warm up creek water with the corn the profit becomes an evanescent dream.

When you ask for De Witt's Witch Hazel Salve don't accept a counterfeit or imitation. There are more cases of Piles being cured by this, than all others combined. At Stormes' Drug Store.

The Rural New Yorker has been looking up the law about trespassing fowls and it finds that we have no more right to let a fowl stray off the premises than we would have to let a hog or a male go foraging in our neighbor's fields.

Lexington horsemen who attended the big sale in New York the past two weeks have returned home and all are in high spirits over the result. They all say that it looks very much like old times to see horses bringing such good prices, and are confident that good times have come to stay.—Stock F.

It is estimated by competent judges that Clark county, Ky., farmers have marketed, or will market, this season, 7,500 fine, fat cattle at prices that will bring \$453,000 to \$500,000 into the county. Many of these cattle are exported to England. Bourbon is the only county in the state that exceeds Clark in this respect this year, having marketed, it is said, about 10,000 head (or over 550,000).

Constipation prevents the body from ridding itself of waste matter. De Witt's Little Early Risers will remove the trouble and cure Sick Headache, Biliousness, Inactive Liver and clear the complexion. Small, sugar coated, don't gripe or cause nausea. At Stormes' Drug Store.

Court of Appeals of Kentucky in a decision regarding boundary lines between lands, declared that a fence built as dividing line by parties owning adjoining lands, and so mentioned by them for forty years or more, must be regarded in law as establishing such a line, even if it does not agree with the calls of the deeds.

The following is the general rule for measuring corn. Two cubic feet of good sound dry corn in the ear will make a bushel of shelled corn. To get the quantity of shelled corn in a box of corn in the ear, measure the length,

ber 1st, 1897, 93; December 1st, 1898 93. So says Mr. Lucas in his crop report.

The person who disturbed the congregation last Sunday by coughing, is requested to call at any drug store and get a bottle of Foley's Honey and Tar which always gives relief.

The Burgin Messenger says John Huzely bought in Cincinnati last week 135 head of common cattle selected by him at the yards for which he paid \$2.50 a hundred. Mr. Huzely does this every year. He says they pay better than heavy steers, that three of them will eat no more than one heavy bullock, while the gain of the former up to July will be not less than 1,200 pounds. The gain of the latter to October will not exceed 430 pounds. He says he can get on an average 4 cts. a pound for the light stock and 4 1/2 cts. for the heavy stock, making him on the above calculation \$48 for the former and \$19 for the latter.

A poultry breeder says a bushel of corn will produce six pounds of pork worth 35 cents, while this bushel would keep a hen a year. She would lay at least twelve dozen eggs, which averaging 10c a dozen, would equal \$1.20, and she would rear a brood of chickens worth twice as much more, making a total of nearly \$3. Experiments made at the Utah agricultural experiment station, seems to prove the correctness of the statement made above. Another writer says: "Forty dozen eggs will bring more than a load of hay, which requires a great deal of labor to produce and a good sized patch of ground to grow, besides a lot of sweat. Stay the egg question."

IMPORTANT DECISION. Conclusion is Not Proof of Blacklisting by a Railroad Company, Says the Kentucky Court of Appeals.

FRANKFORT, Ky., Dec. 14.—The court of appeals Tuesday decided that a railroad employe who had been blacklisted and in a suit against the road for damages alleged he had thus been deprived of the right to work at his only profession for other roads, could not recover damages, because this allegation was merely a conclusion of the pleader and not shown to be a fact.

The plaintiff in the case is John Hundley, of Marion county, who had been discharged by the L. & N. railroad for neglect of duty. Judge Payne delivered the opinion, and it is the first time the question has ever been decided in Kentucky. The inference can be drawn from the opinion that the employe can recover damages if he proves that the blacklist prevents him from securing employment.

CATHOLIC SOCIETIES. Two of Them Interested in Money Tied Up in a Kentucky Court.—The Estate of Jerry O'Callaghan.

OWENSBORO, Ky., Dec. 14.—The Citizens' Savings bank paid into court \$1,800 attached by the city of Owensboro for taxes on the estate of Jerry O'Callaghan, on deposit in the Citizens' for the years 1891-92 inclusive.

O'Callaghan claimed that the money was not his, having been deced to his brother, Rev. Eugene O'Callaghan, Rev. Father O'Callaghan died, leaving a will bequeathing all the property to the Nazareth and Loretto societies. Jerry O'Callaghan lived for years here in penury and the strictest self-denial, but lending money freely on good security. He is now living at Loretto. The suit is to determine as to whether the money belonged to Jerry O'Callaghan for the years named.

Heavy Verdict for Accidents. LOUISVILLE, Ky., Dec. 14.—The court of appeals Monday at Frankfort reversed the decision of the lower court in the case of Kaufman, Strauss & Co., of this city, against the Louisville Gas Co. It will be remembered that in 1892 a boiler in the plant of the Louisville Gas Co., in the rear of Kaufman, Strauss & Co., exploded and as a result the latter company's building was destroyed. Suit for \$300,000 was entered against the Louisville Gas Co. and a verdict for that amount recovered. Judge Hazelrigg Tuesday reversed the decision.

The Fulton Mystery. FULTON, Ky., Dec. 14.—The body of the dead woman found in the woods near Fulton is that of Mrs. "Dut" Rowlands, and she formerly resided at Ft. Smith, Ark., and married a man there. She was raised in Ohio and has friends there. She was a wanderer in recent years and addicted to the use of morphine. Her husband died three years ago at Van Buren, Ark. It is still believed here that the woman was lured to the spot where found and murdered.
